Orders in Council

Order in Council amending agreement with B. C. Fruit Board re
marketing of Okanagan Valley apples, 1942 crop

P.C. 5248

AT THE GOVERNMENT HOUSE AT OTTAWA

MONDAY, the 5th day of July, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas by Order in Council dated the 5th day of June, 1942 (P.C. 4747), an agreement with the British Columbia Fruit Board respecting the marketing of apples grown in the Okanagan Valley of the Province of British Columbia in the year 1942 was approved;

And whereas thereunder the British Columbia Fruit Board agreed "to explore the possibilities of bulk shipping and marketing" of apples, but no specific basis was mentioned for subsidy of any such sales;

And whereas under Clause 3 thereof the Minister of Agriculture was empowered to assist the Board in obtaining for unwrapped apples an average f.o.b. price of \$1.15 per box;

And whereas the Minister of Agriculture reports that \$45 per ton or 90 cents per 40 pounds of apples was calculated to be the approximate equivalent of \$1.15 per box of unwrapped apples less the saving in costs of boxes and packing.

Now, therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Agriculture, and under the authority of the War Measures Act, is pleased to authorize and doth hereby authorize amendment of Clause 3 of the aforesaid agreement to read as follows, the added provision being indicated by the underlining:

3. The Minister agrees to assist in the marketing of a maximum quantity of 4,750,000 boxes of apples, less any quantity sold by the Board outside of Canada, by paying to the Board the sum or amount by which the f.o.b. value of all sales by the Board in Canada for fresh consumption at prices authorized by the Minister totals less than an average of \$1.25 per box of wrapped pack, \$1.15 per box of unwrapped pack and \$45 per ton or 90c. per box of bulk apples on the basis of 40 pounds being the average net weight of a box of unwrapped pack, for a total quantity of 4,500,000 boxes less any quantity sold by the Board outside of Canada, and the sum or amount by which the f.o.b. value of any additional such sales not exceeding 250,000 boxes totals less than an average of \$1 per box.

A. D. P. HEENEY,
Clerk of the Privy Council.

Order in Council authorizing increase in deliveries of wheat
to mills for gristing

P.C. 5265

AT THE GOVERNMENT HOUSE AT OTTAWA

MONDAY, the 5th day of July, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas under the provisions of regulations made by Order in Council P.C. 10,000 of November 6th, 1942, actual producers of wheat in the area referred to in the said Order in Council were authorized, subject to the terms and provisions of the said regulations, to deliver wheat to mills for gristing purposes up to a total of forty (40) bushels each, during the crop year 1942-43;

And whereas the Minister of Trade and Commerce reports that it is desirable and necessary that such deliveries of wheat be increased and that all producers be authorized to deliver wheat for gristing purposes, as aforesaid;

Therefore His Excellency the Governor General in Council, on the recommendation of the Minister of Trade and Commerce, and under and by virtue of the powers conferred by the War Measures Act, Chapter 206, Revised Statutes of Canada, 1927, is pleased to amend the said regulations and they are hereby amended by deleting therefrom Section 32 and substituting therefor the following:—

32. (1) A producer shall be entitled to deliver wheat grown on the lands described in the permit book to a mill for gristing purposes up to a total of one hundred (100) bushels during the crop year 1942-43, without diminishing the total wheat delivery quota of 15 bushels on the authorized acreage of the said lands;
- (2) Wheat grown on the lands described in the permit book prior to the present year may be gusted as aforesaid;
- (3) The one hundred (100) bushel limit is the gross amount deliverable for the purposes aforesaid by any producer and if costs of gristing are paid in wheat, shall include all costs such as charges for gristing, bags and other items which should properly be so included;
- (4) The flour from such gusted wheat shall be used only by the producer and his own household, and shall not be re-sold by the producer;
- (5) All wheat delivered for such gristing shall be entered by the miller in the permit book at the time of delivery to the mill and marked "Family Gusting";
- (6) Such wheat for gristing shall be received at the mill before flour is delivered in respect thereof and all exchanges of wheat for flour must be made at the mill;
- (7) Mills accepting delivery of wheat under this order shall not establish depots or agencies for the purpose of exchanging flour for wheat on a grist basis and shall not transport flour to be exchanged for wheat with the producers on a grist basis;
- (8) The Board may suspend, revoke, amend or substitute other provisions for any of those contained in the subsections (5), (6) and (7) immediately above.

A. D. P. HEENEY,
Clerk of the Privy Council.

Order in Council *re* Cost of Living Bonus to certain classes of dependents of Members of the Armed Forces.

P.C. 54/5410

Certified to be a true copy of a Minute of a Meeting of the Treasury Board, approved by His Excellency the Governor General in Council, on the 7th July, 1943.

The Board had under consideration the following memorandum from the Honourable the Minister of National Defence:—

1. The undersigned has the honour to state that the Chairman, Dependents' Allowance Board, reports that:—

2. (a) Order in Council P.C. 11690 dated 29th December, 1942, provides that a Cost of Living Bonus be added to the dependents' allowance awarded by the Dependents' Allowance Board in respect of the wives and children of members of the Military and Air Forces of Canada and to the Marriage Allowance payable in respect of the wives and children of members of the Naval Forces of Canada and that the amount of the said bonus be determined as set out therein.

(b) Article 117 of Financial Regulations and Instructions for the Canadian Active Service Force (Canada) provides that the Dependents' Allowance Board

may grant an allowance to a woman who, although not legally married to the officer or soldier concerned, has lived for at least two years prior to his enlistment in domestic relations with him, has been publicly represented as his wife, has been regularly supported by him on a bona fide domestic basis during that period and is not commonly regarded as a loose character. The same provision is made with respect to officers and other ranks of the Royal Canadian Air Force by Article 117 of Financial Regulations and Instructions for the Royal Canadian Air Force on Active Service.

(c) Article 101 of Financial Regulations and Instructions for the Canadian Active Service Force (Canada) provides in part that dependents' allowance may be paid in cases where, in the opinion of the Board, the continued maintenance of a home for the dependent children of an officer or soldier is justified and there is no wife or the wife has abandoned her domestic responsibility or is confined to an institution by reason of mental or physical incapacity, to a daughter, step-daughter, mother, step-mother, mother-in-law, sister, step-sister, sister-in-law, aunt or female first cousin responsible for the care and management of the home for his dependent children. The same provision is made with respect to members of the Royal Canadian Air Force by Article 101 of Financial Regulations and Instructions for the Royal Canadian Air Force on Active Service.

(d) Article 367 of Regulations and Instructions for the Royal Canadian Navy 1942 provides in part that Marriage Allowance is payable in respect of the guardian of a child or children of an officer or rating of the Royal Canadian Navy who is a widower or is separated from his wife.

(e) It is considered that a Cost of Living Bonus, on the same scale as is provided for a wife by Order in Council P.C. 11690 dated 29th December, 1942, should be added to the dependents' allowance awarded by the Dependents' Allowance Board in respect of members of the Military or Air Forces of Canada to the classes of dependents mentioned in paragraphs (b) and (c) hereof and to the Marriage Allowance payable in respect of members of the Naval Forces of Canada to the class of dependents mentioned in paragraph (d) hereof.

(f) Article 113A of Financial Regulations and Instructions for the Canadian Active Service Force (Canada), Article 113A of Financial Regulations and Instructions for the Royal Canadian Air Force on Active Service and Article 383 of Regulations and Instructions for the Royal Canadian Navy 1942 provide that when an officer or a sailor, soldier, or airman in respect of whom dependents' allowances are in issue dies or is officially reported missing, the Dependents' Allowance Board may make monthly payments to his dependent or dependents comprising the dependents' allowance in issue and certain supplements as set out therein for a period of six months following that in which the officer or sailor, soldier or airman dies or is reporting missing.

(g) It is considered that if, pursuant to the provisions of Order in Council P.C. 11690 dated 29th December, 1942, or the provisions of this Order, a Cost of Living Bonus has been added to the dependents' allowance awarded by the Dependents' Allowance Board to a dependent of a member of the Naval, Military or Air Forces who subsequently dies or is reported missing or who on the 1st day of January, 1943, would have been entitled to such Cost of Living Bonus if such member of the Forces had not died or had not been reported missing, such Cost of Living Bonus should continue to be payable during such period as such dependent is in receipt of monthly payments pursuant to the provisions of Article 113A, paragraphs (1) (2) and (3) of Financial Regulations and Instructions for the Canadian Active Service Force (Canada), Article 113A, paragraphs (1) (2) and (3) of Financial Regulations and Instructions for the Royal Canadian Air Force on Active Service, or Article 383, paragraphs (1) (2) (3) and (4) of Regulations and Instructions for the Royal Canadian Navy 1942, providing that such monthly payments are based on the dependents' allowance formerly payable to such dependent together with such supplements as are provided by the said Articles and are not based on the maximum pension rate payable in respect to such member of the Forces.

3. The Deputy Minister of National Defence (Army) therefore recommends that the word "wife" as used in Order in Council P.C. 11690 dated 29th Decem-

ber 1942, shall mean and include as well as a legal wife, a person whose entitlement to dependents' allowance is based on the provisions of Articles 101 (a) or 117 of Financial Regulations and Instructions for the Canadian Active Service Force (Canada) and Financial Regulations and Instructions for the Royal Canadian Air Force on Active Service, or on Section 3 (2) of Article 367 of Regulations and Instructions for the Royal Canadian Navy 1942, or on any provision that may subsequently be incorporated in Regulations and Instructions for the Royal Canadian Navy 1942, conforming in intent to the said Article 117 of Financial Regulations and Instructions for the Canadian Active Service Force (Canada) and Royal Canadian Air Force, provided that no more than one Cost of Living Bonus shall be paid to any individual.

The Deputy Minister also recommends that a Cost of Living Bonus on the same scale as is provided by Order in Council P.C. 11690 dated 29th December, 1942, should be added to the monthly payments awarded by the Dependents' Allowance Board to the dependents of members of the Naval, Military or Air Forces of Canada who have died or who are officially reported missing if such dependents would have been entitled to a Cost of Living Bonus in respect of dependents' allowance for which they would have been eligible but for such death or report, providing that the monthly payments awarded by the Dependents' Allowance Board are based on the dependents' allowance formerly payable to such dependents together with supplements and are not based on the maximum pension rate payable in respect of such members of the Naval, Military or Air Forces.

The estimated cost of the foregoing proposal for 12 months of 1943-44 amounts to \$100,000 which is a recurring expenditure. The sum of \$10,000 is to be paid by the Navy, \$20,000 by the Royal Canadian Air Force. Funds are available for the Army in the amount of \$70,000 in "Special Reserve—Releases" for transfer to the "Pay and Allowances" Allotment, and are also available for the Royal Canadian Navy and Royal Canadian Air Force in the amount stated for the respective services.

4. The Minister of National Defence for Air, the Minister of National Defence for Naval Services and the undersigned concur in the recommendation of the Deputy and the undersigned recommends the same for approval.

The Board concur in the above report and recommendation, and submit the same for favourable consideration.

A. D. P. HEENEY,
Clerk of the Privy Council.

Order in Council *re* Income Tax, female commissioned officers

P.C. 81/5410

Certified to be a true copy of a Minute of a Meeting of the Treasury Board, approved by His Excellency the Governor General in Council, on the 7th July, 1943.

The Board had under consideration a memorandum from the Honourables the Minister of National Revenue, the Minister of Finance, the Minister of National Defence, the Minister of National Defence for Air, and the Minister of National Defence for Naval Services recommending that an Order in Council be passed to provide:—

Rule 2. The taxes payable by any commissioned officer in the Canadian naval, military or air forces in accordance with the rules set out in sections one and two of Paragraph A of the First Schedule to this Act shall not in the aggregate exceed in any taxation year the amount by which the aggregate

of such officer's income and the amount refundable to him under section ninety-three of this Act exceeds

- (a) in the case of any such officer in respect of whom no dependents' allowance is paid, sixteen hundred dollars; and
- (b) in the case of any other such officer, the aggregate of sixteen hundred dollars and the dependents' allowances which would be payable to his dependents if he held the highest rank of warrant or non-commissioned officer in the service to which he belongs but not including any allowance for more than two children: Provided that the aforesaid amount of one thousand six hundred dollars shall not apply in respect of female commissioned officers, and that the Governor in Council may by order fix an amount to apply in respect of such female officers having regard to differences in pay between male and female warrant or non-commissioned officers.

Therefore, the figure to be used in the application of Rule 2 of section 3 of Paragraph A of the First Schedule to the Income War Tax Act in respect of the 1942 taxation period with respect to female commissioned officers of the Women's Royal Canadian Naval Services, Canadian Women's Army Corps and the Royal Canadian Air Force (Women's Division) shall be \$1,022 in lieu of the figure of \$1,600 mentioned in the said Rule 2, but the rate in respect of other female commissioned officers shall be \$1600.

The Board concur in the above report and recommendation, and submit the same for favourable consideration.

A. D. P. HEENEY,

10. *Restrictions on Sales by Distributors*

- (1) Except as provided in subsections (2) and (3) next succeeding, no distributor shall sell or deliver any replacement part (excepting cab assemblies and parts such as fuses, flares and brake linings which are consumed in use), to a consumer unless such consumer delivers to such distributor concurrently with the purchase a used part of similar kind and size for each new replacement part delivered to a consumer. No new replacement part shall be sold or delivered to a consumer to replace a part which can be reconditioned by use of available reconditioning facilities.
- (2) Notwithstanding the provisions of subsection (1) next preceding, a producer or distributor may sell and deliver any replacement part without receiving a used part in exchange therefor, provided that
 - (a) the producer or distributor does not install such part in the consumer's vehicle; and
 - (b) the consumer signs and delivers to the producer or distributor concurrently with each purchase order (or on the written confirmation thereof if such order is placed by telephone or telegram) a certificate in the following form:

Consumer's Certificate

I hereby certify that:

- (a) The replacement parts specified on this order are essential for repair of vehicle(s) which I now own or operate;
- (b) These parts will be used only for replacement of parts that, to the best of my knowledge, cannot be reconditioned by use of available facilities; and
- (c) I will, within thirty days after receiving the new part(s) dispose (through scrap channels) of a used part(s) of similar kind and size for each new replacement part delivered to me, or
- (d) The replacement part(s) specified on this order will be used by me to replace part(s) which have been lost or stolen under the following circumstances,

(Note: Strike out either paragraph (c) or (d) whichever does not apply.)

.....
Motor Vehicle Owner or Operator.

- (3) Notwithstanding the provisions of subsection (1) of this Section, a producer or distributor may sell and deliver tire chains without requiring the surrender of a like number of used tire chains provided the consumer signs and delivers to the producer or distributor concurrently with his purchase order (or on the written confirmation thereof if such order is placed by telephone or telegram) a duly signed certificate in the following form:

Consumer's Certificate re Tire Chains

I hereby certify:

- (a) That the tire chains specified on this purchase order are necessary for the operation of vehicle(s) which I now own or operate.
 (b) That I have not in my possession or under my control any tire chains for the vehicle for which this purchase is being made other than the following chains.

Address

- (4) The certificates referred to in subsections (2) and (3) of this Section must be retained as part of his records by the distributor who makes the sale to the consumer.

11. Restrictions on Distributors' Inventories

- (1) No distributor, whose principal place of business is located in Ontario, Quebec, Nova Scotia, New Brunswick or Prince Edward Island, shall order at any one time more than a thirty-day supply of replacement parts and no such distributor shall accept delivery of replacement parts which, in combination with his existing inventory of replacement parts measured in total dollar cost value, shall exceed a sixty-day supply. Thirty-day supply means a supply in dollar cost value at distributor's cost equal to one-third of the distributor's total sales, at his cost of such parts, sold by him during the three calendar months immediately preceding the date of such order.

(For example, in the case of an order placed in June, 1943, calculate dollar cost value of sales in the months of March, April and May of 1943. This example is also applicable to subsection (2) next following.)

- (2) No distributor, whose principal place of business is located in Manitoba, Saskatchewan, Alberta or British Columbia shall order at any one time more than a forty-five day supply of replacement parts and no such distributor shall accept delivery of replacement parts, which in combination with his existing inventory of replacement parts, measured in total dollar cost value, shall exceed a ninety-day supply. Ninety-day supply means a supply in dollar cost value at distributor's cost equal to the distributor's total sales, at his cost of such parts, sold by him during the three calendar months immediately preceding the date of such order.

(See the explanatory note to subsection (1) of this Section above.)

- (3) Notwithstanding of the restrictions in subsections (1) and (2) next preceding, a distributor may accept delivery of specific items of replacement parts when his stock of all items in the aggregate exceeds, or will by virtue of such acceptance exceed, his maximum permissible inventory as specified in said subsections (1) and (2), but only to the extent necessary to bring such distributor's inventory of those specified items up to a total dollar value equal to the sales of such items shipped from such inventory during the preceding month, or the last thirty day period in which a sale was made.

12. Scrap Material to be Disposed of

No distributor may keep in his inventory, in his possession, or under his control, for a period of more than thirty days, any used, traded-in, imperfect or condemned replacement parts which cannot be reconditioned, but must dispose of the same through the customary scrap channels.

13. *Priority of Essential Emergency Orders*

- (2) Any producer receiving a duly completed Emergency Order Certificate for a replacement part for an essential motor vehicle shall give priority to such order in supply and delivery over any order for another motor vehicle which is not of an emergency nature. The original of such Emergency Order Certificate shall be retained on file by such producer and a copy shall be retained on file by the distributor who filed it and such distributor shall concurrently file a copy of such Emergency Order Certificate and a copy of such Emergency Order with the Motor Vehicle Controller.
- (3) An essential motor vehicle entitled to priority in supply and delivery under the provisions of subsection (2) next preceding, must be an eligible vehicle in the first class or the second class as set out in Section 3 of Order No. A-621 of the Administrator of Motor Vehicles.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Order in Council authorizing interim or partial payments pending
final settlement of amounts payable under Munitions
Contracts terminated prior to completion

P.C. 5452

AT THE GOVERNMENT HOUSE AT OTTAWA

FRIDAY, the 9th day of JULY, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Minister of Munitions and Supply reports that contracts negotiated or entered into by the Minister of Munitions and Supply on behalf of His Majesty usually provide in effect that in the event of termination of the contract prior to completion the contractor shall be entitled to payment for work done under the contract to the date of termination, including reimbursement of the proper costs and commitments incurred or made for the purposes of the contract up to the termination date;

That the amount to which a contractor is entitled on termination of a contract prior to completion is based upon an audit of the contractor's costs and commitments to the termination date and investigations regarding the extent to which the contract has been carried out, and considerable time is required for the making of such audits and investigations; and

That in many cases it will be desirable and in the public interest to make partial payments to such contractors, on account of and in advance of final settlement under contracts which are so terminated, for the purpose, *inter alia*, of providing them with funds necessary to enable them to meet their obligations incurred under such contracts and outstanding at the termination date.

Now, therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Munitions and Supply, and under and by virtue of the powers conferred by The Department of Munitions and Supply Act and by the War Measures Act, is pleased to order and doth hereby order as follows:—

(1) In the event of and upon the termination or cancellation, prior to completion, of a munitions contract (as defined in section 13 of the Department of Munitions and Supply Act) negotiated or entered into by the Minister of Munitions and Supply, authority is hereby granted to make interim or partial payments to the contractor under such contract in such amounts as may be authorized or approved by the Minister of Munitions and Supply on account of and in advance of final settlement of the amounts payable to such contractor by or on behalf of His Majesty under or pursuant to such contract.

(2) Such interim or partial payments may be made upon submission by the contractor of such statements, invoices or other documents as the Minister of Munitions and Supply may require or approve.

(3) All payments so made upon the termination of any such contract shall be deemed to be accountable advances and shall be taken into account upon final settlement of the amounts payable to the contractor under the said contract.

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Therefore, His Excellency the Governor General in Council, on the recommendation of the Acting Minister of Munitions and Supply, and pursuant to the powers conferred on the Governor in Council by the War Measures Act and the Department of Munitions and Supply Act, is pleased to amend the Regulations Respecting Wood Fuel established by Order in Council P.C. 4362 of May 28, 1942, and they are hereby amended by revoking Section 8 thereof and substituting therefor the following:—

Order in Council exempting certain boats on the British Columbia Coast from the obligation to carry a certificated master

P.C. 5494

AT THE GOVERNMENT HOUSE AT OTTAWA

FRIDAY, the 9th day of July, 1943

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Minister of Transport represents that on account of the reported increased scarcity of persons holding certificates as Master, and the need for the efficient operation of the fishing industry on the British Columbia coast, it is deemed necessary to grant relief to the owners of gill net collecting boats during the war period from the obligation under the Canada Shipping Act, 1934, to carry a properly certificated Master;

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Transport, and under the authority of the War Measures Act, and notwithstanding anything contained in the Canada Shipping Act, 1934, and amendments thereto, is pleased to order and doth hereby order as follows:—

Gill net collecting boats of over ten tons gross tonnage operating in the vicinity of canneries on the British Columbia coast are hereby exempted, during the present war, from the obligation to carry a certificated Master as required by the said Act. This exemption shall apply to cases only where a properly certificated Master is not available for employment, and the obligation shall be upon the operators of such boats to see that a competent person is employed as Master.

A. D. P. HEENEY,
Clerk of the Privy Council.

Order in Council amending P.C. 3296, 22nd April, 1943—disposition, balances of wages due deceased seamen

P.C. 5495

AT THE GOVERNMENT HOUSE AT OTTAWA

FRIDAY, the 9th day of July, 1943

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas by Order in Council, P.C. 3296 of April 22, 1943, general authority was given, under the War Measures Act and notwithstanding the provisions of Section 222 of the Canada Shipping Act, 1934, for disposing of the balances of wages of deceased seamen by making payment thereof to the persons named by the seamen in the Articles of Agreement with the crew as their next of kin, such authority to apply to any case where the balance of wages constitutes the only assets of the estate of the

deceased seaman, where it is not intended to take out Letters of Administration, as verified by the Deputy Minister of Transport, and where the amount involved does not exceed \$100.00;

And whereas the Minister of Transport reports that the said general authority has enabled the Department to make quick disposal of the balances of wages of deceased seamen in the cases above referred to, and to avoid the deduction from the moneys payable of legal expenses which are looked upon as a hardship by the widows, mothers and fathers entitled to receive the moneys; and

That it is therefore considered desirable that the general authority given by said Order in Council should be extended to cover any case in which the amount involved does not exceed \$500.00.

(In this connection, it may be observed that, under Section 176 of the Merchant Shipping Act, 1894, the British Ministry of War Transport distributes balances of wages due deceased seamen up to an amount of £100 without the production of Letters of Administration.)

Now, therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Transport, is pleased to amend Order in Council, P.C. 3296, of April 22, 1943, and it is hereby amended by deleting therefrom the words "one hundred dollars" (the last three words thereof) and substituting therefor the words "five hundred dollars".

A. D. P. HEENEY,
Clerk of the Privy Council.

Order in Council to encourage the establishment of stocks of Western feed grains in Eastern Canada—Plans A and B

P.C. 1/5552

Certified to be a true copy of a Minute of a Meeting of the Treasury Board, approved by His Excellency the Governor General in Council, on the 12th July, 1943.

The Board had under consideration a memorandum from the Honourable the Minister of Agriculture reporting that:—

"Whereas the production of live stock and live stock products for food is looked upon as a major contribution by agriculture to the war effort and as a consequence every effort is being made to stimulate such production toward attaining to increased goals, and

Whereas the demand for and consumption of Western grown feed grains in Eastern Canada has increased greatly and will continue to increase, and

Whereas the transportation of such grains into Eastern Canada must mainly be carried out by rail movement due to lack of available shipping on the Great Lakes and St. Lawrence Waterways, and

Whereas the volume of grains required from July 1943 forward, due in part to extremely unfavourable weather conditions prevailing in some Eastern provinces at time of seeding and the subsequent reduced crop prospect is likely to be greatly in excess of that required for the corresponding months of the past season, and

Whereas during the winter months of 1943 the movement of grain by rail into Eastern Canada when severe winter conditions prevailed, proved entirely inadequate to maintain a sufficient volume of supplies, and

Whereas it is accordingly desirable and expedient that a plan be instituted to enable the building up of a reservoir of feed grain in Eastern Canadian provinces, as well as a reserve to be drawn upon as needed during the winter of 1944 when rail shipments undoubtedly will again prove inadequate to meet the anticipated demand for feed and that such plan should be made effective without delay while transportation is available, and

Whereas by Order in Council dated the 8th day of June, 1943, P.C. 7/4690, provision was made for a plan to establish reserve stocks of feed grains in Eastern Canada, and

Whereas it has been found advisable to modify the plan authorized under the said Order in Council, and to include a further plan to encourage the early purchase of grain to be stored in Eastern Canada.

The undersigned, therefore, recommends that Your Excellency in Council, under the authority of the War Measures Act, do approve the two plans herein set out and do authorize the Feeds Administrator, under the supervision of the Agricultural Supplies Board and governed by such regulations as may be deemed necessary in the administration of the plans, to make expenditures as herein authorized, for which purpose the sum of \$1,000,000 for Plan A, and the sum of \$1,000,000 for Plan B be provided, chargeable to monies to be allotted to the Department of Agriculture from the War Appropriation for the use of the Agricultural Supplies Board.

PLAN A—

To pay the difference which might occur through any loss occasioned through price fluctuations or due to the cost of hedging operations, provided that any profit similarly which might accrue shall revert to the Government to offset the cost of carrying such feed grain, and further to pay the difference, represented by legitimate charges, between the cost of oats, wheat or barley released from the reserve stock, and the cost which would be incurred if oats, wheat or barley of comparable grades were purchased currently from in-store stocks basis Fort William-Port Arthur at the time of the release, provided that such charges be made up of one or more of the following:

- (i) Carrying Charges at points East of Fort William or Port Arthur (elevator storage, interest on investment in cost of grain and prepaid rail freight charges at $3\frac{1}{2}$ per cent. compounded monthly plus any additional insurance charges);
- (ii) Difference in transportation occasioned by any excess charges above the all rail rates in moving grain into reserve stocks and to extra charges because of the out of line position of reserve stocks;
- (iii) Local switching charges which may apply within the harbour area where reserve stocks have been stored;
- (iv) Unloading and loading out charges assessed by the terminal elevators.

PLAN B—

To pay a definite amount as hereinafter stated upon all oats, wheat or barley upon which Freight Assistance claims may be satisfactorily established when brought into Eastern Canada for use as feed for livestock or poultry, commencing with purchases made basis in-store Fort William or Port Arthur from July 1st, 1943, to December 31st, 1943 inclusive, provided that stocks of eligible oats, wheat or barley already in store in Eastern Canada at points east of Fort William, Port Arthur or Armstrong, Ontario, and in excess of 1,500 bushels of any one kind of grain may also be included when satisfactory evidence of the eligibility of such stocks is submitted to the Feeds Administrator provided that the following schedule shall govern all payments for the respective month in which the purchase is made:

| | |
|-----------------|-----------------------------|
| July | 3 c per bushel |
| August | $2\frac{1}{2}$ c per bushel |
| September | 2 c per bushel |
| October | $1\frac{1}{2}$ c per bushel |
| November | 1 c per bushel |
| December | $\frac{1}{2}$ c per bushel |

It is further provided that when such payment is made to a dealer and that dealer resells the grain to a farmer or feeder that the price at which the sale is made shall have been reduced by the amount of Government payment allowable for the corresponding month in which delivery of the purchase to the farmer or feeder is made so that the farmer or feeder may be given all possible encouragement to purchase and store for his own use his winter grain requirements.

The undersigned further recommends that Order in Council dated the 8th day of June, 1943, P.C. 7/4690 be revoked."

The Board, having approved the estimate of expenditure chargeable to the War Appropriation, 1943-44, concur in the above report and recommendation and submit the same for favourable consideration.

A. D. P. HEENEY,

Clerk of the Privy Council.

Export Permit Regulations—Dried, Salted, or Pickled Salt Water Fish

The Export Permit Branch has issued blanket permits, identified by the letters FS, to a number of selected Canadian exporters for the exportation of an unlimited amount of dried, salted or pickled salt water fish destined to points within the British Empire or the United States (including Puerto Rico).

In order to exercise the desired control the licensees are being requested to furnish one extra copy of each export entry form B.13B with the "FS" blanket permit number marked clearly thereon in order that after export entry has been completed at the port of exit this extra copy may be forwarded to the Export Permit Branch by the Collector. This procedure has been approved and collectors and officers concerned will be governed accordingly.

Should shipments of this class of commodity reach a frontier port of exit without the extra copy collectors should communicate with the exporter direct and ask him to supply the necessary extra copy in order that it may be stamped, certified and forwarded to the Export Permit Branch.

PART I
Orders in Council

Order in Council amending Wartime Industries Control Board
Regulations

P.C. 4660

AT THE GOVERNMENT HOUSE AT OTTAWA

FRIDAY the 16th day of July, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Wartime Industries Control Board Regulations were made and established by Order in Council P.C. 6835 of August 29, 1941;

And whereas the Minister of Munitions and Supply represents that Section 15 of the said Regulations provides penalties for breaches of Controller's Orders and other offences with respect to Controllers; and should be made applicable to any Order in Council conferring any power or authority upon a Controller as well as to Controller's Orders; and

That for the simplification of enforcement and for the benefit of the Courts, enforcement officers and the defence counsel, offences and the law relating thereto, and the rules governing documentary and other evidence in the Wartime Industries Control Board Regulations should be substantially identical with those established by the Governor in Council in the Wartime Prices and Trade Regulations, and that the Wartime Industries Control Board Regulations should be amended accordingly.

Now, therefore, His Excellency the Governor General in Council, on the recommendation of the Acting Minister of Munitions and Supply, and pursuant to the powers conferred on the Governor in Council by the War Measures Act and the Department of Munitions and Supply Act, is pleased to amend the Wartime Industries Control Board Regulations made and established by Order in Council P.C. 6835 of August 29, 1941, as amended and they are hereby further amended as follows:—

1. Paragraph (f) of Section 1 of the said Regulations is amended to read as follows:—

(f) "order" (except when used in Section 13 of these regulations) includes any regulation, licence, permit, prohibition, requirement, direction, restriction, limitation, instruction, made, given, issued or established by or under the authority of the Minister, any Controller, the Priorities Officer, or the Board pursuant to any power conferred by or under these Regulations, or any other Regulation, Order in Council or Statute relating to a Controller, the Priorities Officer of the Board.

2. Section 14 of the said Regulations is rescinded and the following is substituted therefor:—

"14. (1) In any proceedings in any court

(a) any document certified by the Chairman, Vice-Chairman, Secretary or Assistant Secretary of the Board to be a true copy of an Order shall be received as conclusive evidence that such order was made and issued and that such document is a true copy thereof;

(b) any document purporting to be signed or countersigned by the Chairman, Vice-Chairman, Secretary or Assistant Secretary of the Board shall be received in evidence without proof of the signature or official character of the Chairman, Vice-Chairman, Secretary or Assistant Secretary, as the case may be;

- (c) evidence of any order or other document may be given by the production of a copy thereof purporting to be printed by the King's Printer for Canada, but nothing herein contained shall require proof thereof by such mode;
- (d) the affidavit of a Controller, an Associate Controller, a Deputy Controller, the Priorities Officer or a Deputy Priorities Officer that he has knowledge of the facts, and that an annexed document is a true copy of an order, form or other document shall be received as *prima facie* evidence that such order, form or other document was made, issued or prescribed and that such document is a true copy thereof.

(2) Where, by any Order in Council or order, provision is made for any person to file, forward or deliver any document with or to the Board; a Controller or the Priorities Officer, or any agent or representative of any of them, an affidavit of any officer or employee of the Department of Munitions and Supply of the Government of Canada or any representative of any such officer, sworn before any Commissioner or other person authorized to administer oaths, that he has charge of the appropriate records and that after careful examination and search of such records he has been unable to find in any given case that any such document has been filed with or received by him, shall be received as *prima facie* evidence that no such document was so filed, forwarded or delivered;

(3) In any Court, the affidavit of any officer or employee of the Department of Munitions and Supply of the Government of Canada, or any representative of any such officer, sworn before any commissioner or other person authorized to administer oaths, that he has charge of the appropriate records and that an annexed document is a document filed with or received by the Board, a Controller or the Priorities Officer, or by any office, officer or representative of any of them shall be received as *prima facie* evidence that such document has been so filed or received;

(4) Where evidence is offered by affidavit pursuant to paragraph (d) of subsection (1) or subsections (2) or (3) of this section it shall not be necessary to prove the official character of the person making the affidavit if that information is set forth in the affidavit, nor shall it be necessary to prove the signature or official character of the person before whom such affidavit was sworn.

(5) In any proceedings for an offence against these Regulations

- (a) the original or a copy of any sales slip, charge slip, invoice, voucher, book of account, bill, monthly statement, or other document whatsoever, which is proved on behalf of the prosecution to have been found in or produced from the possession of the accused or his agent or to have been issued by him or his agent and which records or purports to record the price, date, subject matter or other particulars of a sale or purchase shall be *prima facie* evidence that a sale or purchase as indicated therein was made by or on behalf of the accused;
- (b) the original or a copy of any catalogue, price list, handbill, circular letter, pamphlet, card, poster, price-tag or price-marking, letter of quotation, tender, advertisement or other document whatsoever, which is proved on behalf of the prosecution to have been found in or produced from the possession of the accused or his agent or to have been issued or published by or on behalf of the accused, and which records or purports to record the price, date, subject-matter, or other particulars of an offer to sell, shall be *prima facie* evidence that an offer to sell as indicated therein was made by or on behalf of the accused;
- (c) proof of an invitation for offers to buy shall be proof of an offer to sell.

(6) Where any person is charged with an offence against these Regulations, it shall not be necessary for the prosecuting authority to establish that the person so charged did not possess or had not been granted a licence, or had not been exempted from the relative provisions of any relevant Order or Regulations, or had not received any permission required by any relevant Order or Regulations for any act or omission, and if the person so charged pleads or alleges that he had or had been granted such a licence, or had been so exempted or had received such permission, the burden of proof thereof shall be on the person so charged."

3. Section 15 of the said Regulations is amended by deleting therefrom the words: "Any person who contravenes or fails to observe any order of any Controller, Deputy Controller, the Priorities Officer, the Deputy Priorities Officer, or the Board, or who in any manner hinders or obstructs any Controller, Deputy Controller, the Priorities Officer, the Deputy Priorities Officer, or the Board, or any person acting under the authority of any of them, or who makes any false statement or representation to, or for the use or information of, or pursuant to any order of, any Controller, Deputy Controller, the Priorities Officer, the Deputy Priorities Officer, or the Board, or any person acting under the authority of any of them shall be guilty of an offence."

and by substituting therefor the words:

"Any person who contravenes or fails to observe any Order, or these Regulations, or any Order in Council conferring any power or authority upon any Controller or the Priorities Officer, or who in any manner hinders or obstructs the Board, any Controller or the Priorities Officer, or any person acting on behalf of or under the authority of any of them, or who makes any false statement or representation to, or for the use or information of, or pursuant to any Order made by or under the authority of, the Board, any Controller or the Priorities Officer, or to, or for the use or information of, any person acting on behalf of or under the authority of any of them, shall be guilty of an offence against these Regulations."

4. The following sections are added to the said Regulations:

"22. A prosecution under Part XV of the Criminal Code for any offence against these Regulations may be commenced at any time within twelve months from the time of its commission.

23. In any proceedings upon summary conviction, any charge may include several offences against these Regulations committed by the same person and any number of charges against such person may be included in one and the same information; and all such charges may be tried concurrently and one conviction for any or all of such offences may be made, which conviction may but need not provide a separate penalty for each such offence.

24. For the purposes of the prosecution of a person for an offence against these Regulations the offence shall be deemed to have been committed either at the place where it was actually committed or at any place in Canada in which the offender resides or carries on business or is found or apprehended or in custody.

25. No person shall attempt to commit, or aid or abet, or counsel or procure, the commission of any offence against these Regulations, or conspire with any person by any means whatsoever to commit such an offence, or enter into any transaction or arrangement designed for the purpose of having the effect of evading any order or these Regulations, or any Order in Council conferring any power or authority upon a Controller or the Priorities Officer.

26. No person shall, with intent to evade the provisions of any order or these Regulations, or any Order in Council conferring any power or authority upon a Controller or the Priorities Officer, destroy, mutilate, deface, alter, secrete or remove any books, records or property of any kind."

The Repayment of Subsidy Order

P.C. 5518

AT THE GOVERNMENT HOUSE AT OTTAWA

FRIDAY, the 16th day of July, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Minister of Finance reports that Commodity Prices Stabilization Corporation Ltd. was formed to assist in stabilizing the wartime prices of goods to be consumed in Canada; and for such purpose, as an agency of the Government of Canada, pays subsidies, subventions and bonuses and buys and sells goods;

That it has been found impracticable to restrict the benefits of the corporation's activities to the selling price of goods which are ultimately consumed in Canada, with the result that goods on which subsidies, subventions or bonuses have been or may be paid or which have been sold by the corporation at prices below cost and goods, the cost of production of which is or has been reduced by the payment of subsidies, subventions or bonuses in respect of other goods or by sales by the corporation of other goods at prices below cost, are, from time to time, exported or sold as ships' stores for ships clearing for an ocean voyage to a foreign port or for the high seas;

That neither goods sold for export nor transportation on such ships are subject to the maximum prices prescribed by the Wartime Prices and Trade Regulations; and

That it is deemed necessary or advisable for the security, defence, peace, order and welfare of Canada that the financial assistance so extended by the Government should, when goods are sold for export or as stores for such ships, be repaid.

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Finance, and under the authority of the War Measures Act, Chapter 206, Revised Statutes of Canada, 1927, is pleased to make and doth hereby make the following Order:—

ORDER

 - (b) "subsidy" means a subsidy, subvention, bonus or other sum granted by the corporation either by payment in cash or by sales by the corporation at prices below cost; and
 - (c) "subsidized goods" means goods of a class or kind designated by the corporation under Section 3 of this order as a class or kind of goods
 - (i) in respect of which a subsidy is or has been granted; or

3. The corporation may from time to time, by notice published in *Canadian War Orders and Regulations*, designate a class or kind of goods as subsidized goods for the purposes of this order and may by a similar notice cancel or vary any such designation; and any goods of a class or kind so designated shall be conclusively presumed to be subsidized goods for the purposes of this order until the designation of such class or kind has been cancelled pursuant to this section.
4. (1) Every person shall, before he exports any subsidized goods from Canada, repay the subsidy involved in such goods by paying to the corporation an amount which is determined by the corporation to be equal thereto; and no person shall export any subsidized goods from Canada until such amount has been paid to the corporation.
- (2) Every person who sells any subsidized goods to be used as ships' stores for a ship clearing from Canada either for an ocean voyage to a foreign port or for the high seas shall, within thirty days from the sale, repay the subsidy involved in such goods by paying to the corporation an amount which is determined by the corporation to be equal thereto.
- (3) Every person shall, before he takes any subsidized goods out of Canada as ships' stores for a ship clearing from Canada either for an ocean voyage to a foreign port or for the high seas, if the subsidy involved in such goods is not repayable under subsection (2) of this section, repay the subsidy involved in such goods by paying to the corporation an amount which is determined by the corporation to be equal thereto.
- (4) Every amount payable under this section shall be determined by the corporation, either by specific determination or by specifying the method of calculation, and every such determination shall be conclusive for all the purposes of this order.

(5) Notice of any determination under this section published in *Canadian War Orders and Regulations* shall be evidence of such determination.

5. No permit, licence or inspection certificate required by Order in Council P.C. 2448 of the 8th day of April, 1941, or by any other statute or law before any subsidized goods may be exported or taken out of Canada shall be issued until the payments required by this order have been made.

6. Any amount payable to the corporation under section 4 of this order may be recovered in any court of competent jurisdiction by the Attorney General of Canada as a debt due to His Majesty.

7. No person shall institute or continue any action or other proceeding to recover any sum of money paid, before this order came into force, to the corporation or to any person on behalf of His Majesty or of the corporation as a repayment of subsidy involved in goods which were to be or had been exported, or sold or taken out of Canada as ships' stores.

8. (1) Every person who contravenes any of the provisions of this order is guilty of an offence and liable on summary conviction to a fine not exceeding five thousand dollars or to imprisonment for a term not exceeding two years or to both such fine and such imprisonment.

P.C. 5526

AT THE GOVERNMENT HOUSE AT OTTAWA

WEDNESDAY, the 14th day of July, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Minister of Munitions and Supply reports:—

That Morton Engineering and Dry Dock Company Limited and George T. Davie & Sons Limited have been engaged in the construction of naval vessels for His Majesty in shipbuilding plants operated by the said Companies at the City of Quebec and at Lauzon, in the Province of Quebec, respectively;

That the said plants are owned in part by the respective Companies and in part by His Majesty who has provided substantial additional shipbuilding facilities to each of the said Companies and has retained title to the additional facilities so provided; and

That by Order in Council P.C. 4893 of June 15, 1943 a Controller of the business, undertaking, affairs and operations of each of the aforesaid plants was appointed

and since the date of the said Order the said plants have been operated by such Controller on behalf of the said Companies respectively.

And whereas the Minister is of the opinion that to ensure the desired co-ordination of the operations carried on in each of the said plants and the most complete and economical utilization of critical materials, it is desirable that the said plants be operated on behalf of His Majesty under one management;

And whereas the Minister, therefore, considers that it is advisable for the security, defence, peace, order and welfare of Canada and the efficient prosecution of the war, that His Majesty should acquire and take over the operation of the said plants as hereinafter provided and should cause the said plants to be operated on behalf of His Majesty by a Government-owned company, "Quebec Shipyards Limited—Chantiers Maritimes de Quebec Limitee" the incorporation of which has been procured by the Minister pursuant to section 6 (3) of The Department of Munitions and Supply Act;

And whereas the course herein proposed is deemed to be in the public interest.

Now therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Munitions and Supply, and under and by virtue of the powers conferred on the Governor in Council by the War Measures Act and The Department of Munitions and Supply Act, is pleased to order and doth hereby order as follows:

1. The expropriation, pursuant to the provisions of the Expropriation Act, until the cessation of hostilities in the present war and for the period of one year thereafter, of the shipbuilding plant formerly operated by Morton Engineering and Dry Dock Company Limited at the City of Quebec and of the shipbuilding plant formerly operated by George T. Davie & Sons Limited at Lauzon, Quebec, (including lands and/or interests in land, buildings, fixed machinery and equipment and other fixed assets but excluding such portions of the said plants as are now owned by His Majesty) is hereby approved and authorized.

2. All other property, assets and rights owned by the said Companies, respectively, and which are used for or in connection with the operations carried on in the respective plants aforesaid, including machinery, equipment, tools, materials, parts, work-in-process, facilities and services situated in or about the said plants respectively or which relate to or are connected with the operation thereof, are hereby appropriated to and vested in His Majesty (free and clear of any right, title, interest or claim of the said Companies respectively, or any other person, therein or thereto except as hereinafter provided) as of midnight on the day on which the relevant plans and descriptions are deposited under the provisions of the Expropriation Act pursuant to the authorization contained in the last preceding paragraph hereof.

3. The compensation to be paid to the said Companies respectively for the property, assets and rights acquired hereunder or as provided herein shall be such as may be determined by agreement between the Minister of Munitions and Supply and the respective Companies with the approval of the Governor in Council or, in default of agreement, shall be fixed or determined in accordance with the procedure provided by the relevant statutes in that behalf.

4. Notwithstanding anything herein contained, the Governor in Council at any time prior to payment in full of the compensation agreed upon or determined to be payable for the property, assets and rights aforesaid, may determine it to be in the public interest that His Majesty should acquire a greater or lesser interest in such property, assets and rights, or any part thereof, than is provided for herein and may amend this Order accordingly as of the date hereof;

5. The Minister of Munitions and Supply is hereby authorized to enter into a contract with "Quebec Shipyards Limited—Chantiers Maritimes de Quebec Limitee" for the operation of the plants aforesaid by the said Company on behalf of His Majesty, and to make such payments as may from time to time be required for the purposes of such operations, and also to make such payments as the said Minister may deem proper in respect of the current liabilities of Morton Engineering and Dry Dock Company Limited and George T. Davie & Sons Limited incurred in respect of their operation of the said plants respectively, such last mentioned payments to be by way of accountable advances in respect of the compensation payable by His Majesty for the property, assets and rights acquired hereunder or pursuant hereto.

6. The Minister of Munitions and Supply is further authorized to do such further or other acts and things as in his opinion may be necessary or expedient for the carrying out of the foregoing provisions of this Order;

7. The appointment by Order in Council P.C. 4893 of June 15, 1943, of Wilfred Gagnon as Controller of the business, undertaking, affairs and operations of each of the shipbuilding plants aforesaid is hereby revoked, effective on and from the date on which the expropriation and appropriation herein provided for become effective, such revocation to be without prejudice to any acts done by the said Controller prior to such revocation becoming effective in the course of or as incidental to the exercise or discharge of any of his powers, authorities, rights and duties as such Controller or to any rights, privileges or immunities in respect thereof possessed by or vested in such Controller under or by virtue of said Order in Council P.C. 4893.

A. D. P. HEENEY,
Clerk of the Privy Council.

Certified to be a true copy of a Minute of a Meeting of the Treasury Board, approved by His Excellency the Governor General in Council, on the 15th July, 1943.

The Board had under consideration the following report and recommendation from the Honourable the Minister of Finance:—

- “1. That by Order in Council P.C. 9/628 of January 26th, 1942, annual increases in compensation referred to in Section 14 of the Civil Service Act and similar increases to employees not subject to that statute were restricted to employees with total compensation of less than \$3,000 per annum, with effect from and including January 1st, 1942;
2. That discontinuance of such annual increases has the effect of reducing the superannuation benefits of the employees of the Civil Service who might retire within a period of ten years from the last time when the said Order in Council was in effect, and that it is deemed expedient and in the interests of maintaining the efficiency of the said employees to have the said annual increases deemed salary for purposes of calculating the average salary received by any contributor during the last ten years of his service.

The undersigned accordingly has the honour to recommend that under and by virtue of the War Measures Act, Chapter 206 of the Revised Statutes of Canada 1927, Your Excellency in Council be pleased to order:—

2. That no contributions be made by contributors under the said Act in respect of annual increases which are so authorized but not paid;
3. That Departments shall notify the Department of Finance of every employee affected by this Order. Such notice shall contain the name of the employee, the amount of such statutory increase, and the effective date of same;

4. That this order shall be effective as from January 1st, 1942."

Miscellaneous Administrative Orders

DEPARTMENT OF AGRICULTURE

MEAT BOARD ORDER No. 1

Order in Council P.C. 4076 dated December 13, 1939, established the Bacon Board. By Order in Council P.C. 4187 dated June 3, 1943, the Bacon Board was constituted as the Meat Board.

PURPOSE OF ORDER

Order in Council P.C. 2978 dated May 5, 1941, authorized the Bacon Board to regulate the quantity of pork that may be slaughtered for distribution in the domestic market of Canada by any packer or other person when that action is necessary to secure the quantities of bacon and other pork products that are required for export to the United Kingdom.

Under that Order in Council the Bacon Board issued Bacon Board Orders Nos. 1, 2, 3, 4, and 5 to control the slaughtering of hogs and the distribution of pork by issuing licenses and establishing quotas.

It is necessary to make certain changes in those Orders and it is now possible to consolidate them into one Order.

Therefore the Meat Board, with the concurrence of the Wartime Prices and Trade Board, hereby orders as follows:

1. Bacon Board Orders Nos. 1, 2, 3, 4, and 5 are hereby revoked and replaced by this Order. All licenses and requirements issued by the Bacon Board except insofar as they are changed by the Order shall have the same effect as if they had been issued by the Meat Board and shall remain in force until they have lapsed or been suspended or cancelled by the Meat Board.

2. *Meaning of "Quota of Hogs"*—"quota of hogs" means the total number of hogs that a person may slaughter and have slaughtered for him in any calendar week under this Order (section 5); provided that where the number of hogs that a person may slaughter or have slaughtered for him in any calendar week has been specifically stated in any notice or letter signed by the Secretary Manager of the Meat Board, "quota of hogs" shall mean that number of hogs.

3. *Zones*.—In this Order, the zones referred to by number mean the zones, similarly numbered, described in Schedule "A" hereto.

4. *When Licenses are required*.—

- (1) unless a person first obtains a license from the Meat Board or is a holder of license previously issued by the Bacon Board he must not slaughter hogs or process pork for distribution in the domestic market of Canada; however
- (2) this Section does not require a farmer who slaughters hogs produced on his own farm or a retail meat dealer who operates only one retail outlet to obtain a license.

5. *General Restrictions on the Slaughtering of Hogs*.—

- (1) unless otherwise authorized in writing by the Meat Board, a person who holds a license from the Meat Board or the Bacon Board must not in any calendar week slaughter or have slaughtered for him for distribution, for sale or further processing in the domestic market in Canada more than fifty per cent (50%) of the average weekly number of hogs so slaughtered by or for him during the year 1940; however
- (2) where such person slaughters hogs or has hogs slaughtered for him in an "establishment" as defined in the Regulations issued under the Meat and Canned Foods Act, not more than seventy per cent (70%) of the total number of hogs that he may slaughter or have slaughtered for him in any calendar

week shall be hogs other than sows. In this subsection a "sow" means a female pig as defined in the Regulations with respect to the Grading of Hog Carcasses issued under the Livestock and Livestock Products Act 1939.

- (3) Unless otherwise authorized in writing by the Meat Board, a person who does not hold a license issued by the Bacon Board or by the Meat Board but who holds a slaughtering permit to slaughter livestock under any order of the Wartime Prices and Trade Board

(a) and who is situated

(i) in any part of Zones 5, 6, and in any part of Zone 14 except in the cities of Prince Rupert and Nelson; or

(c) if the total number of hogs that a person to whom this subsection applies slaughtered or had slaughtered for him in 1941 was less than 250 hogs he may slaughter and have slaughtered for him in any calendar week seventy-five per cent (75%) of the average weekly number of hogs slaughtered by and for him during the year 1941

- (4) For the purposes of this Order "designated city or town" means,

(a) any city or town having 5,000 inhabitants listed in the table of such cities and towns in the Canada Year Book 1942 published by the Dominion Bureau of Statistics; and

7. *When a person did not slaughter hogs in 1940 or 1941.*

- (1) A person who holds a Meat Board or a Bacon Board license and who did not slaughter hogs or have hogs slaughtered for him during the year 1940 must not slaughter hogs or have hogs slaughtered for him unless he has a quota of hogs specifically fixed for him by a letter or notice signed by the Secretary-Manager of the Meat Board.

MEMORANDUM

CUSTOMS DIVISION

OTTAWA, 12th July, 1943.

*To Collectors of Customs and Excise, at all Ontario Ports and Outports:***Research Laboratory Aircraft—Special Reporting Facilities**

The National Advisory Committee for Aeronautics at its Aircraft Engine Research Laboratory at Cleveland, Ohio, conducts flight research at high altitudes with a view to improving the performance of aircraft engines and all accessories under the extreme conditions of temperature and density existing at high altitudes, including research on icing problems. This is experimental work involving a high element of danger and the risk of forced landings.

Because of the possibility of such forced landings being inadvertently made in Canada, due to the proximity of the airport from which the experiments are conducted, a slight variation from ordinary procedure has been arranged with a view to assisting these pilots in the event of forced landings in this country.

All these pilots will be instructed that should an emergency or forced landing in Canada occur, the pilot, or a member of the crew on his behalf, should endeavour promptly to locate the nearest Collector of Customs and Excise or a Royal Canadian Mounted Police officer, to either of whom he will make an appropriate report inwards at Customs.

These officers will be available to assist the pilot or the crew in their emergency, and will on their behalf notify the Controller of Civil Aviation by wire of the landing, and will report the facts of the forced landing to the nearest immigration inspector in Charge.

Acting Commissioner of Customs.

3. *Prohibitions Respecting Sales and Purchases of New, Used and Retreaded Tires and Tubes and Retreading Services*

(1) No person other than an authorized dealer shall sell any new, used or retreaded tire or any new or used tube or any retreading services to a consumer, and

(NOTE.—In reading this Section 3 particularly, see the extended meanings given to "sale", "sell" and "purchase" under Section 1, paragraph (r). The above paragraph (1) prohibits even the gift or loan of a tire or tube, whether new, used or retreaded, by any person other than an authorized dealer, to any person other than an authorized dealer, and the consumer owner of a tire or tube must not transfer it to another consumer or mount it on the running wheel or spare rim of a vehicle owned by another person, but he can transfer it to an authorized dealer. Two tire owners cannot combine their tires to operate one vehicle.)

(2) No consumer shall purchase any new, used or retreaded tire or any new or used tube or any retreading services from any person other than an authorized dealer, and

(3) No person shall sell any new, used or retreaded tire or any new or used tube or any retreading services to a consumer unless such person sold tires or tubes or retreading services in the ordinary course of business during the year ending October 31, 1941, and unless the aggregate purchase price of the tires and tubes and retreading services bought and used by such person during the year ending October 31, 1941, on vehicles owned by him (or by any firm or corporation in which he had a controlling interest or by which he was controlled, or any subsidiary thereof) was less than 25 per cent of the aggregate purchase price of all the tires and tubes and retreading services bought by such person during the said year. In any prosecution under this sub-section the burden of establishing his qualification to sell to a consumer under the foregoing conditions shall be on the person charged, and

(4) No authorized dealer shall sell to a consumer, and no consumer shall purchase, any new tire or new tube unless such consumer is the owner of a Class A vehicle eligible for new tires or new tubes under Section 5 of this Order, and unless such authorized dealer has received a Tire Ration Permit authorizing such consumer to purchase such new tire or new tube, and

(5) No authorized dealer shall sell to a consumer, and no consumer shall purchase, any retreaded tire unless such consumer is the owner of a Class A vehicle or a Class B vehicle eligible for retreaded tires under Section 5 or Section 6 of this Order and unless such authorized dealer has received a Tire Ration Permit authorizing such consumer to purchase such retreaded tire, and

(6) No authorized dealer shall sell to a consumer, and no consumer shall purchase, any used tire or used tube or any retreading services, unless such consumer is the owner of a Class A vehicle or a Class B vehicle or a Class C vehicle eligible for used tires or used tubes or retreading services under Section 5 or Section 6 or Section 7 of this Order, and unless such authorized dealer has received a Tire Ration Permit authorizing such consumer to purchase such used tire or used tube or retreading services, and

(7) No consumer shall purchase any new, used or retreaded tire, or any retreading services or any new or used tube for any vehicle (referred to in this paragraph (7) as such vehicle),

- (a) unless such vehicle cannot be replaced by any other vehicle owned or controlled by such consumer which other vehicle is not within the same eligible class as the vehicle in respect of which the purchase is being applied for or made, or within a higher eligible class, and

(NOTE.—If the consumer owns or controls another vehicle, equipped with serviceable tires and tubes, which is capable of being, but is not fully employed, for purposes which are specified in the same or a higher eligible class under which the permit to purchase tires or tubes is requested, then the need for the tires and tubes is not established and permit cannot be granted. A purchase of a retreaded tire cannot be made for a vehicle in Class B if the purchaser can replace that vehicle with a vehicle in use in Class C or a vehicle which is not in an eligible class, but it is immaterial that he has vehicles in Class A, which is a higher class. So also the purchase of a new tire or a new tube cannot be made for a vehicle in Class A if the purchaser can replace that vehicle with a vehicle in use in Class B, or Class C, or outside the eligible classes.)

- (b) unless, including any tire or tube purchased, all the tires and tubes of the same rim diameter and of the same cross section (or of a single or combination size cross section shown as interchangeable in the retail price list published by the manufacturer) owned by or under the control of such purchaser anywhere, whether unmounted or mounted on a vehicle, will not be more than sufficient to equip the running wheels and one spare rim of each vehicle owned by or under the control of such consumer which is within the same eligible class as the vehicle in respect of which the purchase is being applied for or made, or within a higher eligible class, and

(NOTE.—For example, a purchase of a retreaded tire for a vehicle in Class B cannot be made if the purchaser will have more than sufficient serviceable tires to equip his Class B and Class A vehicles. The tires from Class C vehicles or vehicles not in an eligible class must first be used, leaving any Class C vehicle to obtain used tires or retreading services. As an alternative, the Class B vehicle might be supplied with used tires or retreading services but it cannot be supplied with a retreaded tire while its owner has serviceable tires in operation in the lower Class C or outside the eligible classes. So also the purchase of a new tire or tube for a vehicle in Class A cannot be made while its owner has tires suitable for that vehicle but in use in a lower class or outside the eligible classes.)

- (c) unless any such tire or tube being purchased is required and will be used by such consumer at once to replace on the running wheel or the spare rim of such vehicle a tire or tube of the same rim diameter and of the same cross section (or of a single or combination size cross section shown as inter-

changeable in the retail price list published by the manufacturer) which is no longer serviceable and cannot be repaired for safe use at the speeds at which such vehicle may reasonably be expected to be operated, and

- (d) unless any retreading services purchased are required by such consumer to retread a tire which if operated further could not be retreaded, and which has been removed from the running wheel or the spare rim of such vehicle, and

(8) No authorized dealer shall sell to a consumer and no consumer shall purchase any new, used or retreaded tire or new or used tube unless

- (a) the tires and tubes to be replaced are removed from the rims of the wheel for the purposes of inspection; and
- (b) the certificate of inspection on the Tire Ration Permit is completed by an authorized dealer; and
- (c) the tire or tube purchased is of the same rim diameter and of the same cross section (or of a single or combination size cross section shown as interchangeable in the retail price list published by the manufacturer) as the tire or tube inspected and delivered up; and
- (d) the consumer delivers to the selling authorized dealer at the time of the purchase the tire or tube so inspected;

provided that the delivery of a tire or tube in exchange is not required

- (i) when a new vehicle has been purchased without a spare and is in an eligible class and the purchase of a tire or tube is authorized for such new vehicle by a Tire Ration Permit in accordance with the conditions and limitations affecting its eligible class, or
- (ii) when the purchaser delivers to such authorized dealer a Tire Ration Permit signed by the Controller or a Tire Rationing Officer authorising the sale of a tire or tube without the exchange of a tire or tube, by reason of the theft of a tire or tube or for any other reason, such Tire Ration Permit to be completed and returned or filed as provided in Section 4 hereof, and

(9) No authorized dealer shall give or make any allowance for any tire or tube delivered in exchange as required by paragraph (d) of Subsection 8 of Section 3 of this order, and every authorized dealer shall retain in his possession for a period of 30 days from the date of its delivery every tire and tube so delivered in exchange, and

(10) No authorized dealer shall sell to any other authorized dealer except a manufacturer or a wholesaler and no authorized dealer except a manufacturer or a wholesaler shall purchase any new tire or new tube or retreaded tire or retreading services or camelback unless such purchasing authorized dealer has delivered and such selling authorized dealer has received at or prior to the time of such sale a Replenishment Permit authorizing such replacement or sale, and

(11) No authorized dealer, except a manufacturer or wholesaler, shall purchase any new tire or any new tube or any camelback unless his inventory of the size and type of such tire or tube or camelback is not more than his normal requirements for thirty days supply; or, in the case of an authorized dealer located in Port Arthur or further west, forty-five days supply, and

(12) Any manufacturer who performs the functions of a wholesaler or retailer, and any wholesaler who performs the functions of a retailer with respect to the same tire, tube, camelback or retreading services, shall comply with subsections (10) and (11) of this Section as if such tire, tube, camelback or retreading services were being purchased from another authorized dealer, and

(13) Any such Replenishment Permit authorizing the sale of a retreaded tire shall also authorize in the alternative a sale of retreading services, or the sale of camelback and any such Replenishment Permit authorizing the sale of retreading services, shall authorize in the alternative, the sale of camelback, such sales of camelback to be made in accordance with the following table:—

TABLE FOR PURCHASE OF CAMELBACK ON REPLENISHMENT PERMIT

| Size or Type of Tire Specified on Permit | Number of Pounds of Camelback Which May Be Purchased |
|---|---|
| Passenger Car type tire..... | 8½ |
| 30 x 5 to and including 7.00 x 20/32 x 6..... | 12 |
| 7.50 x 18 and including 8.25 x 24..... | 16 |
| 9.00 x 20 to and including 11.00 x 24..... | 22 |
| 12.00 x 20 and up..... | 32 |

(14) No authorized dealer shall put into use on any vehicle, owned by him or under his control, any new, used or retreaded tire or any new or used tube, which has not already been in use on the running wheel or the spare rim of a vehicle owned by him or under his control, unless he possesses any Tire Ration Permit which would be required, and unless he has otherwise complied with any provisions of this Order which would be applicable, if he were purchasing such tire or tube from another authorized dealer.

4. Application for Tire Ration Permit to Purchase a New or Used Tire, or Tube, a Retreaded Tire or Retreading Services

(1) Any person being the owner of a Class A or Class B or Class C vehicle and wishing to obtain a Tire Ration Permit to purchase for such vehicle a tire or tube or retreading services in accordance with its eligible class, shall make application in writing to a Tire Rationing Officer on such form as the Controller shall prescribe and each such applicant shall furnish such further information as the Controller or Tire Rationing Officer may prescribe.

(2) Each applicant for a Tire Ration Permit for new tires or new tubes or retreaded tires or retreading services, whose application is granted, shall receive two copies of a Tire Ration Permit signed by the Controller or a Tire Rationing Officer specifying the number and kind or kinds of new or retreaded tires or new tubes or retreading services authorized, together with one copy of a Replenishment Permit. Each such applicant shall deliver to an authorized dealer within 30 days from the date thereof, such Replenishment Permit and both copies of such Tire Ration Permit.

(3) Each applicant for a Tire Ration Permit for used tires or used tubes, whose application is granted, shall receive two copies of a Tire Ration Permit signed by the Controller or a Tire Rationing Officer specifying the number and kind or kinds of used tires or used tubes authorized. Each such applicant shall deliver to an authorized dealer within 30 days from the date thereof, both copies of such Tire Ration Permit.

(4) Any authorized dealer from whom a purchase is made, and any purchaser making such purchase, pursuant to a Tire Ration Permit shall complete and sign the certificate on each copy of such Tire Ration Permit, and such authorized dealer shall return one completed copy of such Tire Ration Permit, within 5 days after completion of such purchase, to the Tire Rationing Office from which it was issued and shall keep on file the other completed copy of the Tire Ration Permit for inspection from time to time.

(5) Notwithstanding the provisions of Sections 3, 5, 6 and 7 of this Order a Tire Rationing Officer or the Controller may in his absolute discretion refuse to issue or may suspend or cancel any Tire Ration Permit or Replenishment Permit or may specify or permit in any Tire Ration Permit the sale of a tire or tube or retreading services available to a vehicle in a lower eligible class.

5. Class A—Vehicles and Equipment Eligible for New, Retreaded or Used Tires or New or Used Tubes or Retreading Services.

PART I
Orders in Council

Order in Council prohibiting exportation of fruits, tobacco, etc.,
except under permit

P.C. 5787

AT THE GOVERNMENT HOUSE AT OTTAWA

TUESDAY, the 20th day of JULY, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas, by Order in Council of October 4, 1941, P.C. 7674, the exportation from Canada of certain articles is prohibited, except under permit issued by or on behalf of the Minister of Trade and Commerce;

And whereas the Wartime Prices and Trade Board has advised that, because of short fruit and tobacco crops in Canada this year, it is desirable, in order to conserve supplies necessary for Canadian requirements, that the exportation of tree fruits and tobacco be similarly prohibited, except under permit;

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Trade and Commerce, and under and by virtue of the power conferred by Section 290 of the Customs Act (Section 10, Chapter 24 of the Statutes of 1937) and by the War Measures Act (Chapter 206 Revised Statutes of Canada 1927) is pleased to order as follows:—

1. The exportation of the following commodities is hereby prohibited, except under permit issued by or on behalf of the Minister of Trade and Commerce:

Group 1—Agricultural and Vegetable Products

Apples, peaches, pears and plums, fresh.

Tree fruits, n.o.p., fresh.

Tobacco, leaf.

Tobacco, cut.

Cigars, cigarettes, snuff, and manufactured tobacco, n.o.p.

2. Schedule one of the said Order in Council (P.C. 7674 of October 4, 1941) is hereby amended by the addition thereto of the above commodities.

3. This Order shall come into force and have effect on and after the 26th day of July, 1943.

A. D. P. HEENEY,
Clerk of the Privy Council.

**Order in Council authorizing use of prisoners of war as
resident labourers on farms, etc.**

P.C. 5864

AT THE GOVERNMENT HOUSE AT OTTAWA

SATURDAY, the 24th day of July, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas Order in Council P.C. 2326 of May 10, 1943, provides that prisoners of war may be assigned to essential employment in Canada upon transfer to labour camps for such purpose;

And whereas the Director of Labour Projects (Prisoners of War), now reports that there is a substantial demand for prisoner of war labour, and in particular by farmers who desire that such prisoners of war should reside on the premises of the employer rather than in a labour camp or hostel, on account of the expense, inconvenience and working time lost in the process of taking prisoners of war from such labour camps to the place of employment and return daily;

And whereas such arrangement appears advisable in order to provide necessary labour and to obtain an efficient use of the same;

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Labour (concurrent in by the Secretary of State for External Affairs and the Minister of National Defence), is pleased to authorize and doth hereby authorize the Minister of Labour and the Minister of National Defence, respectively, as may be appropriate (notwithstanding the provisions of said P.C. 2326) to make necessary arrangements for the use of prisoners of war in farm work or other suitable employment without transfer to labour camps and to place prisoners of war either singly or in groups with and to reside upon the premises provided by the persons employing the services of such prisoners of war.

Clerk of the Privy Council.

Order in Council authorizing use of members of the Military Forces of Canada in farming operations

P.C. 5931

AT THE GOVERNMENT HOUSE AT OTTAWA

SATURDAY, the 24th day of July, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Minister of National Defence reports that it is desirable to have authority for the adoption of additional measures which may be useful in making available such members of the Military Forces of Canada as might be spared from their Military duties for limited periods to assist in farming operations in cases where exigencies of the service permit;

That work of this character which is required to be performed by members of the Military Forces of Canada should be deemed to be military service or duty for the purposes of the Regulations made pursuant to The National Resources Mobilization Act 1940 and the War Measures Act;

That the security, defence, peace, order and welfare of Canada render it expedient that members of the Military Forces of Canada who are ordered to perform work of this character should, if they disobey an order of their superior officer to perform such work, be guilty of an offence under Section 9 of the Army Act and punishable accordingly;

That in the event that any member of the Military Forces of Canada is killed or injured while engaged in such work, the provisions of the Pension Act, Chapter 157, R.S.C. 1927 as amended, should apply in respect of him and his dependents in like manner and to the same extent as if the death or injury arose out of or was directly connected with military service as that expression is defined in said Act; and

That the Minister of National Defence and the Minister of Labour should be authorized to make the necessary financial arrangements in connection with such employment of the Military Forces;

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of National Defence, and pursuant to the provisions of The National Resources Mobilization Act 1940, and the War Measures Act, is pleased to order and doth hereby order as follows:

1. All members of the Active Units and Formations of the Military Forces of Canada including persons who pursuant to the provisions of The National Resources Mobilization Act are attached thereto or are serving therewith may, on the order of the appropriate military authorities, be required to perform services and duties relating or in any way pertaining to the development, operation and maintenance of ranches, farms and gardens and the stock, buildings and equipment thereof.

2. All orders given or issued by the appropriate military authorities pursuant to the provisions of this Order shall be deemed to be lawful orders given by a superior officer, disobedience of which shall constitute an offence under Section 9 of the Army Act and said Section shall, as a part of the law of Canada, be construed accordingly.

3. All members of the Military Forces of Canada performing services or duties relating or in any way pertaining to the development, operation or maintenance of ranches, farms or gardens and the stock and equipment thereof, pursuant to the provisions of this Order shall for the purposes of the Pension Act, The National Resources Mobilization Act, the Militia Act, the War Measures Act and all Regulations and Orders made thereunder, be deemed to be performing military training, service and duty as prescribed therein.

4. The Minister of National Defence and the Minister of Labour are hereby authorized and directed to make all necessary financial arrangements relating to the employment of members of the Military Forces of Canada on ranches, farms or in gardens pursuant to the provisions of this Order including the charges to be made therefor and the disposal of the funds realized thereby. Each member of the Military Forces of Canada, while performing such services or duties as are mentioned in this Order, shall continue to receive his military pay and allowances, including Dependents' Allowance. Upon the termination of such services or duties, if the amount of the charges so arranged by the Ministers of National Defence and Labour as being payable in respect of his performing such services or duties exceeds the amount of the aforesaid military pay and allowances, the amount of such excess shall be payable to such member.

A. D. P. HEENEY,
Clerk of the Privy Council.

Miscellaneous Administrative Orders

DEPARTMENT OF NATIONAL REVENUE

WM No. 39

Fifth Revision

Supplement No. 20

MEMORANDUM

(Customs Division)

OTTAWA, 21st July, 1943.

*To Collectors of Customs and Excise, and others concerned:***Export Permit Regulations—****Dried, Salted, or Pickled Salt Water Fish**

Referring again to Supplement No. 17 in connection with blanket permits identified by the letters "FS" issued to a number of selected Canadian exporters for dried, salted or pickled salt water fish to destinations indicated therein, in view of the more strict controls which are being imposed under the International Convention with regard to salt water fish, it becomes necessary that shipments made under export permits be matched against the import permits issued by the country of destination to cover each importation.

It will therefore be necessary for holders of blanket permits, identified by the letters "FS", to endorse on their export entry form B13-B the number of the United States import permit held by the American buyer or agent importing the fish, as well as the shipper's export permit number. This requirement will cover all fish passing to the Continental United States whether for United States consumption or in bond.

Since pickled fish in barrels is not under International Control, but only under Canadian allocation, it is unnecessary for a United States import permit number to appear on the export entry form B-13 covering pickled mackerel, pickled herring, pickled alewives and smoked herring.

Acting Commissioner of Customs.

WM No. 96

MEMORANDUM

(Customs and Excise Divisions)

OTTAWA, June 14, 1943.

To Collectors of Customs and Excise, and others concerned:

Herein are printed Order in Council (P.C. 1/3233), dated April 19, 1943, as amended by Order in Council (P.C. 4616), dated June 7, 1943, passed under authority of the War Measures Act, and the regulations prescribed thereunder by the Minister of National Revenue and the Minister of Munitions and Supply, respecting munitions and supplies of war, and articles and materials and permanent and non-permanent plant equipment for the manufacture thereof.

The said Orders in Council are effective on and after April 1, 1943.

It will be noted that Order in Council (P.C. 1/3233) rescinds Orders in Council (P.C. 79/2980), (P.C. 85/2105) and (P.C. 1/8255), which had provided for duty free entry and exemption from taxes of the goods mentioned above under certain conditions, and that the said Order provides that all such goods, previously exempted under the said three Orders in Council, shall on and after April 1, 1943, be subject to any duty or tax ordinarily payable thereon under the Customs Tariff and the Special War Revenue Act.

D. SIM,

Commissioner of Excise.

Acting Commissioner of Customs.

Order in Council (P.C. 1/3233), dated April 19, 1943, as amended by Order in Council (P.C. 4616), dated June 7, 1943.

National Revenue

The Board had under consideration a memorandum from the Honourable the Minister of National Revenue reporting that:

"Whereas, the Canadian Government is acquiring from the United Kingdom Government ownership of its capital investments in Canada (plant and equipment) for the production of munitions and supplies of war; and

Whereas, the said plant and equipment, and materials therefor, have been imported, or purchased in Canada, free of Customs duties and exempt from taxes, under Tariff Item 708, or under Orders in Council (P.C. 79/2980), (P.C. 1/8255), (P.C. 53/8097), (P.C. 85/2105), or other Orders in Council which have been cancelled and superseded; and

Whereas, goods imported, or purchased in Canada, for Canadian Government account are subject to full duties and taxes as provided for in the Customs Tariff and the Special War Revenue Act; and

Whereas, under the Mutual Aid proposal of the Canadian Government, munitions and supplies of war will in some cases be supplied and in other cases sold to the United Kingdom Government and Governments of Allied Nations;

Now Therefore, the undersigned, the Minister of National Revenue, with the concurrence of the Minister of Finance and the Minister of Munitions and Supply, has the honour to recommend that, under authority of Section 3 of the *War Measures Act*, it be ordered as follows:

- (1) That Order in Council (P.C. 79/2980) be rescinded as at midnight of March 31, 1943, without prejudice to the right of contractors or the United Kingdom Government to obtain, under the provisions thereof, refunds of duties and/or taxes paid, prior to April 1, 1943, on goods imported, or on deliveries made by Canadian suppliers before that date;
- (2) That Order in Council (P.C. 85/2105) be rescinded as at midnight of March 31, 1943, without prejudice to the right of importers or Canadian suppliers or the Inspection Board of United Kingdom and Canada to obtain, under the provisions thereof, refunds of duties and/or taxes paid, prior to April 1, 1943, on goods imported, or on deliveries made by Canadian suppliers before that date;
- (3) That Order in Council (P.C. 1/8255) be rescinded as at midnight of March 31, 1943, without prejudice to the right of contractors, sub-contractors, suppliers or Governments concerned to obtain, under the provisions thereof, refunds or drawbacks of duties and/or taxes paid, prior to April 1, 1943, on goods imported, or on deliveries made by Canadian suppliers before that date;
- (4) That Customs duties and/or taxes shall not be collected on inventories of munitions and supplies of war, materials and component parts including 'work in process', non-permanent plant equipment, repair or maintenance parts for plant equipment, articles and materials actually consumed in the process of manufacture, and factory expense items, which were imported and

- entered at Customs for home consumption, or purchased in Canada and delivery thereof taken, prior to April 1, 1943, by 'agents' of the Minister of Munitions and Supply duly appointed as such under Order in Council (P.C. 1/8255); provided, however, that a former 'agent' may at any time elect to bring his inventories to a duty and tax included basis subject to the approval of the Minister of National Revenue and the Minister of Munitions and Supply;
- (5) That capital items of machinery and other plant equipment which are transferred to Canadian Government ownership and in respect of which Customs duties and/or taxes have not been paid, or if paid have been refunded prior to April 1, 1943, whether by virtue of **Tariff Item 708, Order in Council (P.C. 1/8255)**, or any other Order of the Governor in Council, by reason of the said capital items having been purchased for the account of the United Kingdom Government or for the joint account of the United Kingdom and Canadian Governments, shall become subject, as of April 1, 1943, to duties and/or taxes provided in the Customs Tariff and the *Special War Revenue Act*, on values as appraised by the appropriate officers of Customs and Excise, but such appraisal and payment of the Customs duties and/or taxes by the Canadian Government shall be deferred until such time as payment is ordered by Treasury Board, and it is hereby ordered that until such order is given by Treasury Board and payment of the outstanding duties and/or taxes made to the Customs and Excise Divisions of the Department of National Revenue the ownership plaques on the said capital items of equipment, as at March 31, 1943, are not to be removed or disturbed;
 - (6) That munitions and supplies of war, materials and component parts, permanent and non-permanent plant equipment, repair or maintenance parts for plant equipment, articles and materials actually consumed in the process of manufacture, and factory expense items, for use in the production or manufacture of munitions and supplies of war, entered at Customs for consumption or delivered by Canadian suppliers on and after April 1, 1943, shall be subject to the usual provisions of the Customs Tariff and the *Special War Revenue Act* as to Customs duties and/or taxes, and the rates therein provided shall be levied and collected thereon;
 - (7) That inasmuch as all contracts placed by the Minister of Munitions and Supply on behalf of the United Kingdom Government and other Allied Governments will be taken over by the Minister of Munitions and Supply on behalf of the Canadian Government as of April 1, 1943, and all contractors will be required to pay Customs duties and/or taxes on goods entered at Customs for consumption or delivered by Canadian suppliers on and after April 1, 1943, for the completion of such contracts, the Minister of Munitions and Supply may adjust the said contracts, which had been negotiated on the basis of duty free entry and exemption from taxes, by increasing the contract prices to the extent of the duties and/or taxes paid by the contractor and for which he shall submit a claim in a form acceptable to the Minister of Munitions and Supply, who may, if he deems it advisable, request the Department of National Revenue to furnish to the Department of Munitions and Supply certificates as to the amounts of Customs duties and/or taxes properly payable to the contractor, after verification of his claim;
 - (8) That the Department of Munitions and Supply shall ensure that increases in contract prices are not paid to the contractor in respect of munitions or supplies of war manufactured or supplied from inventories on hand on or prior to April 1, 1943, on which Customs duties and/or taxes were not paid, and which remain on a duty free and tax exempt basis as in this Order provided;
 - (9) That in cases where munitions or supplies of war, delivered by contractors to the Canadian Government on and after April 1, 1943, are sold by the Canadian Government to the United Kingdom Government or to the United States Government or to the Government of any other Allied Nation, the Department of National Revenue shall pay to the Department of Munitions and Supply a drawback of the Customs duties and/or taxes paid by the contractor on materials and parts which entered into the manufacture of the munitions or supplies of war for which he has been paid by the Department of Munitions and Supply a price inclusive of such duties and/or taxes, and

the Minister of National Revenue is hereby granted authority to pay such drawback either by the standard method of procedure or by payment of a specific amount per unit or a percentage of the contract unit price, whichever he may deem expedient, to be determined by a study of the duty and tax elements in such munitions or supplies by categories, the purpose being to minimize the clerical and investigational work involved, for both contracting companies and Government officials, in connection with the preparation of drawback claims;

- (10) That the Minister of National Revenue and the Minister of Munitions and Supply may prescribe such regulations as they may deem necessary for carrying out the provisions relating to their respective departments of any Order in Council based on this recommendation;
- (11) That any Order in Council based on this recommendation shall be effective on and after April 1, 1943."

The Board concur in the above report and recommendation, and submit the same for favourable consideration.

A. D. P. HEENEY,
Clerk of the Privy Council.

DEPARTMENT OF NATIONAL REVENUE

Customs Division—Re: Imported Goods

It is pointed out that Order in Council (P.C. 1/3233), as amended by Order in Council (P.C. 4616), does not rescind Orders in Council (P.C. 53/8097) and (P.C. 87/10460), which remain in full force and effect. Hence, as examples certain importations may still be entered at Customs as follows:

- (a) Goods which at time of importation are, or are to become, the property of the United States Government or of the Government of any other Allied Nation and to so remain.....Under Order in Council (P.C. 53/8097).
- (b) Goods the property of the United States Government, or the Government of any other Allied Nation, supplied to munitions manufacturers in Canada as a "free issue" for the purpose of incorporation in munitions or supplies of war for such Governments.....Under Order in Council (P.C. 53/8097).
- (c) Goods supplied by the United States Government to the United Kingdom or other Allied Government under Lease-Lend arrangements, either in the form of basic or fundamental Lease-Lend or against "CANSHIP" requisitions of the Department of Munitions and Supply.....Under Order in Council (P.C. 53/8097).
- (d) Goods which at time of importation are, or are to become, the property of the United Kingdom Government, and to so remain, whether used in Canada or subsequently exported therefrom or supplied to munitions manufacturers in Canada as a "free issue" for the purpose of incorporation in munitions or supplies of war for the United Kingdom Government.....Under Order in Council (P.C. 53/8097).
- (e) Materials or parts imported by or on behalf of Canadian manufacturers to be incorporated in goods manufactured in Canada for the United States Government or for the Government of any other Allied Nation except Canada, or for units of their armed forces, for war purposes, under contracts direct with such Governments, payment being made by the aforementioned Governments for the goods so manufactured and the goods to remain the property of such Governments.....Subject to drawback of one hundred per cent of the duties and/or taxes paid upon the imported materials or parts so used, under Order in Council (P.C. 87/10460).

Excise Division—Re: Goods of Canadian Production

Manufacturers who were formerly "agents" under the provisions of Order in Council (P.C. 1/8255) will now quote their sales tax licence numbers and the usual certificate as in the case of other manufacturers when purchasing from Canadian suppliers or when importing goods which are to be incorporated into and form a constituent or component part of the taxable goods they are manufacturing, and materials consumed in the actual manufacturing operations. All other purchases are subject to sales tax and licence and certificate must not be used when purchasing or importing goods, including, but not limited to:

- (a) Permanent or non-permanent plant equipment;
- (b) Abrasives, lubricating oils and fuel oils;
- (c) Plant maintenance and factory expense items;
- (d) Equipment and all supplies for restaurants, cafeterias, hospitals, first aid stations, washrooms and restrooms, etc.;
- (e) All articles of clothing and personal equipment for personnel employed at the plants of former "agents", including, but not limited to, gloves, overalls, coveralls, aprons, shoes and goggles.

- (f) All articles of equipment for personnel employed at the plants of former "agents", which are sold or issued on repayment to such personnel, including, but not limited to, small hand tools, gauges, micrometers and slide rules;
- (g) Foodstuffs and other consumable or expendable supplies for restaurant or cafeteria;
- (h) Canteen supplies,— cigarettes and tobacco, chocolate bars, soft drinks and other taxable articles.

The provisions of the Special War Revenue Act require the payment of the sales tax on all sales of fully manufactured goods or of partially manufactured goods where these are sold to non-licensees.

Where sales of taxable goods are made to the Department of Munitions and Supply, whether on their own account or on account of the Department of National Defence, for delivery in Canada or for export, the sales tax is to be charged in all cases except where the Production and Stores Accounting Division licence number and certificate are given. This licence is to be used for purchase or importation of components and materials which will be supplied and charged to licensed manufacturers for use in the production of taxable goods, on which sales tax will apply on the selling price.

On sales to or importations by the Department of Munitions and Supply (including those goods to be supplied as "free issue") sales tax is to be applied, except in the cases of purchases or importations made free of sales tax through operation of wholesale licence number and relative certificate.

On sales to or importations by the Department of Munitions and Supply, whether on their own account or on account of the Department of National Defence, of goods on which an excise tax is imposed by the *Special War Revenue Act*, such tax applies. Also, excise tax, where applicable, is to apply on purchases or importations of goods by former "agents".

Manufacturers of taxable goods are required to operate under a manufacturer's sales tax licence, and any former "agents" who have not already obtained a licence should do so without delay. Application for the licence should be made to the Collector of Customs and Excise under the survey of whose Port the business is operated.

Sales tax returns must be filed monthly with the Collector with effect on and from April 1, 1943, that is, the first return, covering the month of April, 1943, should be filed not later than May 31, 1943, and all sales tax due on taxable sales made during the month must be paid to the Collector by not later than the last day of the first month succeeding that in which the sales were made.

Manufacturers of goods which are subject to excise tax as imposed by the *Special War Revenue Act* are required to operate under a manufacturer's excise tax licence in addition to the manufacturer's sales tax licence. The excise tax returns must be filed and the tax paid monthly. The procedure with respect to the filing of excise tax returns and making payment of the tax is similar to that in effect in the case of sales tax returns and payment of the tax.

D. SIM,
Commissioner of Excise.
Acting Commissioner of Customs.

Stable Stalls and Fittings,
Stable Stanchions and Fittings,

may consider not more than 30% of half of the total weight of each such item sold or imported by him in the 1940 and 1941 periods as "repair parts" rather than "farm machinery and equipment" in lieu of repair parts quota established pursuant to Section 12, Subsections (5) and (6) hereof and shall be so reported on such forms as are filed under Section 21 hereof. His production or import quota for the remaining 70% shall be determined by multiplying his applicable Schedule "A" quota percentage for the particular item by 70% of one-half of the total weight of each such item sold or imported by him in the 1940 and 1941 periods.

Restriction of Production for Export

14. The total tonnage of farm machinery and equipment, attachments and repair parts, manufactured in Canada during the 1944 period for shipment to any of the

countries named in Schedules "C", "D" and "E" hereto shall not exceed the quota percentage of each schedule multiplied by one-half of the total tonnage shipped from Canada to such countries in the years 1940 and 1941. Each producer's portion of such tonnage shall be allocated by the Administrator as orders for equipment, attachments and repair parts are received from the countries named in said Schedules "C", "D" and "E".

15. No Canadian producer shall, during the 1944 period, manufacture for shipment to the United States of America

(a) a quantity in units of any item of farm machinery and equipment referred to in Schedule "B" hereto in excess of that quantity obtained by multiplying the quota percentage designated in said Schedule for such item by the total quantity thereof shipped by him to the United States of America during the 1940 period or the 1941 period whichever was the greater;

(b) a quantity by weight of attachments in excess of either

(i) that quantity obtained by multiplying the applicable quota percentage designated in the said Schedule "B" by the total net shipping weight of the total quantity of such attachments shipped by him to the United States of America in the 1940 period or the 1941 period whichever was the greater; or,

(ii) 75 per cent of the total net weight of attachments shipped by him to the United States of America in the 1940 period or the 1941 period whichever was the greater, distributing such weight among all or any one or more of such items of attachments at his election;

provided that the manufacturer's option between paragraph (i) and (ii) of this clause shall apply to all attachments produced by him for shipment to the United States of America in the 1944 period;

(c) a quantity by weight of repair parts in excess of that quantity obtained by multiplying the applicable quota percentage designated in Schedule "B" hereto by the total net shipping weight of repair parts shipped by him to the United States of America in the 1940 period or the 1941 period whichever was the greater.

16. Notwithstanding the provisions of Sections 14 and 15 of this Order the Administrator may, with the concurrence of the Department of Trade and Commerce, authorize the diversion of tonnages of farm machinery and equipment, attachments and repair parts, designated for shipment to one of the countries listed in Schedules "C", "D" and "E" hereto to another of said countries, provided, however, that this shall not be construed as authority for increasing the overall tonnage for export as fixed by Section 14 hereof.

17. Nothing in the preceding Sections shall be construed as authorizing any exportation.

18. The Administration may by direction in writing authorize the manufacture of farm machinery and equipment, attachments and repair parts for shipment to any country or territory not referred to in any of the Schedules hereto and may determine the quantities and kinds of farm machinery and equipment, attachments and repair parts which shall be so manufactured and may allocate among producers the kinds and quantities to be manufactured.

19. During the 1944 period any producer may manufacture for export, in addition to the manufacture otherwise permitted for export by this Order, all tonnages of farm machinery and equipment, attachments and repair parts which are necessary to complete his quotas as established pursuant to Administrator's Order A-749 including all amendments thereto and appeals granted thereunder provided he has received an Export Permit covering shipment of such manufacture prior to the date of this Order and provided that such manufacture shall be completed by October 31, 1943.

20. Each producer affected by Sections 14, 15 and 19 of this Order shall file with the Administrator by the 10th day of each month a report showing

(a) total net shipping weight and dollar value of all items of farm machinery and equipment, shipped to each country during the preceding month (starting July 1943) for which export permits were not obtained;

- (b) total net shipping weight and dollar value of all attachments and repair parts shipped to each country during the preceding month (starting July 1943) for which export permits were not obtained.

Records, Audit and Inspection

21. Every person affected by this Order shall keep and preserve for not less than two years accurate and complete records of his inventories, stocks, purchases, production and sales of farm machinery and equipment, attachments and repair parts, and all such records shall, upon request, be submitted for inspection and audit to the Wartime Prices and Trade Board or its duly authorized representatives.

Reports

22. Every producer and importer shall file with the Administrator not later than the 31st day of December 1944, a sworn statement of his production and imports for the 1944 period, which statement shall show,

- (a) farm machinery and equipment, by units, produced and imported for sale in (1) Western Canada and (2) Eastern Canada and the Province of British Columbia;
- (b) attachments and repair parts, by weight and dollar value, produced and imported for sale in (1) Western Canada and (2) Eastern Canada and the Province of British Columbia.

Terms of Sale of Repair Parts to Dealers

23. All repair parts shall be furnished by producers and importers to their dealers on a "sold outright" basis.

Exemptions

24. The provisions of this Order shall be subject to such written exemptions as the Administrator may grant, upon application to him, in individual cases of undue hardship or other special circumstances.

25. In the event of any conflict between the provisions of this Order and those of Administrator's Order A-749 the provisions of this Order except as specifically provided herein shall prevail.

26. This Order shall be effective on and after the 15th day of July, 1943.

Dated at Ottawa, this 12th day of July, 1943.

H. H. BLOOM,
*Administrator of Farm and Construction Machinery
and Municipal Service Equipment.*

APPROVED:

D. GORDON,
Chairman, The Wartime Prices and Trade Board.

NOTE (1): Nothing contained in this Order will be taken as indicating that any materials will be available for use by any manufacturer.

NOTE (2): Section 9 of the Wartime Prices and Trade Regulations reads as follows:—

WARTIME PRICES AND TRADE BOARD

ADMINISTRATOR'S ORDER No. A-818

Concerning Price Adjustment of Food Products in New Size Glass Containers

Under powers given by the Wartime Prices and Trade Board to the Co-ordinator, Foods Administration, it is hereby ordered on behalf of the Board as follows:

INTRODUCTION

When Order goes into force.

1. This Order goes into force on July 22, 1943, and on and after that date governs as to all matters covered by this Order.

Reasons for this Order.

2. Some food products will in future be packed for sale in new sizes of glass containers which differ from the old sizes. In most cases the difference will not be more than 25 per cent.

What this Order covers.

3. This Order sets forth the rules to be followed by packers, wholesalers and retailers, etc., in adjusting selling prices of food products packed in new size glass containers which differ from the old size by not more than 25 per cent. The object of this Order is to stipulate that the highest lawful selling price of food products will remain the same as prevailed at the date of this Order.

What this Order does not cover.

4. This Order does not cover the case where the new size glass container differs from the old size by more than 25 per cent. In that case Order No. 214 must be followed.

Nor does this Order deal with the case where the only change in the glass container is one of style which does not affect the quantity of food product packed. In that case no need for price adjustment arises.

Food Product.

5. (a) *Food product*—This expression includes every edible food product and every ingredient intended for mixing with food. The expression does not however cover fluid milk or cream or other fluid beverage.

(b) *Old size*—This expression refers to a size of glass container in use prior to the date of this Order but the future use of which is to be discontinued.

Commercial Fill.

(c) *Commercial fill*—This expression means that the glass container is as full of food product as will permit of proper processing with the least addition of syrup, vinegar, brine or water.

Offences and penalties.

6. It is an offence for any person to sell or offer to sell a food product packed for sale in a new size glass container to which this Order applies at a price higher than is fixed by this Order. It is also an offence for any person to contravene or fail to observe and comply with any rule or provision of this Order.

Prosecution for an offence will be under The Wartime Prices and Trade Regulations which for each offence provides a penalty up to \$5,000 or imprisonment for a term up to two years, or both fine and imprisonment.

PRICE ADJUSTMENT BY PACKERS

Who is a packer.

7. (1) *Packer*—This word means and includes a person who packs a food product for sale in a glass container, whether or not he actually manufactured or processed that food product.

How a packer adjusts his price for new size glass container.

(2) When a packer commences packing a food product for sale in a new size glass container covered by this Order in the place of his old size glass container, he must, before selling,

- (a) measure to the nearest half-ounce the actual quantity of food product (up to commercial fill level) ordinarily sold by him in his old size glass container nearest to the new size.
- (b) from that measurement calculate his highest lawful selling price per fluid ounce of the food product packed in the old size.
- (c) apply the price per fluid ounce so calculated to the number of fluid ounces of food product (up to commercial fill level) which will ordinarily be packed in the new size, governing himself by the number of ounces blown into the glass.

Where two old sizes are equal, price to be averaged.

(3) Where it so happens that two of his old size glass containers vary from the new size by the same percentage, the packer in that case must in his calculations use the average price per ounce of food product contained in the two old sizes.

Highest selling price for a packer.

(4) The highest lawful price per fluid ounce at which a packer may sell or offer to sell a food product packed in a new size glass container covered by this Order shall be as ascertained and fixed according to this Section.

PRICES AND SIZE NOTICES BY PACKERS

Statement by packers to Foods Administration.

ADMINISTRATOR'S ORDER No. A-829

Respecting Semi-Porcelain Pottery Ware

Pursuant to authority conferred by the Wartime Prices and Trade Board, it is hereby ordered on behalf of such Board, as follows:—

1. For the purposes of this Order, "semi-porcelain pottery ware" means clay base articles known to the trade as such and commonly sold for household use.

2. (1) No person shall manufacture an article of semi-porcelain pottery ware

(a) of a kind or type other than those specified in the Schedule hereto;

(b) in more than one design of each kind or type so specified;

(c) in a size or of a capacity for each kind or type so specified other than as stated opposite that kind or type in the said Schedule or where no size or capacity is so stated than as set forth in the statement required to be filed pursuant to Section 3;

(d) which to the trade is commonly known as "decorated" semi-porcelain pottery ware except by methods and processes limited to the complete artificial pigmentation or colouring of the clay base or complete applied glaze if the same can be accomplished by use of existing or readily available supplies and without use of additional labour or firing;

(e) bearing the emboss, stamp or imprint of the name, crest, trade-mark, back-stamp or other identifying mark of any person other than the manufacturer.

(2) Notwithstanding that the sizes and capacities of any kind or type of semi-porcelain pottery ware stated in the said Schedule are specific, a person who manufactures the same is allowed a tolerance of ten per cent (10%) from such sizes and capacities without thereby being deemed to have contravened the provisions of clause (c) of subsection 1 of this Section.

(3) No person who manufactures any of the said wares shall acquire or use in his manufacture a mould design not in his possession on the effective date of this Order.

3. (1) Every person who manufactures semi-porcelain pottery ware shall, on or before the 14th day of August 1943, file with the said Administrator a list (in tabular form) of the kinds, types, sizes and capacities specified in the said Schedule which he proposes to manufacture and where no sizes or capacities are so specified, in which sizes and capacities he proposes to manufacture.

(2) The said Administrator may, with or without variation, approve in writing the list of kinds, types, sizes and capacities so proposed to be manufactured by such person, and thereafter, that person shall not, except with the written permission of the said Administrator, manufacture semi-porcelain pottery ware of a kind, type, size or capacity other than those so approved.

4. (1) The said Administrator may by written permission authorize a person to manufacture semi-porcelain pottery ware of a type or size not specified in the said Schedule

- (a) to complete articles if on the date of this Order they were in course of manufacture;

- (c) if the unspecified articles can be manufactured at the same time as specified articles without use of additional labour or firing.

(2) A manufacturer who seeks written permission under subsection 1 shall apply in writing for same to the said Administrator and furnish detailed particulars of his proposals.

(3) No article of semi-porcelain pottery ware not specified in the said Schedule shall be manufactured under the terms of a written permission issued under this Section unless and until the price at which the same may be sold has been fixed in accordance with Order No. 214 of the Board.

5. The maximum price including sales tax, at which a person who is a manufacturer of semi-porcelain pottery ware may sell or offer to sell a kind or type thereof specified in the said Schedule and in a size or of a capacity which he may lawfully manufacture shall be,

- (a) to a person other than a wholesaler or jobber, the price set forth opposite the same in the said Schedule;
- (b) to a wholesaler or jobber, the price set forth opposite the same in the said Schedule less a discount therefrom of twenty-five per cent (25%).

6. The maximum price f.o.b. seller's warehouse or place of business, at which a wholesaler or jobber may sell or offer to sell to a retailer semi-porcelain pottery ware of a kind or type thereof specified in the said Schedule and in a size or of a capacity which may lawfully be manufactured shall be the sum of

- (a) the actual price paid by him therefor, but not in any event exceeding the maximum price at which the manufacturer may sell the same to him;
- (b) the transportation charges thereon from the factory, warehouse or other place of business of the manufacturer to his own warehouse or place of business, if or to the extent the charges are not included in the said price and are paid by him; and
- (c) a percentage markup not greater than that normally used by him in pricing the same article of semi-porcelain pottery ware during the basic period, September 15 to October 11, 1941, both inclusive, computed on the sum of the two items mentioned in clauses (a) and (b) of this Section, or if the article was not sold by him during the said basic period not greater than the percentage markup normally used by him in pricing a similar product during the said basic period, computed on the sum of the said two items; but in no case shall the markup of one or the combined markups of two or more wholesalers and jobbers exceed thirty-three and one-third per centum ($33\frac{1}{3}\%$) of the sum of the said two items.

7. The maximum price at which a person other than a manufacturer may sell or offer to sell at retail semi-porcelain pottery ware of a kind or type specified in the said Schedule and in a size or of a capacity which may lawfully be manufactured shall be the sum of

- (a) the actual price paid by him therefor, but not in any event exceeding the maximum price at which his supplier may sell the same to him;

(a) *As an Alloying Element.*

- (1) in alloys other than copper base alloys;
- (2) in ferrous alloys, bearing metals, zinc die castings for carburetors and fuel pumps, and aluminum alloys for pistons.

(b) *For Bearings, Bushings, Thrust Washers* and similar parts which require oil, grease or water lubrication; provided that the use of copper or copper base alloy shall be reduced by substituting steel-backed bushings for solid bronze bushings in all cases where load characteristics and diameter, length or wall thickness, make such substitution practicable.

(c) *As Brazing Materials* for joining functional parts of multiple piece construction.

(d) *For Carburetor and Fuel Pump Parts* having metering, seating, filtering or anti-friction characteristics such as jets, nozzles, seats, metering rods, floats, screens, spring and bearings; drill plugs, where non-corrosive metal is required to facilitate removal for cleaning.

(e) *For Clutch Facings and Brake Linings* and then only in the form of grindings, wire or brass chips for use in clutch facings and brake linings to be used in medium and heavy motor trucks, truck trailers, passenger carriers or off-the-highway motor vehicles, and for brake lining rivets.

(h) *For Non-current Carrying Parts, for Selenoids, relays, and regulators* which must be non-magnetic, alloys containing not more than 71 per cent copper.

(i) *For the Following Gaskets:*

- (1) Spark plug gaskets—internal only.
- (2) washers or solid gaskets where proper sealing is not possible with the use of less critical material.
- (3) water-hole grommets for gaskets where the size necessitates the use of copper or copper alloy or where design provides insufficient sealing with a less critical material.

(j) *For Plating Purposes:*

- (1) Where steel parts are used as a substitute for copper or copper base alloy either in connection with or as part of the carburetor;
- (2) for protection of parts from corrosion due to electrolysis where other material cannot be used, as in hydraulic brake parts which come in contact with brake fluid.

(k) *Powdered Copper* for briquetted bearings.

(l) *For Radiator* water courses and tanks, copper alloy containing up to seventy-one (71%) per centum copper.

(m) *For Speedometers, Tachometers, Heat Indicators and Oil Gauges* in the form of bushings, bearings, magnet cups, reset pawls, springs, speed cups, sectors, gears, shoes, links, washers, pins, bourdon tubes.

(2) inserts (or ferrules) for brake, oil and fuel line tube fittings only, where the use of a less critical material is impracticable.

(p) *For Miscellaneous Parts* as follows:

(1) tire inner tube valve parts,

(2) small stampings in door locks, keys and lock tumblers,

(3) fuel filter screens.

3. *Minimum Amount of Copper to be used*

Whenever copper or copper base alloy is used in the production of any automotive part, as permitted by Section 2 next preceding, such copper or copper base alloy shall be reduced to the minimum practical gauge, size and copper content.

4. *Orders from Department of Munitions and Supply and Department of National Defence Excepted.*

Nothing in this Order shall apply to or affect any production in fulfilment of any purchase order from the Department of Munitions and Supply or the Department of National Defence.

Orders in Council

Order in Council authorizing construction of a water supply system for the village of Dawson Creek, B.C.

P.C. 5226

AT THE GOVERNMENT HOUSE AT OTTAWA

THURSDAY, the 29th day of July, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Minister of Pensions and National Health reports that, according to information received by the Department of Pensions and National Health, the civilian population of the Village of Dawson Creek, in the Province of British Columbia, has, during the last several months, increased from approximately 300 to approximately 2,000;

That a large portion of the population of Dawson Creek, aforesaid, is engaged, directly or indirectly, in work of a kind that makes an important contribution to the war effort of the Dominion;

That it has been represented to the Department by the Department of Health of the Province of British Columbia, which representation is concurred in by engineers of the Federal Government, that the said Village is without adequate water supply and sewage disposal system, and that, as a result, there is danger of an epidemic of disease as well as great fire hazard at that place;

That the Department is further informed that the military authorities of the United States are constructing a water-supply system of a capacity of approximately 2,000,000 gallons per day for the use of their railhead camps in the vicinity of Dawson Creek, and that a 12 to 14-inch pipeline, being part of the water-supply system, will, at its nearest point, be about 2 miles from the said village;

That the Department has been in conference with the Department of Health of the Province of British Columbia and with the municipal authorities of Dawson Creek and as a result, the local United States military authorities were approached with a view to determine, tentatively, whether water could be obtained for Dawson Creek by tapping their pipeline aforesaid;

That the said military authorities having expressed themselves as being able and ready to co-operate in that respect, the Department of Pensions and National Health, through the Secretary of State for External Affairs, has obtained the written consent of the United States Government for the tapping of their water-supply system in order to obtain water therefrom to the extent of not more than 100,000 Imperial gallons per day.

That the Departmental plans call for the construction, along and under public roads or along and under other lands provided for that purpose by public authorities, of a main pipeline from a point on the water-supply system of the United States Government nearest to the Village of Dawson Creek, a distance of approximately 2 miles and the construction of a looped or grid system of water-mains providing a water-distribution system covering the present incorporated area of the Village and including about 20 fire hydrants, together with 3 water hydrants for domestic use, all of which plans are subject to revision in such details as the location of valves and hydrants as may be required during actual construction; and

That it is deemed advisable for the security, peace, order, and welfare of Canada, by reason of the state of war now existing, that the Department of Pensions and National Health arrange, through the Department of Transport, to construct a water-

supply system of the kind aforesaid at and for the said Village subject to the condition that an adequate sewage disposal system be constructed and financed by the Province of British Columbia or by the said Province and the Village of Dawson Creek jointly.

Now, therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Pensions and National Health, and under the authority of the War Measures Act, is pleased to authorize and doth hereby authorize the Department of Pensions and National Health, subject to the condition that an adequate sewage disposal system be constructed and financed by the Province of British Columbia or by the said Province and the Village of Dawson Creek jointly,—

- (a) To enable the provision of a water-supply and distribution system for the Village of Dawson Creek by constructing a main pipeline from said Village to the nearest point on a water-supply system about to be put into use by the military authorities of the United States in the area, a distance of approximately 2 miles, and by laying distribution mains within the Village limits;
- (b) To take advantage of an offer of the United States Government to allow the water-supply system to be tapped at a point nearest to the Village of Dawson Creek and to permit a supply of water therefrom up to but not exceeding 100,000 gallons per day;
- (c) To purchase all necessary material and to pay for all labour in connection with the said water-supply system at a total estimated cost not to exceed \$125,000.00;
- (d) To obtain from the Province of British Columbia and from the municipal authorities of Dawson Creek any assurance deemed by the Department of Pensions and National Health to be desirable to protect and secure its right and title to any installations in the nature of fixtures provided in connection with the water supply system and indemnity against claims arising from infringement of rights of private property owners during the carrying out of the construction of the said project for water supply;
- (e) To enter into arrangements binding on the Province of British Columbia and the said municipal authorities or either of them
 - (i) whereby the United States Government may be assured of payment for water supplied by it to the Village of Dawson Creek;
 - (ii) for the purchase at the end of the war or such other date as may be determined, of the said water supply and distribution system at its depreciated cost, any dispute as to such cost to be settled by arbitration;
 - (iii) for the undertaking by the municipal authorities of the cost of operation, including depreciation, and the cost of maintenance and repairs of the said water-supply and distribution system.
- (f) To engage the services of the Department of Transport for the purpose of carrying out the construction of the said water-supply and distribution system and to pay to that Department, progressively as such construction proceeds or otherwise, any moneys, certified by that Department to be required for such purpose.

His Excellency in Council, on the same recommendation, is further pleased, hereby, to direct that all moneys required and payable for the construction of the water-supply and distribution system aforesaid be charged, subject to approval by the Treasury Board of the estimate of cost in the amount of \$125,000.00 and allotment of funds in conformity with the terms of Order in Council P.C. 6695 of November 19, 1940, to moneys appropriated by Parliament under the War Appropriation Act.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Minister of Labour reports that it is necessary to prescribe rates of working pay for Prisoners of War on labour projects undertaken outside internment camps, pursuant to Order in Council P.C. 2326 of May 10, 1943, and that it is desirable that, where practicable, such rates, while providing a minimum daily wage complying with the provisions of the Prisoner of War Convention (concluded at Geneva July 27, 1929), shall be calculated on an incentive basis with a view to obtaining maximum production results;

Now, therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Labour, is pleased to authorize and doth hereby authorize the Minister of Labour to establish wage scales for Prisoners of War employed on labour projects, pursuant to Order in Council P.C. 2326 of May 10, 1943, on either of the following wage rate bases as he deems advisable, having regard for the nature of the work;

Order in Council amending Regulations for the Administration and Distribution of Naval Military and Air Force Estates 1940

P.C. 5930

AT THE GOVERNMENT HOUSE AT OTTAWA

WEDNESDAY, the 28th day of July, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

WHEREAS by Order in Council dated 19th March, 1940, P.C. 1065, regulations entitled "Regulations for the Administration and Distribution of Naval, Military and Air Force Estates, 1940," were made and established;

And whereas by Order in Council dated 11th December, 1940, P.C. 7249, the said Regulations were amended so as to authorize the Administrator of Estates to have paid to the Receiver General of Canada any balance of money not exceeding in all \$600 at the credit of a deceased member of the Forces in any Bank or other financial institution and to distribute any such balance with the Service estate of any such deceased;

And whereas Order in Council dated 10th June, 1943, P.C. 4738, further amends the said Regulations to permit the Administrator of Estates to deal with any balance of money not exceeding in all \$1,000 at the credit of a deceased member of the Forces in any Bank or other financial institution, and in the case of a deceased member of

the Forces Overseas the Administrator of Estates may take such action where the balance exceeds \$1,000 but does not exceed \$2,000 upon receipt of a direction in writing from the person or persons legally entitled to the deceased member's estate;

And whereas Order in Council dated 11th December, 1940, P.C. 7249, further provides that the Banks and other financial institutions holding balances of money at the credit of deceased members of the Forces must pay such balances at the request of the Administrator of Estates to the Receiver General of Canada providing such balances do not in respect of any one deceased member exceed in all \$600.

And whereas the Minister of National Defence reports that it is now considered that provision should be made for the payment of balances not in excess of \$1,000 in the case of members of the Forces serving in Canada and \$2,000 in the case of members of the Forces serving beyond Canada;

And whereas Order in Council dated 10th June, 1943, P.C. 4738, provides that where balances are physically situated Overseas the Captain Commanding Canadian Ships (C.C.C.S.) with respect to Canadian Naval personnel may, on behalf of the Administrator of Estates, effect payment into the Receiver General of Canada's account;

And whereas the Minister further reports that the title "Captain Commanding Canadian Ships" has now been abolished and the title "Senior Canadian Naval Officer, London" (S.C.N.O. London) has been substituted therefor; and that in addition, and due to the exigencies which may arise it is expedient and desirable that the Administrator of Estates should be empowered to authorize officers holding other appointments to effect on his behalf the payment into the account of the Receiver General of Canada of all said Bank or Post Office savings account balances;

Therefore His Excellency the Governor General in Council, on the recommendation of the Minister of National Defence, concurred in by the Minister of National Defence for Air, the Minister of National Defence for Naval Services, and pursuant to the provisions of the War Measures Act, Revised Statutes of Canada, 1927, Chapter 206, and notwithstanding the provisions of any other Statute, Order or Regulation, is pleased to order that, effective November 1, 1942

- (a) Order in Council dated 11th December, 1940, P.C. 7249, be and it is hereby amended by deleting the comma after the word "member" and the words and figures "exceed in all \$600.00" where they appear in the ultimate line of paragraph 1 thereof substituting therefor the following words and figures—"who was serving in Canada exceed in all \$1,000.00 and in respect to any one deceased member who was serving beyond Canada exceed in all \$2,000.00".
- (b) Order in Council dated 10th June, 1943, P.C. 4738, be and it is hereby amended by revoking Sub-paragraph (d), the operative portion thereof, and substituting therefor the following, "(d) Where it is ascertained that a deceased member has a balance of money at his credit in any Bank and/or Post Office and/or other Financial institution, the Administrator of Estates may cause the amounts thereof, not exceeding in all \$1,000.00, to be paid to the Receiver General of Canada and may distribute same with the Service estate of such deceased. In the case of a member Overseas where the amount of such balance exceeds \$1,000.00 but does not exceed \$2,000.00, the Administrator may take like action upon receipt of a direction in writing therefor duly executed by the person or persons legally entitled to a deceased member's estate. Where such balances are physically situate Overseas, the Senior Canadian Naval Officer, London (S.C.N.O. London) with respect to Canadian Naval personnel, the Canadian Chief Paymaster Overseas with respect to Canadian Military personnel, and the R.C.A.F. Officer i/c Estates with respect to R.C.A.F. personnel, or such other officer or officers as may be authorized in writing by the Administrator of Estates, may, on behalf of the Administrator of Estates, effect such payment into the Receiver General of Canada's account. The Bank, Post Office or other financial institution is relieved from further liability and saved harmless in respect of any such balance upon the payment thereof to the Receiver General of Canada."

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Now, therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Pensions and National Health, and under the authority of the War Measures Act, is pleased to order and doth hereby order as follows,—

“Whereas, under the authority of the War Measures Act, Your Excellency, by Orders in Council dated the 27th day of October, 1939, P.C. 3349, the 7th day of September, 1940, P.C. 4493, the 25th day of June, 1941, P.C. 1/4600, and the 5th day of June, 1942, P.C. 4747, approved agreements with respect to the marketing of apples grown in the Okanagan Valley of the Province of British Columbia during the years 1939, 1940, 1941 and 1942, respectively;

And whereas, by reason of the loss of export markets and other restrictions consequent upon the war, it is desirable and expedient to assist the growers of apples in the Okanagan Valley to market their 1943 crop;

MEMORANDUM OF AGREEMENT entered into this day of ,
A.D. 1943.

BETWEEN :

British Columbia Fruit Board, a body politic under the Natural Products Marketing (British Columbia) Act and having its head office in the City of Kelowna, in the Province of British Columbia, hereinafter called the "Board"

of the First Part

and

His Majesty, the King, in right of Canada and herein represented by the Honourable the Minister of Agriculture, hereinafter called the "Minister"

of the Second Part

Whereas because of losses of export markets and other restrictions resulting from the war the Board anticipates difficulties and possible loss to the growers in the marketing of a substantial proportion of the apples which normally would be marketed in countries at present in the war zone;

And whereas it is desirable to increase production in British Columbia of evaporated apple;

And whereas the Minister has been authorized under the War Measures Act to enter into an agreement with the Board to safeguard the growers in part against losses which otherwise seem inevitable;

Now therefore in consideration of these presents the parties hereto covenant and agree each with the other as follows:—

1. (a) "Apples" means apples grown in the Okanagan Valley in the year 1943;
- (b) "Okanagan Valley" means that part of the Province of British Columbia lying east of the 121st meridian of west longitude and south of the 51st parallel of north latitude.
2. The Board covenants and agrees—
 - (a) that all sales of apples in Canada for fresh consumption shall be at prices authorized by the Minister for respective varieties, grades and packs;
 - (b) during the autumn months to feature in Western Canada the sale of unwrapped packs, and to explore further the possibilities of bulk shipping and marketing;
 - (c) to encourage the increased production of evaporated apple;
 - (d) to receive for the account of the grower or growers' agents all moneys paid by the Minister for apples under the terms of this Agreement;
 - (e) to conduct a pool for the distribution of all moneys paid by the Minister together with all moneys received from sales of apples and after deducting all necessary and proper disbursements and expenses and such compensation as may be determined by the Board for apples excluded from marketing, to make payment to the growers or the growers' agents in accordance with a scheme of distribution determined by the Board which shall be on the basis of like returns for apples of the same variety, grade, size, marketability and packing costs;
 - (f) to maintain detailed records of all sales of apples and all moneys received therefor together with such supporting vouchers as may be necessary for the purposes of any audit which may be required.

3. The Minister agrees to assist in the marketing of a maximum quantity of 4,250,000 boxes of apples, less any quantity sold by the Board outside of Canada, by paying to the Board the sum or amount by which the f.o.b. value of all sales by the Board in Canada for fresh consumption at prices authorized by the Minister totals less than an average of \$1.30 per box of wrapped pack, \$1.20 per box of unwrapped pack, and \$45 per ton or 90 cents per box of bulk apples on the basis of 40 pounds being the average net weight of a box of unwrapped pack.

4. The Minister further agrees to assist an increase in production of evaporated apple by paying to the Board the sum or amount of 15 cents for each pound of production in the Okanagan Valley of Choice Quality evaporated apple in excess of 750,000 pounds, as determined by the Minister, provided however that the total sum payable under this clause shall not exceed \$112,500.

5. Notwithstanding anything contained in Clause 3 hereof the Minister may suspend payment of part or the whole of any account pending investigation as to the quantity or quality of any delivery of apples.

6. Further notwithstanding anything contained in Clauses 3 and 4 hereof, if the Board fails to follow any instructions given by the Minister under this Agreement as to the marketing of apples or if there is any unreasonable failure on the part of the Board to further the purposes of this Agreement or to ensure the maximum enjoyment of its benefits by growers and consumers, the Minister may penalize the Board by reducing the price basis under Clauses 3 and 4 hereof by such amount as he deems fair and just.

In witness whereof the parties hereto have hereunto set their hands and seals.

Fixing the Maximum Prices of Eggs.

Under powers given to the Board by Order in Council P.C. 8528 dated 1st November 1941, and amendments,

THE BOARD HEREBY ORDERS as follows:

Replacements of previous Order. Effective Date.

1. (1) On and after July 28, 1943, Order No. 212 of the Board as amended by its Order No. 248 is revoked and replaced by this Order which fixes the maximum or highest selling prices of wholesalers, retailers and primary producers on sales of domestic hens' eggs in the shell, in the rest of this Order simply referred to as eggs.

Grades of Eggs.

- (2) Grades of eggs referred to are the grades for Canadian Egg Standards as specified in Part I of the Regulations for grading, packing and marking of eggs issued under the Live Stock and Live Stock Products Act, 1939.

Meaning of certain words.

- (3) The word “sell” as used in this Order also covers an offer to sell and the expression “sell at wholesale” refers to any sale which is not a sale at retail.

Incubator eggs not affected.

- (4) This Order does not affect or relate to eggs intended and sold for incubation.

Quoted prices are maximum.

2. (1) All wholesale and retail prices quoted in this Order and its Schedule are the maximum or highest selling prices and must not be exceeded. Prices vary according to grade of eggs.

Wholesale prices include packing and delivery except as specified.

- (2) Wholesale prices include packaging and delivery to the buyer's place of business except in the following cases
 - (a) if delivery by railway, it is to be made at the railway station nearest the buyer's place of business;
 - (b) if delivery is by railway express at the buyer's request, the wholesaler may add to his selling price the difference between railway freight and express charges, if he shows the difference as a separate item on his sales invoice.

Addition to price for eggs in cartons.

- (3) A wholesaler, retailer or primary producer who packs eggs for sale in cartons in lots of one dozen or one-half dozen eggs per carton may add to his selling price of eggs which are sold so packed an amount not more than 2 cents per dozen or 1 cent per half-dozen eggs. This provision applies only where the person who sells is the one who actually packed the eggs in cartons.

Grade B prices.

- (4) Prices of grade B eggs are for grade B large and grade B medium only. Prices of grade B pullet eggs must not be more than the prices for grade C eggs.

Premium quality eggs.

- (5) Sections 3, 4 and 5 do not relate to premium quality eggs and their prices. They are dealt with and priced by Section 6.

Highest prices at wholesale.

3. The highest price at which a person may sell at wholesale eggs of a grade specified in the Schedule is fixed as follows:—

Schedule prices.

- (a) *Schedule prices*—to a buyer whose place of business is in a city or area named in the Schedule—the price stated in the Schedule for that city or area according to the grade of the eggs sold;

Non-Schedule prices.

- (b) *Non-schedule prices*—to a buyer whose place of business is not in a city or area named in the Schedule—the price shall be the sum total of the following two items
- (i) the Schedule price (according to grade of the eggs sold) for the city or area named in the Schedule from which the eggs are shipped to the buyer at his place of business. If transhipped en route the city or area where transshipment takes place is to govern in pricing the eggs; and
 - (ii) the actual cost of transportation of the eggs from the city or area from which they were shipped or transhipped to the buyer's place of business.

Retailers highest buying cost.

4. (1) The highest cost at which a person may buy eggs for resale at retail must not be more than the highest price at which his supplier is allowed to sell the same as fixed by Section 3 and for premium quality eggs by Section 6 PLUS the cost of transportation of the eggs from the railway station nearest to the retailer's place of business, if delivery to him was by railway.

Highest selling prices at retail.

- (2) The highest price at which a person who is not the primary producer may sell at retail eggs of a grade specified in the Schedule is fixed at the sum total of the following two items:—
- (a) his actual delivered cost of the eggs, but in any case not more than his highest delivered cost; and
 - (b) a markup, based on percentage of cost, not more than the markup, based also on percentage of cost, he customarily obtained during the basic period (September 15 to October 11, 1941) on sales by him at retail of eggs of the same grade, but the markup must not in any case be more than 6 cents per dozen eggs.

Highest selling prices for primary producers.

5. The highest price at which a person who is the primary producer may either on the public market or elsewhere sell direct to the consumer eggs of a grade specified in the Schedule is fixed at the sum total of the following two items:—

- (a) the highest price at which eggs of the same grade may be sold at wholesale to a buyer in the same place as the consumer, as fixed by Section 3; and
- (b) a markup not more than 6 cents per dozen.

What may be sold as premium eggs.

6. (1) Premium quality eggs mean and are limited to grade A-1 eggs only. If sold by a primary producer he need not have the egg actually graded A-1, but if they are not actually graded they must be equal to the standards for that grade and sold by him only in sealed cartons plainly printed on the outside "Premium Large Eggs" or "Premium Medium Eggs" or "Premium Pullet Eggs" according to size.

Highest prices of premium eggs at wholesale.

- (2) The highest price at which a person, including a primary producer, may sell at wholesale premium quality eggs shall be the sum total of the following two items:
- (a) the actual price at which he is at that particular time selling at wholesale the corresponding size of grade A eggs. If he is not at that time selling such eggs, then the actual price at which his closest competitor nearest in point of distance is at that particular time selling at wholesale the corresponding size of grade A eggs. In either case the actual price must not be more than the highest price at wholesale at which the corresponding size of grade A eggs could be sold to the same buyer as fixed by Section 3; and
 - (b) an amount not more than the difference between his selling prices at wholesale during the basic period of the corresponding size of grade A-1 and grade A eggs or not more than 4 cents per dozen eggs, whichever of the two is the lesser. If during the basic period he did not sell both of those grades, the amount must not be more than 4 cents per dozen eggs.

Highest prices of premium quality eggs at retail or direct to consumer.

- (3) The highest price at which a person may sell at retail, or a primary producer on the public market or elsewhere may sell direct to the consumer, premium quality eggs shall be the sum total of the following two items:—
- (a) the actual price at which he is at that particular time selling at retail or direct to the consumer the corresponding size of grade A eggs. If he is not at that time selling such eggs, then the actual price at which his closest competitor nearest in point of distance is at that particular time selling at retail or direct to the consumer the corresponding size of grade A eggs. In the case of a retailer the actual price must not be more than the highest price at retail at which the corresponding size of grade A eggs could be sold by him to the same buyer as fixed by Section 4. In the case of a primary producer the actual price must not be more than the highest price at which the corresponding size of grade A eggs could be sold by him to the same consumer as fixed by Section 5; and
 - (b) an amount not exceeding the difference between his selling price at retail or direct to the consumer during the basic period of the corresponding size of grade A-1 and grade A eggs or not more than 4 cents per dozen eggs, whichever of the two is the lesser. If during the basic period he did not sell both of those grades, the amount must not be more than 4 cents per dozen eggs.

Extra payments are part of buying or selling price.

7. Any commission, reward, premium or other payment or consideration of any kind in money or money's worth claimed, stipulated for, taken or made, directly or indirectly, by or to any person in connection with or arising out of a sale, purchase or transaction in eggs shall be and form part of the price at which the eggs are bought or sold.

Order applies to all sales of eggs by primary producers.

8. (1) This Order applies to sales of eggs by primary producers thereof to any manufacturer, processor, wholesaler, retailer or other dealer, and the exemption thereof stated in Order No. 189 of the Board no longer applies.

Price on sales by primary producer to others than consumers.

- (2) On a sale of eggs by a primary producer to any person other than a consumer he must not sell at a higher price than the highest price at which the same grade of eggs may be sold by any person at wholesale as fixed by this Order.

Sales invoice to accompany all sales.

9. (1) Every person including a primary producer who sells eggs at wholesale shall on each sale issue in duplicate a sales invoice showing the name and complete

address of both the seller and the buyer, the date of sale and the grade and price of the eggs sold. Any charge for packing in cartons as specified in Section 2 must be shown also as a separate item on the sales invoice.

Buyer to be given copy of sales invoice. Seller to retain copy of sales invoice.

- (2) One copy of the sales invoice shall be given to the buyer at the time of sale or delivery and the seller shall keep the other copy available for inspection as hereunder stated. If he keeps the copy as above stated he need not keep any other record of the particulars of sale shown on the invoice. Otherwise he must keep the record.

Retailer to give sales slip to buyer if it is requested.

- (3) Every person including a primary producer who sells eggs at retail or direct to the consumer if asked by the buyer must give him an invoice or sales slip showing the date of sale, the seller's name and address, the grade and price of the eggs sold and if sold in a carton, the size of the carton.

Records of purchases of eggs.

- (4) Every wholesaler and retailer immediately he receives any eggs he has bought shall keep a written record showing separately for each place of business he operates, the date of purchase, name and complete address of his supplier, the grade quantity and price of the eggs bought and the cartoning charge if any made by the supplier as permitted by Section 2.

Inspection of records and invoices.

- (5) Every invoice and record which a seller of eggs is required by the Section to keep shall be kept available for inspection by any authorized representative of the Board at any time within twelve months after the date of the transaction to which it relates.

Offences.

10. It is an offence for any person to contravene or fail to observe any of the provisions of this Order and the offender is liable to prosecution under The Wartime Prices and Trade Regulations.

Made at Ottawa this 21st day of July, 1943.

Chairman.

Order No. 301

Controlling the Sale and Distribution of Canned Fruits and Vegetables

Under powers given to the Board by Order in Council P.C. 8528, dated the 1st day of November, 1941, and amendments,

THE BOARD HEREBY ORDERS AS FOLLOWS:—

Purpose of this Order

1. The chief purpose of this Order is to secure for essential needs an adequate supply of certain canned fruits and vegetables. It is necessary to restrict and partially suspend the sale of these canned fruits and vegetables while fresh fruits and vegetables are available so as to conserve the supply of the canned products.

Administrator's Order No. A-498 which applied only to the 1942 pack is revoked as of July 27, 1943, and on and after that date is replaced by this Order.

Application of this Order

2. (1) *Definition*—"Canned Fruits and Vegetables" wherever used in this Order includes canned juices produced from fruits or vegetables.

(2) This Order applies only to canned fruits and vegetables packed for sale in metal containers except the kinds thereof packed in metal containers and known in the trade and sold as "baby foods."

(3) This Order does not apply to frozen fruits or vegetables, nor does it apply to soups, jams, jellies, or marmalade.

Sales to Consumers and Certain Retailers are Restricted

3. (1) "Consumer" means a person who buys canned fruits and vegetables

- (a) for personal or household consumption;
- (b) for use in serving meals or refreshments; or
- (c) for use in the manufacture of any product.

(2) Except as stated in subsections (3) and (4) of this Section, on and after July 27, 1943, no person shall sell, offer to sell, supply or deliver any canned fruits and vegetables to a consumer, unless he obtains written directions from the Deputy Co-ordinator (Requirement and Allocation) of the Foods Administration or from any other duly authorized representative of the Board.

(3) This Section does not apply to stocks of canned fruits and vegetables which a retailer has in his retail premises at the close of business on Monday, July 26, 1943, but it does apply to stocks of those canned products which a chain store operator or a department store operator or any other retailer has on that date in a central warehouse or other place of storage separate from his retail outlet or outlets.

(4) This Section also does not apply to stocks of canned fruits and vegetables which are in transit on July 26, 1943, to a retailer, unless that retailer is a chain store operator, department store operator, or other retailer who has a central warehouse or other place of storage separate from his retail outlet or outlets.

4. On and after July 27, 1943, no person shall sell, offer to sell, supply or deliver any canned fruits and vegetables to any person who sells those canned products at retail in any city or town in Canada, known to the distributive trade as a jobbing centre, in which one or more wholesale distributors of those canned products are carrying on business, unless that retailer operated on July 27, 1943, and continues to operate a central warehouse or other place of storage separate from his retail outlet or outlets, except as may be directed from time to time by the Deputy Co-ordinator (Requirement and Allocation) of the Foods Administration or by any other duly authorized representative of the Board.

5. (1) Every retailer must keep a record of all canned fruits and vegetables received by him from a canner or wholesale distributor on and after July 27, 1943. Retention of invoices covering those canned products shall be a sufficient compliance with this subsection.

(2) Every retailer must retain all canned fruits and vegetables to which this Order applies which are received by him on and after July 27, 1943, except as he may be directed by the Deputy Co-ordinator (Requirement and Allocation) of the Foods Administration, or by any other duly authorized representative of the Board. And if a retailer, without having been so directed, fails to retain that quantity of canned

fruits and vegetables, he shall, in the absence of evidence to the contrary, be presumed to have sold to a consumer those canned fruits and vegetables which he is unable to produce.

Products to be Held by Cannery for Essential Purposes

6. (1) "Canner" means any processor, packer or other manufacturer holding at any time during the year 1943 a manufacturer's sales tax licence issued by the Excise Division of the Department of National Revenue, and producing for sale any of the canned products to which this order applies.

(2) "1942 pack" and "1943 pack" mean respectively canned fruits and vegetables processed from fruits and vegetables grown in 1942 or 1943 as the case may be.

(3) This Section applies only to the 1943 pack of the following canned fruits and vegetables:

| <i>Fruits</i> | <i>Vegetables</i> |
|---------------|-------------------|
| Apricots | Green Beans |
| Cherries | Wax Beans |
| Peaches | Cream Style Corn |
| Pears | Whole Kernel Corn |
| Plums | Peas |
| | Pumpkin |
| | Spinach |
| | Tomatoes |
| | Tomato Juice |

(4) No canner shall dispose of in any manner but shall retain in his possession or under his control the quantities stated in this subsection of his total 1943 pack (by volume of the pack) of all the canned fruits and vegetables listed in subsection (3) of this Section until he receives directions in writing from the Deputy Co-ordinator (Requirement and Allocation) of the Foods Administration, or from any other duly authorized representative of the Board, as to their sale and distribution.

Quantities to be Held by Canner

(a) twenty-five per cent (25%) of the total quantity (by volume of pack) of each kind of canned vegetables listed in subsection (3) except canned tomatoes and tomato juice;

(b) fifty per cent (50%) of the total quantity (by volume of pack) of canned tomatoes and of each kind of canned fruits listed in subsection (3);

(c) thirty-eight per cent (38%) of the total quantity (by volume of pack) of canned tomato juice listed in subsection (3).

(5) If a canner has delivered before the date of this Order any quantity of his 1943 pack of any of the canned fruits and vegetables listed in subsection (3) of this Section he is still required to hold the above specified quantity of his 1943 pack of that product from his stock on hand at the date of this Order and from his production after the date of this Order.

(6) The quantities of canned products which this Section requires a canner to hold until he receives directions must be held by him regardless of any contracts or agreements entered into for the sale or delivery of those products. All contracts and agreements entered into by canners whether before or after the date of this Order are subject to this provision.

Holders of Stocks Must File Inventories

7. (1) Every canner and wholesale distributor, and every retailer operating a central warehouse or other place of storage separate from his retail outlet or outlets, who at the close of business on July 26, 1943, has on hand or in stock any canned fruits and vegetables of the 1942 pack to which this Order applies shall file a report in duplicate of the quantities thereof with the Statistics Branch, Wartime Prices and Trade Board, No. 7 Temporary Building, Ottawa, Ontario. This report must be made on a form according to the Schedules attached to this Order. It must be signed by the person reporting or by some other person duly authorized to sign on his behalf.

(2) The said reports must be filed with the Statistics Branch not later than August 9, 1943.

8. This Order shall be effective on and after July 27, 1943.

Made at Ottawa, this 26th day of July, 1943.

WARTIME PRICES AND TRADE BOARD**Statement of Policy on Equitable Distribution accompanying Order No. 301**

As pointed out in the Order its chief purpose is to secure for essential needs an adequate supply of certain canned fruits and vegetables. This statement of policy applies to those canned products and supplements the general Policy on Equitable Distribution of Goods in Short Supply.

Distribution by Cannery

Cannery must retain the percentage of their canned products as required by the Order. The remainder of those products must be equitably distributed by them among their customers on a pro rata basis according to the quantity of those canned products which the cannery delivered to their respective customers during the period July 1, 1941 to June 30, 1942.

Distribution by Wholesale Distributors

Similarly, every wholesale distributor must also equitably distribute his available supplies of those canned fruits and vegetables on a pro rata basis according to the quantity he released or distributed to his respective customers during the period July 1, 1941, to June 30, 1942. In addition a wholesale distributor must only release or deliver the annual quota of those canned products which his customer is entitled to receive, at the rate of not more than ten per cent of such total annual quota per month. However, any wholesale distributor wishing to take advantage of more favourable transportation costs may deliver more than ten per cent of such quota if prior to or at the time of delivery he notifies his customer of the number of months of the annual quota included in that delivery.

and interest on such advances at such rate or rates and upon such terms of payment thereof as may be agreed upon from time to time between the Board and the said banks with the approval of the Minister of Finance, the said guarantee to be in the form annexed to the said Order in Council or one to like effect, and pursuant thereto the Minister of Finance executed such guarantee in favour of the said banks on August 14, 1942;

And whereas paragraph 8 of the Oats and Barley Regulations provides that the Oats and Barley Regulations shall expire on August 1, 1943, subject to the provisions of section 19 of The Interpretation Act which was thereby made applicable thereto as if the said Regulations were revoked on the said date;

And whereas the Minister of Finance reports that the Board will have oats and barley stocks in country elevators on July 31, 1943, which will have to be paid for thereafter as they attain a deliverable position and the Board will be under the necessity, after August 1, 1943, of borrowing money on the security of oats and barley to be so delivered after August 1, 1943, and it is therefore expedient that the date of expiration of the Oats and Barley Regulations be extended to September 1, 1943, and that the guarantees given by the Minister of Finance be made applicable to advances made by any of the said banks on and after August 1, 1943, until and including August 31, 1943, but not thereafter.

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Finance, and under and by virtue of the powers vested in the Governor in Council by The War Measures Act, Chapter 206, Revised Statutes of Canada, 1927, and otherwise, is pleased to order and doth hereby order as follows:—

- (1) The Oats and Barley Regulations are hereby amended by deleting the words and figures "August 1, 1943" from paragraph 8 thereof and substituting therefor the words and figures "September 1, 1943" and thereafter the said paragraph shall be deemed always to have read as so amended;

- (2) The guarantee dated August 14, 1942, given by the Minister of Finance pursuant to Order in Council P.C. 7207 shall be applicable to any advances made by any of the said banks to the Board from time to time under the authority of the Oats and Barley Regulations as amended by this Order in Council until, and including August 31, 1943, but not thereafter, and that the said guarantees shall be deemed to have been amended and be operative accordingly.

**Order in Council authorizing the exercise of original jurisdiction by
District Courts of the United States of America of prizes
captured on the high seas**

P.C. 6092

AT THE GOVERNMENT HOUSE AT OTTAWA

TUESDAY, the 3rd day of August, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Minister of National Defence for Naval Service reports:

- (a) That by United States of America Public Law 704, 77th Congress entitled "An Act to Facilitate the Disposition of Prizes Captured by the United States during the Present War, and for Other Purposes", the District Courts of the said United States are given original jurisdiction of all prizes captured during the present war on the high seas if said capture is made by authority of the said United States or is adopted and ratified by the President thereof and the prize is brought into the territorial waters of a cobelligerent or is taken or appropriated for the use of the United States on the high seas or in such territorial waters, including jurisdiction of all proceedings for the condemnation of such property taken as a prize.

- (b) Section 3 of the said Act provides that the said jurisdiction of prizes brought into the territorial waters of a cobelligerent shall not be exercised, nor shall prizes be taken or appropriated within such territorial waters for the use of the said United States unless the Government having jurisdiction over such territorial waters consents to the exercise of such jurisdiction or to such taking or appropriation.
- (c) Section 7 of the said Act provides that a cobelligerent, which consents to the exercise of the said jurisdiction with respect to prizes of the said United States brought into its territorial waters and to the taking or appropriation of such prizes within its territorial waters for the use of the said United States, shall be accorded, upon Proclamation by the President, like privileges with respect to prizes captured under authority of such cobelligerent and brought into the territorial waters of the said United States or taken or appropriated in such territorial waters for the use of such cobelligerent and that reciprocal recognition and full faith and credit shall be given to the jurisdiction acquired by Courts of a cobelligerent thereunder and to all proceedings had or judgments rendered in the exercise of such jurisdiction.
- (d) The Government of the United Kingdom, a cobelligerent, has consented to the exercise of this jurisdiction with respect to prizes of the United States of America brought in, taken or appropriated within the territorial waters of the United Kingdom and Sierra Leone and the United States Government by a proclamation of the President of the United States dated 30th January, 1943, has accorded the United Kingdom Government like privileges with respect to the prizes captured under the authority of the said Government and brought in, taken or appropriated in the territorial waters of the said United States.
- (e) By Order in Council P.C. 2489 of September 5th, 1939, the Exchequer Court of Canada on its Admiralty side is constituted and established a Prize Court and is thereby authorized and required to take cognizance of and judicially proceed upon all and all manner of captures, seizures, prizes and reprisals of all ships, vessels and goods.
- (f) It is expedient and desirable, in view of the close coordination of effort in respect of maritime warfare that exists between the United States of America and Canada that the Dominion of Canada should enter into a reciprocal arrangement with the said United States regarding jurisdiction of all prizes brought into the territorial waters of the other or taken or appropriated for their use in such territorial waters.
- (g) The Under-Secretary of State for External Affairs reports that the Secretary of State of the United States has given assurance that, upon receipt of the consent of the Government of Canada, as required by Sec. 3 of the Act above referred to, the said United States will take appropriate measures in accordance with Sec. 7 of the said Act to confer reciprocal privileges with respect to prizes upon the Government of Canada.
- (h) The Chief of Naval Staff and the Deputy Minister for Naval Services report that it would tend to the best interests of the Naval Service if such a reciprocal arrangement were entered into.

2. Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of National Defence for Naval Services, concurred in by the Secretary of State for External Affairs and under and by virtue of the War Measures Act, Chapter 206 of the Revised Statutes of Canada, 1927, and notwithstanding the provisions of any other statute, order or regulation, is pleased to consent to and doth hereby consent to and authorize the exercise of original jurisdiction by the District Courts of the United States of America of all prizes captured during the present war on the high seas if said capture was made by authority of the said United States or was adopted and ratified by the President of the said United States and the prize was brought into the territorial waters of Canada or was taken or

appropriated for the use of the said United States on the high seas or in such territorial waters including the jurisdiction of all proceedings for the condemnation of such property taken as prize.

P.C. 6180

AT THE GOVERNMENT HOUSE AT OTTAWA

TUESDAY, the 3rd day of August, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Minister of Munitions and Supply represents that the Wood Fuel Controller reports that the shortage of wood fuel makes it desirable to establish a camp or camps in the Riding Mountains in the Province of Manitoba and, if it appears to be expedient to do so, in other places, for the purpose of housing prisoners of war or other available labour to produce wood fuel; and to supply and maintain for such camps the necessary facilities and equipment for the production of wood fuel and for its transportation to railway and other marketing outlets;

That it is necessary to provide funds for the purpose aforesaid and for the purpose of paying for the labour of the persons occupying the said camps and engaged in the production of wood fuel, and that the Department of Munitions and Supply holds on its file Financial Encumbrance No. 2213 for the sum of \$500,000 to cover the anticipated expenditures for the purposes aforesaid during the current fiscal year;

That it is proposed to dispose of the wood fuel so produced to meet shortages in the supply thereof existing from time to time; and

That the Supplementary 1941 War Appropriation Act provides that, with the approval of the Governor in Council, any moneys received as a refund or repayment of any advance, loan or expenditure made under the authority of the said Act or the War Appropriation Acts of 1939, 1940 and 1941 may be re-expended, advanced or loaned for the purpose of the said Act.

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Munitions and Supply and pursuant to the powers conferred by the War Measures Act and the Department of Munitions and Supply Act, is pleased to order and doth hereby order as follows:—

Order in Council re certain specified types of losses connected with distribution of War Savings Certificates, etc.

P.C. 56/6181

Certified to be a true copy of a Minute of a Meeting of the Treasury Board, approved by His Excellency the Governor General in Council on the 4th August, 1943

The Board had under consideration a memorandum from the Honourable the Minister of Finance reporting:—

- "1. That under Order in Council P.C. 11/7359 dated August 19, 1942, provision was made for certain specified types of losses connected with the distribution of war savings certificates through the mails, and an allotment out of war appropriation was made of a sum of \$5,000 out of which such losses were to be paid;
2. That during the fiscal year ending March 31, 1943, the National War Finance Committee has learned that with the adoption of new and more far-reaching methods of selling war savings stamps and war savings certificates and Victory Bonds of small denomination, certain miscellaneous small losses inevitably occur in circumstances which preclude the attaching of blame to any of the volunteer workers engaged in the selling campaigns;
3. That the effectiveness of the popular selling campaigns depends largely upon the goodwill and enthusiasm of the voluntary workers who are assisting in carrying out the campaigns organized by the National War Finance Committee, and that in order to maintain that goodwill, and in the interests of promoting the sale of the said Dominion Government securities, the National War Finance Committee have found it necessary and expedient to reimburse the workers (or the purchasers as the circumstances warrant) for the aforementioned small losses;
4. That during the fiscal year ending March 31, 1943, the National War Finance Committee has made reimbursement of the aforementioned type of losses in various small amounts totalling \$443.64, and that there are outstanding two claims for reimbursement for \$19.75 and \$2 respectively, all as more fully set out in the attached memorandum of disbursement made by the National War Finance Committee and attached hereto as Exhibit A;
5. That the National War Finance Committee and the undersigned recommend that an allotment of funds be made to meet this miscellaneous type of loss so as to facilitate the work of the National War Finance Committee in organizing the popular selling campaign for Victory Bonds, war savings certificates and war savings stamps, and to maintain the good will of the voluntary workers engaged from time to time in such campaigns.

The undersigned accordingly, under and by virtue of the War Appropriation Act, 1943, and the War Measures Act, has the honour to recommend:—

1. That there be allotted out of moneys appropriated by the War Appropriation Act, 1943, a sum of \$2,000 to provide for the losses hereinafter specified;
2. That in any case where a loss not in excess of \$200 has occurred as an unavoidable consequence of the method of selling and distribution of war savings stamps, war savings certificates or Victory Bonds, and where the National War Finance Committee after investigation is satisfied that the claim is a *bona fide* one and should be paid in the interests of promoting the sale of the said Dominion Government securities, and the National War Finance Committee so certified to the Comptroller of the Treasury, the Comptroller of the Treasury may pay out of the sum allotted by Clause 1 hereof the amount of the loss;
3. That payments of losses incurred between April 1, 1942, and March 31, 1943, amounting to \$443.64 be charged to the sum allotted by Clause 1 hereof."

The Board, having approved the estimate of expenditure and allotment of funds chargeable to the War Appropriation for the fiscal year 1943-44, concur in the above report and recommendation and submit the same for favourable consideration.

A. D. P. HEENEY,
Clerk of the Privy Council.

Order in Council establishing the Civilian Government Employees (War) Compensation Order

P.C. 311/6181

*Certified to be a true copy of a Minute of a Meeting of the Treasury Board, approved
by His Excellency the Governor General in Council, on the 4th August, 1943*

The Board had under consideration representations as follows:—

- (a) That by Order in Council of June 18, 1941, P.C. 196/4417, provision was made “for payment of benefits to civilian employees of the Government of Canada who suffer injury or death outside of Canada in the present war with the German Reich, as defined in the Pension Act, as the result of enemy action or counter-action taken against the enemy, subject to approval of the Canadian Pension Commission. . . .”
- (b) That in consideration of certain more or less general conditions of employment within the public service of Canada the rates of pension were fixed in the said Order in Council at a comparatively low level;
- (c) That civilian employees sent from Canada to locations which now comprise active theatres of war are, in general, charged with relatively responsible duties, and in many cases duties of the first magnitude;
- (d) That the benefits provided by the said Order in Council in respect of disability may, in all the circumstances, be considered reasonably fair and adequate;
- (e) That, however, in respect of death more adequate protection with respect to the dependents of civilian employees killed by enemy action outside of Canada would appear desirable;
- (f) That the present authority to provide the equivalent of benefits under the British Personal Injuries (Civilian) Scheme for employees employed in the United Kingdom is unnecessary as they have full protection under that scheme. Civilian employees sent from Canada are likewise protected under the British scheme and it would appear advisable to insure against duplication of benefits; and
- (g) Finally, that owing to certain defects of drafting of the said Order in Council of June, 18, 1941, P.C. 196/4417, some difficulties of accurate interpretation and proper administration by the Canadian Pension Commission have occurred, and are likely to arise in the future.

Now, therefore, the Board, having examined into and concurred in the above representations, recommend, under the authority of the War Measures Act, Chapter 206, Revised Statutes of Canada, 1927, and notwithstanding anything to the contrary contained in the Pension Act or any other Act or regulation:—

- (i) That Order in Council of June 18, 1941, P.C., 196/4417, be rescinded and cancelled, effective July 1, 1943;
- (ii) That the following Order, superseding Order in Council P.C. 196/4417 of June 18, 1941, be made and established, effective July 1, 1943.

Order

1. This Order may be cited as the Civilian Government Employees (War) Compensation Order.

2. For the purposes of this Order and any regulations made thereunder, the following expressions shall, unless a contrary intention appears, have the meanings stated below:—

- (a) “employee” means a permanent or temporary civilian employee of the Government of Canada, including a person serving with or without remuneration or other direct compensation, sent from Canada for employment outside of Canada under the direction of any department of the Public Service of Canada.

- (b) "commission" means the Canadian Pension Commission.
- (c) "department" means the Department of Pensions and National Health.
- (d) "serious or prolonged disability" does not include a disability of degree less than twenty per cent estimated in the manner provided by Section 24 (2) of the Pension Act.
- (e) "war injury" means any physical injury sustained during the war with the German Reich by an employee engaged in duties for or on behalf of the Canadian Government outside of Canada consequent upon enemy action or counter-action taken against the enemy.
- (f) "rates" means rates provided under Schedules A and B authorized by this Order and subject to adjustment in relation to any compensation receivable on account of a war injury from any source to which the employee has made no direct contribution.

3. Otherwise than as provided by paragraph 8, this Order shall be administered by the Canadian Pension Commission and all the provisions of the Pension Act which are not inconsistent with the provisions of this Order, or any regulations made thereunder, shall apply to every claim for pension made under this Order, and every such claim shall be dealt with and adjudicated upon as if such claim were a claim under the Pension Act and as if the employee was a member of the Forces at the time of incurring the war injury.

4. All employees, whether permanent or temporary, who sustain war injuries, may be granted special leave with pay for such period of time as may be certified by a qualified medical practitioner and approved by the Canadian Pension Commission, but not exceeding a total of 180 days.

5. Pensions in accordance with the rates set forth in Schedules A and B hereto may be paid in respect of serious and prolonged disability or death caused by war injury; provided that such pensions shall be payable only to or in respect of employees who have been sent from Canada to perform duties for or on behalf of the Canadian Government, and this section shall not apply to employees engaged locally by or under the direction of any Department, and such payments in respect of disability to commence from the date following the completion of the initial period of treatment or 180 days after the incurrence of the injury, whichever is the earlier date.

6. The benefits provided for in paragraphs 4 and 5 hereof as applicable shall be in addition to any benefits to which such persons or their dependents may be entitled under the provisions of the Civil Service Act and Civil Service Superannuation Act.

7. In addition to benefits payable under Section 5, gratuities equal to one month's salary for each completed year of service, but not exceeding a maximum of twelve months' salary, may be paid to employees or their dependents providing the war injury causes total incapacitation for employment or death and the employee concerned was not a contributor under the Superannuation Act, and further provided that from such gratuity there shall be deducted any amount returnable from the Retirement Fund, and in any case where the amount so returnable exceeds the amount of the gratuity, no gratuity will be paid.

8. (1) The Department may examine, give treatment to and admit to hospital an employee who, in the opinion of the Department, is suffering from a war injury, provided that if the Commission renders a decision that the disability is not attributable to a war injury, treatment and hospital care shall not be continued at the expense of the Department longer than seven days after issue of notification by the Commission of such decision.

(2) The Department may examine, re-examine, give treatment to, admit to hospital and re-admit to hospital an employee who, in the opinion of the Department, is in need of such services in respect of a disability which at any time previously thereto has been determined to be attributable to a war injury.

9. The Commission may make regulations not inconsistent with this Order for the purpose of carrying the Order into effect. Such regulations may (without prejudice to the generality of the foregoing) make provisions for prescribing,—

- (a) the person by whom and the form and manner in which applications may be made, and
- (b) the records, documents, or other information which must be furnished to the Commission in connection with any application.

10. Pensions granted in respect of death under authority of Order in Council P.C. 196/4417 of June 18, 1941, may, in the discretion of the Canadian Pension Commission, be revised in accordance with the new schedule of rates as set forth in Schedule B hereto, effective from July 1, 1943.

11. All payments required to be made under this Order shall be out of funds provided from the War Appropriation.

CANADIAN ARMY ROUTINE ORDER No. 3467

Branch of the Master-General of the Ordnance

DONATIONS OF VEHICLES TO THE CANADIAN ARMY

1. From time to time, patriotic organizations have undertaken to donate vehicles and vehicle equipment to the Canadian Army. Providing such donations are made

by cheque, or money order payable to the Receiver-General of Canada in the amount of the vehicle or vehicle equipment to be purchased, these donations can be satisfactorily handled.

2. Instances have occurred where organizations have purchased equipment in the open market of non-standard types for donation to the Army. While such patriotic contributions are appreciated, the equipment is of little value as it cannot be maintained in the field of operation owing to the lack of spare parts for non-standard vehicles.

3. It is brought to the attention of all interested parties, that in future where vehicles or vehicle equipment are supplied for use with units of the Canadian army, it is essential that they be of Army type. In the event of public spirited organizations desiring to make contributions to the war effort, it is suggested that the contribution be in the form of a cheque or money order payable to the Receiver-General of Canada, and be forwarded to the Deputy Minister, Department of National Defence (Army), Ottawa, together with a covering letter. Under these circumstances, arrangements will be made for the purchase of Army pattern equipment which will be suitably marked and will be used by forces in the field.

(Effective 31st July, 1943.)

DEPARTMENT OF NATIONAL DEFENCE FOR NAVAL SERVICES

CANADIAN NAVAL ORDER No. 2922

ADMINISTRATION OF CLOTHING COMFORTS

1. Ships and establishments are not to deal direct with voluntary organizations regarding the supply of clothing comforts, as it is not intended that gifts donated by communities to an "adopted" ship should include articles of clothing such as sweaters, mitts, balaclavas, etc. All such items of comforts forwarded to specific "adopted" ships as outlined in Naval Order 2575 are to be turned over to the Central Victualling Depot, who will pool articles received from all voluntary organizations, thus ensuring equitable distribution to all seagoing personnel.

2. When available, a reserve stock for each coast will be maintained in the Central Victualling Depots at Halifax and Esquimalt respectively, and other depots requiring comforts, when no stocks are on hand, are to forward a list of such requirements to Halifax or Esquimalt.

3. The accounting procedure at present utilized for the distribution of comforts in the Central Victualling Depot at Halifax is to be used in all establishments. Samples of the forms used and the accounting procedure will be forwarded to all Central Victualling Depots.

4. If any special types of clothing, other than the comforts mentioned above, such as leather jackets, are donated to an "adopted" ship as a commissioning gift, these may be retained by the ship to which they were designated.

5. Such items as radios, phonographs, recreational games, sports equipment, plate, and washing machines will be recommended as commissioning gifts to communities who contemplate "adopting" a ship.

6. Naval Order 1139 is cancelled.

ADMINISTRATOR'S ORDER No. A-839

On Maximum Prices of Atlantic Coast Canned Salmon, Sea Trout and Halibut

Under powers given by the Wartime Prices and Trade Board to the Administrator of Fish and Fish Products it is now ordered on behalf of the Board as follows:—

1. On and after the 11th day of August, 1943, Administrator's Order No. A-136 is revoked and replaced by this Order which fixes the highest selling prices of Atlantic Coast Canned Salmon, Canned Sea-Trout and Canned Halibut on sales by canners, wholesale distributors and retailers.

2. (1) The expressions "canned salmon," "canned sea-trout" and "canned halibut" used in this Order refer, respectively, to salmon, sea trout, and halibut caught in the

waters off the eastern coast of Canada or off the coast of Newfoundland and processed and packed for sale in hermetically sealed containers.

(2) The term "canner" where used in this Order refers to the canner who either actually processes and packs the canned fish covered by this Order himself or assembles for sale the pack of such canned fish which another canner has processed and packed for him.

3. The highest price, f.o.b. the canner's shipping point in Canada, at which a canner may sell or offer to sell canned salmon, canned sea trout or canned halibut is fixed as stated in the Schedule hereto according to quality and the number, size and style of cans per case.

4. The highest price at which a wholesale distributor, but not a canner may sell or offer to sell canned fish covered by this Order at wholesale is fixed at the sum of the following three items:

- (a) the actual price he paid for the canned fish, but not more than the highest selling price fixed for the canner;
- (b) any transportation charges and sales tax he has to pay that are not included in the actual price he paid for the canned fish; and
- (c) a markup based on percentage of cost not more than the markup based on percentage of cost he obtained on his sales at wholesale of canned fish of the same or a substantially similar kind to the same class of buyers during the basic period (September 15 to October 11, 1941) but in no event must the markup be an amount which is more than ten per cent (10%) of his selling price.

5. (1) On sales of canned fish covered by this Order between or among wholesale distributors, and no matter how many of them may be concerned, the total amounts of the markups of all of them must not exceed the highest amount of markup which the first of them could have included as part of his highest selling price if he had sold to a person who is not a wholesale distributor.

(2) Every wholesale distributor on a sale to another wholesale distributor shall deliver to the buyer before or at the time he makes delivery of the canned fish, an invoice stating the total combined markup that has been taken by him and any other wholesale distributor who handled the canned fish and the share of the markup which is still available for the buyer to take.

6. The highest price at which a person may sell or offer to sell canned fish covered by this Order at retail is fixed at the sum of the following three items:—

- (a) the actual price he paid for the canned fish but not more than the highest selling price fixed for his supplier;
- (b) any transportation charges and sales tax he has to pay that are not included in the actual price he paid for the canned fish; and
- (c) a markup based on percentage of cost not more than the markup based on percentage of cost he obtained on his sales at retail of canned fish of the same or a substantially similar kind during the basic period. But in no event must the markup be an amount which is more than twenty-five per cent (25%) of his selling price.

7. It is an offence for a person who is a canner, wholesale distributor or retailer of canned fish covered by this Order or for a person who is a wholesale distributor or a retailer to include in his selling price a markup higher than his highest markup as fixed by this order.

ADMINISTRATOR'S ORDER No. A-848

Respecting Maximum Price of Canned Pineapple Pulp

Under powers given by the Wartime Prices and Trade Board to the Administrator of Imported Grocery Items it is hereby ordered on behalf of the Board as follows:

Application of this Order

1. (1) This Order fixes the maximum prices for sales of canned pineapple pulp by direct importers and non-importing wholesale distributors to other non-importing wholesale distributors, and to manufacturers, hotels and restaurants.

It does not apply to sales of canned pineapple pulp to retailers or to sales at retail. Therefore, retailers must not sell to consumers above the prices already established for that product packed in any size of container. Similarly, manufacturers using the product in the manufacture of any other product must not sell above the existing maximum prices of their manufactured products.

(2) Definition—"canned pineapple pulp" means crushed pineapple packed with its own juice (without sugar) in containers for sale.

Sales by all Persons who Import

2. The maximum price ex dock or ex railway car or f.o.b. his place of business, as the case may be, at which a person who imports canned pineapple pulp (hereinafter called "importer") may sell or offer to sell or supply the same in containers containing approximately 105 fluid ounces or 6½ pounds avoirdupois, net weight, including weight of juice, shall be the sum of the following:

- (a) the actual laid-down cost for such canned pineapple pulp on track or dock at the point where such pineapple pulp cleared through customs in Canada but not in any event exceeding sixteen dollars (\$16.00) per dozen of such containers exclusive of sales tax, or seventeen dollars and ten cents (\$17.10) per dozen of such containers, inclusive of sales tax;
- (b) in the case only where such pineapple pulp is transported to the importer's place of business, the actual transportation charges or cartage charges on such pulp from track or dock to his place of business; and
- (c) a markup (percentage of cost) not exceeding the lawful markup (percentage of cost) customarily obtained by him during the basic period from September 15 to October 11, 1941, on sales of such canned pineapple pulp and not in any event exceeding
 - (i) six per centum (6%) of the selling price on sales to a wholesale distributor or to a manufacturer who buys such pulp for use in the manufacture or processing of goods for sale;
 - (ii) sixteen per centum (16%) of the selling price on sales to any other class of customer.

Sales by Non-Importing Distributors

3. (1) The maximum price f.o.b. his place of business at which a wholesale distributor who buys canned pineapple pulp covered by this Order from an importer may sell or offer to sell or supply the same, shall be the sum of the following:

- (a) the actual price paid by him for the canned pineapple pulp but not in any event exceeding the lawful maximum price that may be charged by his supplier for the same, plus such transportation charges and sales tax as are to be borne by him and are not included in such actual price; and
- (b) a mark-up (percentage of cost) not exceeding the lawful markup (percentage of cost) customarily obtained by him during the said basic period on sales of substantially similar canned pineapple pulp and not in any event exceeding ten per centum (10%) of the selling price.

(2) In the case of a sale to a wholesale distributor by another wholesale distributor of canned pineapple pulp not imported by the latter, or in the case of a sequence of sales between non-importing wholesale distributors, the markup referred to in subsection 1 of this Section shall constitute their total combined markup; and every wholesale distributor on a sale to another wholesale distributor of canned pineapple pulp which he did not import shall deliver to the buyer before or concurrently with delivery of the canned pineapple pulp, an invoice stating the total combined markup, and such buyer's share thereof.

Records of Sales and Purchases

4. (1) Before an importer sells or offers to sell canned pineapple pulp he shall make a record showing with respect to each shipment imported by him the laid-down cost to him of the product and the date when he imported it.

(2) Before a wholesale distributor sells or offers to sell canned pineapple pulp he shall make a record showing with respect to each purchase of the product by him, the date of the purchase and the price he paid per container of the product.

(3) If an importer or wholesale distributor maintains more than one place of business his records shall show separately his transactions in the product at each place of business.

5. Every importer and every wholesale distributor shall for every sale by him of canned pineapple pulp make an invoice showing the date he delivered the product, his name and complete address and that of the buyer and his actual selling price per container of the product. The invoice shall be delivered by the seller to the buyer concurrently with the delivery of the product.

6. (1) Every person who in pursuance of this Order is required to keep a record and every person who in pursuance of this Order receives an invoice shall retain such record or invoice, as the case may be, for a period of one year from the date of the transaction to which it relates. Every such record and invoice shall upon request during such period be made available for inspection by any authorized representative of the Board.

(2) If a person retains an invoice furnished to him by his supplier it will not be necessary for him to make or keep any other record of the particulars set forth in the invoice.

7. This Order shall be effective on and after the 13th day of August, 1943.

CANADA

GEORGE THE SIXTH, ETC.

To ALL TO WHOM These Presents shall come or whom the same may in anywise concern.

GREETING:

PROCLAMATION

And whereas, under the powers therein contained and the War Measures Act, Our Governor in Council did on the first day of December, nineteen hundred and forty-two, make The National Selective Service Mobilization Regulations to provide a system for requiring men belonging to age classes or parts of age classes designated by proclamation to report for military training, service or duty within Canada and the territorial waters thereof;

And whereas, all persons required to report for military training, service or duty pursuant to The National Selective Service Mobilization Regulations are liable to perform military training, service or duty pursuant to the Reserve Army (Special) Regulations, 1941, within Canada and the territorial waters thereof, as the Minister of National Defence (Army) may from time to time require;

Order in Council establishing regulations governing mortgages or encumbrances on land in the Provinces of Manitoba, Saskatchewan and Alberta.

P.C. 6072

AT THE GOVERNMENT HOUSE AT OTTAWA

FRIDAY, the 6th day of August, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas by Order in Council of April 20th, 1943 (P.C. 3243), provision was made in respect of actions in relation to mortgages on and agreements for sale of land cultivated by farmers in Alberta, Manitoba and Saskatchewan for the staying of such actions and for the postponement of the payment of moneys due, if deemed necessary or proper for the purpose of retaining on the land during the state of war now existing, efficient and industrious farmers who have acted in good faith;

And whereas in the opinion of the Minister of Justice it is advisable, by reason of the state of war now existing, for the security, defence, peace, order and welfare of Canada, to make similar provision in relation to proceedings otherwise than by action in respect of such mortgages or agreements for sale.

Now, therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Justice, and under and by virtue of the powers conferred by the War Measures Act, is pleased to make the following regulations and they are hereby made and established accordingly.

Regulations

1. These regulations shall apply only in the provinces of Alberta, Manitoba and Saskatchewan.

2. (1) The owner of land subject to a mortgage or encumbrance, or the purchaser or assignee of the purchaser under an agreement for the sale of land, may apply to the county or district court in the county court district or district in which the land is situate to stay any proceedings taken, otherwise than by action in a court, which have been commenced as well before as after, but have not been finally concluded at, the time of the commencement of these regulations, under any power conferred by the mortgage, encumbrance or agreement for sale or by statute or otherwise, for sale or possession of the mortgaged or encumbered premises or for foreclosure of the equity of redemption, or for sale or possession of the land to be sold under the agreement for sale, or for cancellation or determination thereof; and the said court shall have jurisdiction to entertain such application and shall have power, in its discretion, exercised in accordance with the provisions of this section, by order,

- (a) to stay the proceedings;
- (b) to postpone payment of any moneys due;
- (c) to require a mortgagee, encumbrancer or vendor in possession to account and to impose upon him such terms as it deems proper as to the application of the rents and profits received by him;
- (d) to prescribe terms and conditions in any order;
- (e) to vary or extend from time to time any order theretofore made in the proceedings or by the court; and
- (f) to give any direction as to costs,

as it deems necessary or proper for the purpose of retaining on the land and during the state of war now existing an efficient and industrious farmer whose good faith it is satisfied and, insofar as is possible and consistent therewith, of fairly protecting all or any persons having any interest in the land.

(2) The judge of the court before which any such application is made shall, before making any order pursuant thereto, make such inquiries in a summary fashion, concerning the interests of the parties to the proceedings in the land and the income and assets of such parties, the productive capacity of the land and any other matter deemed relevant by him, as he deems advisable for the proper exercise of the discretion conferred by these regulations.

3. (1) An appeal may be taken from an order made pursuant to these regulations to the Court of Appeal and shall be asserted, heard and decided according to the ordinary procedure governing appeals from judgments or orders pronounced or made in actions in the county or district court from which appeals may be taken to the Court of Appeal, and the Court of Appeal shall have and exercise jurisdiction to entertain such appeal and shall have and exercise a discretion similar to that of the court appealed from, and may draw inferences of fact and make the order which the court appealed from ought to have made.

(2) Where an appeal is taken from an order made under these regulations the judge making such order shall certify to the Court of Appeal the inquiries, if any, he has made and shall report all information obtained therein upon which he purported to act in making such order and the information so certified shall be part of the record before the Court of Appeal.

(3) In this section "Court of Appeal" means, in the provinces of Manitoba and Saskatchewan, the Court of Appeal, and in the province of Alberta, the Appellate Division of the Supreme Court of Alberta.

A. D. P. HEENEY,
Clerk of the Privy Council.

Order in Council authorizing classification of part time served by
trainees at St. Margaret's Sea Training School, Hubbards,
N.S. as sea time for Mates' examination.

P.C. 6214

AT THE GOVERNMENT HOUSE AT OTTAWA

FRIDAY, the 6th day of August, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Acting Minister of Transport represents that war conditions make it difficult to procure certificated mates for employment in ships of Canadian registry, and that in order to encourage merchant seamen to qualify for Mates' Certificates of Competency and thus expedite the supply of certificated personnel for the said ships, it is deemed advisable to make a regulation whereby part time served by approved trainees at the St. Margaret's Sea Training School, Hubbards, N.S., should be classed as sea time for Mates' examination.

Therefore, His Excellency the Governor General in Council, on the recommendation of the Acting Minister of Transport and under authority of the War Measures Act and notwithstanding anything contained in the Canada Shipping Act, 1934, and amendments thereto, is pleased to make the following regulation and it is hereby made and established accordingly:—

Regulation

A trainee at the St. Margaret's Sea Training School, Hubbards, N.S., who obtains the Certificate of Training issued by the proper authority testifying to his proficiency, will be credited with six weeks sea time for each thirteen weeks' period of training completed at the School. The sea time credited in this manner will count towards the total sea time required by the Masters' and Mates' Regulations before a candidate is eligible to be examined for a Mate's Home Trade or Second Mate's Foreign-going Certificate of Competency. On completion of the training period a trainee will also be eligible for examination for a certificate of lifeboatman without additional sea service.

A. D. P. HEENEY,
Clerk of the Privy Council.

Order in Council prohibiting invalidation of Orders in Council made
under the authority of The War Measures Act without prior
notice to the Attorneys General of Canada and the
Province concerned

P.C. 6223

AT THE GOVERNMENT HOUSE AT OTTAWA

FRIDAY, the 6th day of August, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Minister of Justice reports that, while provincial legislation provides that, in any action or proceeding where the constitutional validity of any Act of Parliament or of the provincial legislature is brought in question, the same shall not be adjudged to be invalid until after notice has been given to the Attorney General of Canada and to the Attorney General of the Province, such legislation does not probably apply in the case of orders made under the authority of the War Measures Act;

And whereas the Minister is of the opinion that it is advisable that provision be made for similar notice to be given to the Attorney General of Canada and the Attorney General of the Province with reference to orders made under the authority of the War Measures Act, in order that the proper enforcement thereof may not be hindered by judicial decisions rendered between private litigants or otherwise relating to the constitutional validity thereof without opportunity for full discussion by counsel representing the Attorney General of Canada:

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Justice, and under and by virtue of the powers vested in the Governor in Council by the War Measures Act, is pleased to make the following regulations and they are hereby made and established accordingly:—

Regulations

1. Where, in any action or other proceeding, the constitutional validity of any Order in Council made under the authority of the War Measures Act or any Order made on the authority of such Order in Council is brought in question, the same shall not be adjudicated to be invalid until after notice has been given to the Attorney General of Canada and the Attorney General of the Province in which such action or other proceeding has been instituted.

2. The notice shall state what order is in question and the time and place when such question is to be argued and shall give such further particulars as may be necessary of the constitutional point in question.

3. The said notice shall, in each case, be served ten days before the day named for the argument.

4. The Attorney General of Canada and the Attorney General of the Province shall be entitled as of right to be heard, either in person or by counsel, notwithstanding the fact that the Crown is not a party to the action or proceeding.

A. D. P. HEENEY,
Clerk of the Privy Council.

Order in Council amending the Defence of Canada Regulations (Consolidation) 1942—forfeiture of explosives in convictions under the Explosives Act.

P.C. 6266

AT THE GOVERNMENT HOUSE AT OTTAWA

FRIDAY, the 6th day of August, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Minister of Justice reports that while the Explosives Act (R.S.C., 1927, chapter 62), makes it an offence for any person to have in his possession or to import, store, use or manufacture any explosive not declared by the Minister to be an authorized explosive (section 6), or to have in his possession, sell, offer for sale, manufacture or import any unauthorized explosive (section 23), and while there is provision for the imposition of fine and imprisonment for offences against the Explosives Act, there is no provision for the forfeiture of the explosives in the event of a conviction under the Act;

And whereas the Minister reports further that a case has been brought to his attention of a very large quantity of unauthorized ammunition which, in the opinion of the officers of the Department of Mines and Resources, should be forfeited to His Majesty as a measure necessary or advisable for the security, defence, peace, order or welfare of Canada, and is of opinion that the law should now be amended to provide for such forfeiture.

Now, therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Justice, and under the authority of the War Measures Act, Chapter 206, Revised Statutes of Canada, 1927, is pleased to amend the Defence of Canada Regulations (Consolidation) 1942, and they are hereby amended by adding thereto immediately after regulation 37A, the following regulation:—

37AA. Where a person is convicted of an offence for having in possession, selling, offering for sale, storing, using, manufacturing or importing any explosive the manufacture or importation of which has not been authorized under the Explosives Act, the court or judge, in addition to any other penalty which may be imposed, shall declare that the explosive by means of, or in relation to which, the offence was committed, be forfeited to the Crown, and thereupon the explosive may be seized and may be destroyed or otherwise disposed of by such persons or persons in such manner and at such time and place as the Minister of Mines and Resources may direct, but no such explosive shall be destroyed or otherwise disposed of pending any appeal against such conviction or before the time within which such appeal may be taken has expired.

A. D. P. HEENEY,
Clerk of the Privy Council.

FRIDAY, the 6th day of August, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Minister of Fisheries reports that on June 18th, 1943, the Government of Canada signified its adherence to Recommendation No. 53 of the Combined Food Board of the United Nations;

That this recommendation involves a plan of allocating the supplies of salted fish which are or will be available to the United Nations amongst the United Nations and friendly neutral countries;

That in order effectually to ensure the fulfilment of Canada's obligations to allocate exports of salted fish in accordance therewith in a manner least likely unduly to disturb the salt fishing industry it is expedient that power to control and direct the export of salted fish be conferred on the Minister of Fisheries; and

That, in his opinion, the conferring and exercise of such powers is necessary, by reason of the state of war now existing, for the security, defence, peace, order and welfare of Canada.

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Fisheries, with the concurrence of the Minister of Justice and the Minister of Trade and Commerce, and under the authority of the War Measures Act, is pleased to make the following regulations and they are hereby made and established accordingly,—

- (j) require an exporter to offer salted fish of any grade or kind owned by him or in his possession or under his control and direction for sale to any person inside or outside Canada and prescribe the terms and conditions of such offer;

Order in Council governing the Enlistment of Officers and Men
of the Military Forces of Canada in the Naval and Air Forces
of Canada

P.C. 6295

AT THE GOVERNMENT HOUSE AT OTTAWA

WEDNESDAY, the 11th day of August, 1943.

PRESENT:

HIS EXCELLENCY,

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Associate Minister of National Defence reports as follows:

Section 69 of the Militia Act, R.S.C. 1927, Chap. 132, provides:—

“The Army Act for the time being in force in Great Britain, the King’s Regulations, and all other laws applicable to His Majesty’s troops in Canada, and not inconsistent with this Act or the regulations made hereunder, shall have force and effect as if they had been enacted by the Parliament of Canada for the government of the militia.”

section 13 (1) (b) of the Army Act provides:—

“Every person subject to Military Law who commits any of the following offences; that is to say,

When belonging to the regular forces without having fulfilled the conditions enabling him to enlist, enroll, or enter, enrolls himself or enlists, in the territorial army or in any of the reserve forces, or in the Air Force, or enters the Royal Navy,

shall be deemed to have been guilty of fraudulent enlistment. . . ”

Cases have arisen where a member of the Canadian Army has, without having fulfilled the conditions enabling him to enlist, enroll or enter, enrolled himself or enlisted in the Royal Canadian Air Force, or entered the Royal Canadian Navy. The expressions “the Air Force” or “the Royal Navy” as used in Section 13 (1) (b) of the Army Act, mean the Naval and Air Forces of His Majesty raised in the United Kingdom, and they would not include the Naval and Air Forces of His Majesty raised in Canada. In consequences, enlistment, enrollment or entry in either of the said last mentioned forces by a member of the military forces of Canada, without fulfilling the conditions enabling him so to enlist, enroll or enter would not, in law, constitute an offence triable under the said Section 13 of the Army Act.

Having regard to the foregoing, it is desirable in the interests of discipline that a member of the Military Forces of Canada, who, without having fulfilled the con-

ditions enabling him to enlist, enroll or enter, enrolls himself, enlists or enters in the Naval or Air Forces of Canada, should in all respects be considered as having committed an offence under Section 13 of the Army Act and be dealt with accordingly.

Now, therefore, His Excellency the Governor General in Council, on the recommendation of the Associate Minister of National Defence, under and by virtue of the War Measures Act, Chapter 206 of the Revised Statutes of Canada, 1927, and notwithstanding the provisions of any other Act, Regulation or Order, is pleased to order and doth hereby order as follows:—

“An officer or soldier of the Military Forces of Canada, serving on active service or while performing training, service or duty in consequence of his having been called out therefor under Regulations made pursuant to the National Resources Mobilization Act, who, without fulfilling the conditions enabling him to enroll, enlist or enter the Naval or Air Forces of Canada, so enrolls, enlists or enters either of the said last mentioned Forces, shall, insofar as the Army Act forms part of the law of Canada, be guilty of an offence under paragraph (b) of subsection 1 of Section 13 of that Act, and may be dealt with in like manner as if the expressions ‘the Air Forces of Canada’ and ‘the Naval Forces of Canada’ had been substituted for the expressions ‘the Air Force’ and ‘the Royal Navy’ where said last mentioned expressions respectively appear in the said paragraph.”

A. D. P. HEENEY,
Clerk of the Privy Council.

The Minister of National Defence is hereby authorized and directed to despatch personnel called out for training, service or duty pursuant to the National Resources Mobilization Act, 1940, to Newfoundland (including Labrador) Bermuda, Bahamas, B.W.I., Jamaica, B.W.I., British Guiana, Alaska and the United States of America for training, service or duty with any Active Units of the Canadian Army as from time to time he deems necessary having regard to the military exigencies of the moment; and to issue or cause to be issued all Orders and to take all steps necessary to give effect to this authorization and direction; and all personnel so to be despatched are respectively hereby required (in addition to all other obligations for training service or duty) to perform while in Newfoundland (including Labrador) Bermuda, Bahamas, Jamaica, British Guiana, Alaska, and the United States of America, such training, service or duty as may be ordered by any Superior Officer in all respects as if the aforesaid training service or duty were training service or duty performed or ordered to be performed in Canada.

1. *Plan "A"—Applicable to Credits Exceeding \$10,000*

- (a) Under this plan the bank must submit to the Corporation an application for approval of each credit proposed to be extended together with all pertinent information respecting the borrower. shall certify that such indebtedness is, in the opinion of the officer of the bank giving such certificate, satisfactory and collectible. If any part of such existing indebtedness was incurred in connection with the production of logs and lumber during the season, 1943-44, such part may with the approval of the Corporation be included in the amount to be guaranteed, it being understood that the proceeds of the sale of logs and lumber produced by the borrower shall, upon receipt by the bank, be applied against any indebtedness covered by the guarantee in preference to all other indebtedness to the bank.

- (c) The liability of the Corporation is, in respect of each approved credit, limited to an amount equal to 25 per cent of the maximum amount of guaranteed indebtedness which has been outstanding thereunder at any one time.

2. Plan "B"—Applicable to Credits Not Exceeding \$10,000.00

- (c) If a borrower is already indebted to the bank at the time the credit is arranged, the bank, immediately after the credit is arranged, shall provide the Corporation with particulars of such existing indebtedness and security if any, and shall certify that such existing indebtedness is, in the opinion of the officer of the bank giving such certificate, satisfactory and collectible. If any part of such existing indebtedness was incurred in connection with the production of logs or lumber during the season 1943-44, such part may, if the bank so elects and reports to the Corporation, be included in the amount which will be covered by the guarantee, it being understood that the proceeds of the sale of logs and lumber produced by the borrower shall upon receipt by the bank be applied against any indebtedness covered by the guarantee in preference to all other indebtedness to the bank.
- (d) The liability of the Corporation is limited to an amount equal to 25 per cent of a total sum determined by ascertaining the maximum amount of guaranteed indebtedness outstanding at any time on each credit respectively, under this plan, and adding together all the said maximum amounts.

3. Provisions applicable to Credits under Plan "A" or Plan "B"

- (a) The guarantee shall apply to advances made either under a fixed credit or under a revolving line of credit where the amount of the indebtedness is varied from time to time by repayment and further advances.
- (b) Advances made from time to time as required in the normal operation of the borrower's business shall be represented by promissory notes, provided that no advances shall be made by the bank after September 30, 1944.

- (d) In the case of any credit granted to a borrower for the payment of whose indebtedness the Bank holds a guarantee given or securities pledged by any other person, it shall obtain from each such person a letter substantially in the form hereto annexed marked Schedule "A".
- (e) Advances to any borrower shall be repayable not later than November 30, 1944.
- (f) For the purpose of determining the Corporation's liability, the bank shall furnish the Corporation with a statement of advances that have not been repaid as of November 30, 1944, with particulars of the reasons for non-payment.

- (g) The bank may demand payment by the Corporation of any amount to which it is entitled under this guarantee in respect of indebtedness remaining unpaid as of December 31, 1944; provided that the bank shall thereafter, if requested by the Corporation, act as agent for the Corporation in liquidating all accounts, charging therefor only out-of-pocket expenses.
- (h) In consideration of this guarantee, the bank shall pay to the Corporation a sum equal to interest at the rate of one per cent per annum on all advances outstanding from time to time.
- (i) The bank shall use the same diligence in dealing with its borrower as if this guarantee had not been given and may take additional security, grant time, extensions or indulgences, or otherwise deal with the borrower in the ordinary course of business, or take any steps considered advisable, including legal proceedings, to recover advances or indebtedness without in any way invalidating the guarantee or lessening the liability thereunder.

P.C. 59/6395

Certified to be a true copy of a Minute of a Meeting of the Treasury Board, approved by His Excellency the Governor General in-Council, on the 13th August, 1943.

The Board recommend that, under and by virtue of the War Measures Act, Chapter 206 of the Revised Statutes of Canada, 1927, P.C. 59/7305 of September 17, 1941, The National Defence Minor Claims (Motor Vehicle Accidents) Order, 1941, be amended as follows:—

1. (1) The introductory portion of section two of The National Defence Minor Claims (Motor Vehicle Accidents) Order, 1941, is repealed and the following substituted therefor:

“In any case of a claim against the Crown arising out of any death or injury to the person or to property resulting from the alleged negligence of any officer or servant of the Crown in the maintenance or operation of a motor vehicle while acting in Canada within the scope of his duties or employment as an officer or member of the Naval, Military or Air Forces of Canada or as an employee of the Department of National Defence, when the combined amount of all claims arising out of deaths or injuries to the person or to property which are alleged to have resulted from any such alleged negligence does not exceed two hundred dollars, the following regulations may be substituted for regulations four to ten, inclusive, of the regulations approved by Order in Council P.C. 80/1045, dated the nineteenth day of March, nineteen hundred and forty.”

(2) The said section two is further amended by adding the following paragraph thereto:

“(vii) Unless otherwise ordered by the Treasury Board, if an officer or servant, other than a member of the Naval, Military or Air Forces of Canada, fails within a reasonable time to arrange for the payment of the amounts determined under the provisions of sub-section (vi) hereof the matter shall be referred to the Deputy Minister of Justice with a request that he recommend what legal steps should be taken in order to enforce payment.”

2. Paragraph (i) of section three of the said Order is repealed and the following substituted therefor:

“(i) In case of a claim against the Crown arising out of any death or injury to the person or to property resulting from the alleged negligence of any officer or servant of the Crown in the maintenance or operation of a motor vehicle while acting in Canada within the scope of his duties or employment as an officer or member of the Naval, Military or Air Forces of Canada or as an employee of the Department of National Defence, the branch of the Department of National Defence concerned shall cause the investigation required by Order in Council P.C. 80/1045 to be made in such manner as the Judge Advocate-General, by specific or general instructions, may direct, notwithstanding that Naval, Military or Air Force regulations require that such investigation be carried out in the manner therein stated.”

“(iii) Such demand shall call upon such officer or servant, if he is an officer or member of the Naval, Military or Air Forces of Canada, to show cause, within one week after the receipt by him of such demand, why he should not be put under stoppages of pay and allowances or other emoluments to reimburse the Crown in accordance with the provisions of paragraph 2 (vi) of this Order or paragraph nine of the Regulations made and established by Order in Council P.C. 80/1045, dated March 19, 1940, as the case may be.”

Order in Council—Imported electricity to be subject to War Exchange Tax

P.C. 80/6395

Certified to be a true copy of a Minute of a Meeting of the Treasury Board, approved by His Excellency the Governor General in Council, on the 13th August, 1943.

The Board had under consideration a memorandum from the Honourable the Minister of National Revenue reporting that:

"Whereas, section 88A, Part XIII, of The Special War Revenue Act, in force on and after June 25, 1940, provides in effect that, in addition to any duty or tax that may be payable under this Act or under any other statute, there shall be imposed, levied and collected a War Exchange Tax of ten per cent on the value for duty of all imported *goods* (except certain goods which are specified in the said section as being exempt from the tax) at the time when the goods are imported or taken out of warehouse for consumption; and,

Whereas, electricity, a force or power commonly distributed by transmission lines, metered and sold, does not come within the meaning of the word "goods" as defined in section 2 (g) of The Customs Act according to an opinion given by the late Justice E. L. Newcombe, then Deputy Minister of Justice, under date of April 5, 1894, and the authority of the department to impose, levy and collect the War Exchange Tax on electricity imported by transmission lines from United States has been questioned; and,

Whereas, in 1939 a similar question arose with respect to the application of the consumption or sales tax to electricity, and in order to clarify the intent and meaning of the statute in this regard, the Governor General in Council passed an Order (P.C. 2845), on September 25, 1939, section 2 of which reads as follows:

'Electricity or gas shall be deemed to be goods subject to the consumption or sales tax imposed by Part XIII of The Special War Revenue Act and the said tax shall be payable by the selling utility by which the same is sold or distributed to the consumer or user, and the selling utility shall for all purposes be deemed to be the manufacturer or producer thereof.' and,

Whereas, inasmuch as the Governor General in Council has by virtue of P.C. 2845 in effect ordered that the consumption or sales tax imposed by Part XIII of The Special War Revenue Act shall be imposed, levied and collected on electricity, whether imported or produced in Canada, it would appear to be within the intent and spirit of the order to hold that electricity is also subject to the other taxes imposed by Part XIII of the said Act, including the War Exchange Tax which became effective June 25, 1940, and the department has ruled accordingly, and importers have paid the tax on imported electricity, except as far as the department has ascertained to date in the case of two companies, which have not yet paid the tax on their importations; and,

Whereas, it is deemed expedient that an order be passed by the Governor General in Council which will give authority for the collection of the War Exchange Tax on electricity imported for consumption in Canada as from June 25, 1940, in order that there may be no discrimination between importers and to avoid payment of refunds which would be payable in the event that the order were made effective as from any subsequent date:

Now therefore, the undersigned, the Minister of National Revenue, has the honour to recommend that the Governor General in Council, in the exercise of the powers conferred by section 3 of The War Measures Act, being Chapter 206 of the Revised Statutes of Canada, 1927, do order as follows:

1. That imported electricity shall be deemed to be 'goods' within the intent, meaning the spirit of The Special War Revenue Act, and shall be subject to the War Exchange Tax imposed by section 88A, Part XIII of the said Act;

2. That the Order in Council based on this recommendation, shall be effective as from June 25, 1940."

The Board concur in the above report and recommendation, and submit the same for favourable consideration.

A. D. P. HEENEY,
Clerk of the Privy Council.

**Order in Council revoking regulations re Compassionate Allowances
to widows of certain veterans**

P.C. 100/6395

*Certified to be a true copy of a Minute of a Meeting of the Treasury Board, approved
by His Excellency the Governor General in Council, on the 13th August, 1943.*

The Board had under consideration a memorandum from the Honourable the Minister of Pensions and National Health reporting:—

“That Vote 205 of The Appropriation Act, No. 5, 1943, makes provision for the payment out of Consolidated Revenue Fund of compassionate allowances to be awarded by the War Veterans' Allowance Board to the widows of certain veterans coming within the definition of ‘veteran’ in the War Veterans' Allowance Act, to be made under such circumstances and upon such terms as may be prescribed by the Governor in Council; and

That, in pursuance of the said Vote, regulations respecting such allowances were established by Order in Council of the 21st June, 1943, (P.C. 1/5028) under and by virtue of the War Measures Act, Chapter 206 of the Revised Statutes of Canada, 1927; and

That the said Appropriation Act also provided in supplement to said Vote 205 for the payment out of the said Fund of compassionate allowances to be awarded by the said Board to the widows of veterans coming within the definition of ‘veterans’ in the said Act and not included in the said Vote, and for increasing the payments provided by said Vote to a widow with a child or children so as to make the total compassionate allowance in such case equal to the allowance to a veteran with a child or children provided by the said Act, all payments thereunder to be made under such circumstances and upon such terms as may be prescribed by the Governor in Council;

And that it is deemed expedient that the said Order in Council of the 21st June, 1943 (P.C. 1/5028) be revoked in order that new regulations may be established in respect of compassionate allowance to all widows coming within the terms of The Appropriation Act, No. 5, 1943.

Now therefore the undersigned has the honour to recommend that, under and by virtue of the War Measures Act, Chapter 206 of the Revised Statutes of Canada, 1927, the regulations as established by Order in Council of the 21st June, 1943, (P.C. 1/5028) be revoked.”

The Board concur in the above report and recommendation, and submit the same for favourable consideration.

A. D. P. HEENEY,
Clerk of the Privy Council.

Order in Council re establishment reserve stocks of feed grains in Eastern Canada

P.C. 1/6567

Certified to be a true copy of a Minute of a Meeting of the Treasury Board, approved by His Excellency the Governor General in Council, on the 18th August, 1943.

The Board had under consideration a memorandum from the Honourable the Acting Minister of Agriculture reporting that:—

“Whereas the production of livestock and livestock products for food is looked upon as a major contribution by agriculture to the war effort and as a consequence every effort is being made to stimulate such production toward attaining to increased goals, and

Whereas the demand for and consumption of western grown feed grains in Eastern Canada has increased greatly and will continue to increase, and

Whereas the transportation of such grains into Eastern Canada must mainly be carried out by rail movement due to lack of available shipping on the Great Lakes and St. Lawrence Waterways, and

Whereas the volume of grains required from July, 1943, forward, due in part to extremely unfavourable weather conditions prevailing in some eastern provinces at time of seeding and the subsequent reduced crop prospects is likely to be greatly in excess of that required for the corresponding months of the past season, and

Whereas during the winter months of 1943 the movement of grain by rail into Eastern Canada when severe winter conditions prevailed, proved entirely inadequate to maintain a sufficient volume of supplies, and

Whereas it is accordingly desirable and expedient that a plan be instituted to enable the building up of a reservoir of feed grain in Eastern Canadian provinces, as well as a reserve to be drawn upon as needed during the winter of 1944 when rail shipments undoubtedly will again prove inadequate to meet the anticipated demand for feed and that such plan should be made effective without delay while transportation is available, and

Whereas by Order in Council dated the 8th day of June, 1943, P.C. 7/4690, provision was made for a plan to establish reserve stocks of feed grains in Eastern Canada, and

Whereas it has been found advisable to modify the plan authorized under the said Order in Council and under Order in Council dated the 12th day of July, 1943, P.C. 1/5552, and to include a further plan to encourage the early purchase of grain to be stored in Eastern Canada.

The undersigned, therefore, recommends that Your Excellency in Council, under authority of the War Measures Act, to approve the two plans herein set out and do authorize the Feeds Administrator, under the supervision of the Agricultural Supplies Board to administer the said plans and to issue such orders as he may deem necessary and to make expenditures as herein authorized, for which purpose the sum of \$1,000,000 for Plan A, and the sum of \$1,000,000 for Plan B be provided, chargeable to monies to be allotted to the Department of Agriculture from the War Appropriation for use of the Agricultural Supplies Board.

Plan “A”

1. In order to meet additional costs which will be incurred by reason of the shipments of oats, wheat or barley into reserve stocks in Eastern Canada above the cost if oats, wheat or barley of comparable grades were to be purchased at the time of release on an in-store basis at Fort William/Port Arthur, to pay the following charges.

- (a) elevator storage charges at Fort William/Port Arthur, Ontario, and such Eastern Canadian storage points as the Feeds Administrator may from time to time designate, on grain purchased in store Fort William/Port Arthur;
- (b) elevator storage charges and cleaning charges at such Eastern Canadian points as the Feeds Administrator may from time to time designate on uncleaned grain shipped direct from western country points for cleaning and storage at such eastern points;

- (c) freight not exceeding the carlot rate from Fort William/Port Arthur or Armstrong, Ontario, to Eastern Canada destinations on dockage removed at such destinations from uncleaned grain, provision to be made that if the approval of the Feeds Administrator or his representative is given to an application to make any shipment of uncleaned grain to Eastern Canada destinations in order that a claim may be made in respect thereof under this Plan "A", the dockage so removed shall become the property of the Crown and any revenue therefrom shall be applied against this Plan "A";
- (d) interest on the investment in the grain from the date of purchase by the shipper and on the prepaid rail or water freight charges from Fort William/Port Arthur or Armstrong, Ontario, including that portion of any such charges from western country points, from the date of actual payment thereof by the shipper, such interests to be calculated at a rate not to exceed $3\frac{1}{2}$ per cent compounded monthly;
- (e) additional transportation charges in excess of the all-rail rates in moving grain into reserve stocks or occasioned by reason of the out of line position of reserve stocks;
- (f) local switching charges which may apply within any harbour area where reserve stocks have been stored;
- (g) unloading and loading out charges assessed by the elevators at reserve storage points;

provided that no payment may be made in respect of any of the charges specified in paragraphs (a), (b), (c) or (d) incurred in respect of any shipment prior to approval by the Feed Administrator or his representative of the shippers' application to make the shipment to the reserve grain stocks in Eastern Canada.

2. To pay any loss—

- (a) which might occur as a result of price fluctuations in grains between the date of purchase by the shipper and the date such grain is released on the order of the Feeds Administrator;
- (b) which might result from hedging operations on any such wheat together with the cost of placing such hedges, provided that any profit arising from such hedging operations shall revert to the Crown to offset the cost of carrying such feed grain.

Plan "B"

To pay the hereinafter prescribed amounts according to the month of purchase, upon oats, wheat or barley for which Freight Assistance claims may satisfactorily be established when brought into Eastern Canada for use as feed for livestock or poultry in Canada, commencing with purchases made basis in-store Fort William/Port Arthur, from July 1, 1943, to December 31, 1943, inclusive, provided that purchases made by an Eastern Canada buyer of western wheat, oats or barley made prior to July 1, 1943, shall be deemed eligible:

- (a) in the month in which instructions have been given for immediate shipment to Eastern Canada of such grains as are in store at Fort William and/or Port Arthur, Ontario, or
- (b) on the date, in the case of direct shipments from western country points to Eastern Canada, when the railway cars containing such grain pass through Fort William, Port Arthur or Armstrong, Ontario.

Provided further that stocks of eligible oats, wheat or barley stored in Eastern Canada at points east of Fort William, Port Arthur or Armstrong, Ontario, of fifteen hundred bushels or more of any one kind of western grown wheat, oats or barley for feed, stored at any one point of storage may also be included when satisfactory evidence of the eligibility of such stocks is submitted to the Feeds Administrator and shall be deemed to have been purchased in the month of July, 1943.

Schedule of Amounts that may be paid

| | | | |
|-----------|-------|------------------|------------|
| July | | 3 c | per bushel |
| August | | $2\frac{1}{2}$ c | " " |
| September | | 2 c | " " |
| October | | $1\frac{1}{2}$ c | " " |
| November | | 1 c | " " |
| December | | $\frac{1}{2}$ c | " " |

In order to give all possible encouragement to farmers and feeders to purchase and store for their own use and to meet their winter grain requirements, it is required that when any allowance or reduction in price under this plan is allowed to a dealer by a wholesaler, such dealer shall, when reselling such grain in the same month to a farmer or feeder, pass on to such farmer or feeder the reduction allowed by the wholesaler and when such grain is resold in a later month, the allowance to be made to the farmer or feeder shall be the amount prescribed in the Schedule for that month.

The undersigned further recommends that Orders in Council dated the 8th day of June, 1943, P.C. 7/4690, and the 12th day of July, 1943, P.C. 1/5552, be revoked.

The Board having approved the estimate of expenditure chargeable to the War Appropriation for the fiscal year 1943-44, concur in the above report and recommendation and submit the same for favourable consideration.

A. D. P. HEENEY,
Clerk of the Privy Council.

(2) Maximum rentals payable under any lease referred to in clause (b) of subsection (1) preceding shall include the following:

- (a) a rental which is subject to seasonal variation during year-round possession, in which case the rental payable in each season shall be the maximum rental payable in any corresponding season;
- (b) a rental payable under a sub-lease made between a tenant and a sub-tenant and in effect at the same time as the lease referred to; in which case a lease may be made or renewed at the rental payable under the sub-lease if the same housing accommodation, appurtenances, furniture, furnishings, equipment, fixtures, services and facilities are supplied as were supplied under the sub-lease;

Variation of fixed maximum rentals

7. (1) An application may be made by the landlord of any housing accommodation to the Rentals Appraiser for a variation of the fixed maximum rental for the accommodation by reason of any of the following special circumstances affecting such accommodation:

- (b) an increase in the amount of the accommodation or the supplying of appurtenances, furniture, furnishings, equipment, fixtures, services or facilities that were not supplied or to be supplied for the maximum rental; in which case, the Rentals Appraiser may increase the maximum rental by an amount which is commensurate with the increased rental value of the accommodation, but in no event shall the maximum rental be increased to an amount that is higher than the rental generally prevailing on October 11, 1941, for similar accommodation in the neighbourhood;

- (f) the tenant at the date of the application is sub-letting more than two rooms in the accommodation and
 - (i) under the terms of the lease in effect the tenant agreed in writing not to sub-let without the landlord's consent and such consent has not been given, or
 - (ii) the tenant is in possession under an oral lease and on the date on which the maximum rental for the accommodation was last fixed more than two rooms therein were not being sub-let,

and the maximum rental has not been increased under any previous order of the Board by reason of increased wear and tear caused by the tenant; in which case, the Rentals Appraiser may increase the maximum rental by ten per cent.

(2) An application may be made by a tenant of any housing accommodation to the Rentals Appraiser for a variation of the fixed maximum rental of the accommodation by reason of the circumstance that

- (a) the maximum rental referred to in clause (c) of subsection (1) of Section 4 is higher than the rental generally prevailing on October 11, 1941, for similar housing accommodation in the neighbourhood; in which case, the Rentals Appraiser may decrease the maximum rental to such generally prevailing rental; but an application shall not be made if the maximum rental was varied or fixed by a decision made under the authority of the Board or is an altered rental referred to in clause (c) of subsection (2) of Section 4; or
- (b) since the date on which the maximum rental for the accommodation was last fixed, there has been a lessening of the amount of the accommodation or of any appurtenances, furniture, furnishings, equipment, fixtures, services or facilities that were supplied or to be supplied for the maximum rental; in which case, the Rentals Appraiser may decrease the maximum rental by an amount which is commensurate with the decreased rental value of the accommodation.

(3) No application by a landlord or a tenant for a variation of a fixed maximum rental shall be considered by a Rentals Appraiser unless it is by reason of one or more of the special circumstances set forth in this Section or in Section 5.

(4) Any variation of the maximum rental for any housing accommodation under this Order shall be deemed to be the fixation of the maximum rental for such accommodation.

When an increased or decreased maximum rental may be charged

8. (1) If a fixed maximum rental has been increased under clauses (a), (b), (c), (d) or (e) of subsection (1) of Section 7 and the tenant has not agreed to pay any increased rental, the increased maximum rental shall not be charged, demanded, received, collected, or paid earlier than the expiration of the current term of the lease then in effect, but may be charged thereafter, if, in the case of a lease not for a

term certain the landlord has given the notice referred to in Section 17 or, in the case of a lease for a term certain, the landlord has given the demand for renewal referred to in subsection (3) of Section 18.

(2) When the fixed maximum rental for any housing accommodation has been increased under the provisions of this Order,

- (a) by reason of any increase in the taxes or water rates referred to in clause (a) of subsection (1) of Section 7 and the tenant has agreed to pay an increased rental for that reason, the increased maximum rental may be collected to the extent of and in accordance with the agreement; or
- (b) by reason of an increase in the amount of the accommodation or the supplying of any appurtenances, furniture, furnishings, equipment, fixtures, services or facilities referred to in clause (b) of subsection (1) of Section 7 and the tenant has agreed to pay an increased rental for that reason, the increased maximum rental may be collected as from the date of such supplying to the extent of and in accordance with the agreement, or
- (c) by reason of the renovation referred to in clause (c) of subsection (1) of Section 7 and the tenant has agreed to pay an increased rental for that reason, the increased maximum rental may be collected as from the date of such renovation to the extent of and in accordance with the agreement, or
- (d) by reason of the circumstance referred to in clause (d) or clause (e) of subsection (1) of Section 7 and the tenant has agreed to pay an increased rental for that reason, the increased maximum rental may be collected as from the date on which the landlord's application was filed to the extent of and in accordance with the agreement;

provided that the right to collect, receive or pay any such increased rental shall be postponed until the date on which such maximum rental has been conclusively increased under the provisions of this Order.

(3) When the fixed maximum rental for any housing accommodation has been increased by reason of a sub-letting referred to in clause (f) of subsection (1) of Section 7 the increased maximum rental may be charged

- (a) in the case of a lease not for a term certain, from the date specified in a notice given by the landlord to the tenant in accordance with subsection (2) of Section 17;
- (b) in the case of a lease for a term certain, during the period of any renewal of the lease if the landlord gives to the tenant a demand for renewal in accordance with subsection (4) of Section 18.

(4) When the fixed maximum rental for any housing accommodation has been decreased under this Order

- (a) by reason of the circumstance that the fixed maximum rental was higher than the rental generally prevailing on October 11, 1941, for similar housing accommodation in the neighbourhood, the decreased maximum rental shall take effect from the date on which the relevant application was filed or the date on which the matter was referred by a Rentals Administrator to the Rentals Appraiser, or the date on which the Rentals Appraiser decreased the maximum rental of his own motion, as the case may be;
- (b) by reason of the lessening of any appurtenances, furniture, furnishings, equipment, fixtures, services or facilities, the decreased maximum rental shall take effect from the date on which the lessening occurred;

and the lease in effect for such accommodation shall be deemed to have been amended accordingly.

(5) Notwithstanding the provisions of the Wartime Leasehold Regulations prohibiting the charging, demanding, receiving, collecting and paying of any rental in excess of the maximum rental, in any case in which the landlord of any housing accommodation is entitled under this Order to make an application for an increased maximum rental for the accommodation, a lease may be made which provides for a rental higher than the fixed maximum rental subject to the maximum rental being varied under the provisions of this Order; but the right to collect, receive or pay

any rental in excess of the fixed maximum rental shall be postponed until the date on which the maximum rental has been conclusively increased under the provisions of this Order.

Procedure for application for variation of maximum rentals

9. (1) An application to a Rentals Appraiser for the variation of a fixed maximum rental shall be made in the following manner:

- (a) a form of application provided by the Board shall be completed in duplicate by the applicant and all information required by such form shall be given;
- (b) both copies of the completed application shall be filed with the Rentals Appraiser;
- (c) the Rentals Appraiser shall forward a copy of the application to the opposite party by mail;
- (d) the opposite party to the application may, within ten days after the date on which it was mailed to him, forward or give to the Rentals Appraiser any written statement that he desires to make.

(2) The Rentals Appraiser may require such additional information from either party as he may direct, may conduct a hearing if he desires and may adopt such procedure as he deems proper.

(3) The Rentals Appraiser may require the evidence of the parties to be given under oath or affirmation and may administer such oath or affirmation, and may inspect the accommodation; but no expense shall be incurred without the written authorization of a Rentals Administrator.

(4) The Rentals Appraiser may fix or vary the maximum rental of the accommodation described in the application or may dismiss the application.

(5) If the application is by reason of a sub-letting referred to in clause (f) of subsection (1) of Section 7, the Rentals Appraiser may refer the application to the Court of Rental Appeals for decision; in which case, the provisions of Section 11 shall apply as if the reference were an appeal.

(6) A Rentals Appraiser, of his own motion, may vary the maximum rental for any housing accommodation by reason of the existence of any circumstance referred to in Section 7.

(7) Any decision by a Rentals Appraiser shall be on a form provided by the Board and, in the absence of an appeal under Section 11, the decision shall be conclusive as between the parties.

(8) On any application, no costs shall be awarded to either party.

Fixation of maximum rental not previously fixed

10. (1) The landlord of any housing accommodation described in subsection (2) following shall, before or within thirty days after making a lease therefor, make an application to the Rentals Appraiser to fix the maximum rental therefor; and a landlord who has made the application may collect the rental payable under the lease until the maximum rental is fixed but, if he does not make the application within such thirty days, the tenant may thereafter withhold payment of all rental until the landlord has made the application but shall notify the Rentals Appraiser that the application has not been made.

(2) Housing accommodation to which this Section applies shall be:

- (a) that for which there was no lease in effect between January 1, 1940, and October 1, 1943;
- (b) that which has been altered since the date on which the maximum rental therefor was last fixed, resulting in substantially different accommodation;
- (c) that which has been customarily rented for a season or seasons only, if rented for any period not included in such season or seasons;
- (d) that which has been converted from commercial accommodation;
- (e) that for which the maximum rental is not ascertainable by the landlord.

(3) If there is no lease in effect for the housing accommodation at the time of the application, the landlord shall complete a form of application provided by the Board and shall furnish such information as the Rentals Appraiser may require and the provisions of subsections (2), (3), (4) and (7) of Section 9 shall apply to the application.

(4) If there is a lease in effect for the housing accommodation at the time of the application, all of the provisions of Section 9 (except subsection (5)) shall apply as if the application were for variation of a fixed maximum rental.

(5) If there is a lease in effect for the housing accommodation at the time of the application, the maximum rental fixed under this Section shall take effect from the date of the commencement of the lease; and, if the rental payable under the lease is higher than such fixed maximum rental, the lease shall be deemed to have been amended accordingly.

(6) In no case shall a maximum rental for any housing accommodation be fixed under this Section at an amount that is higher than the rental generally prevailing on October 11, 1941, for similar accommodation in the neighbourhood.

(7) A Rentals Appraiser may, of his own motion, fix the maximum rental for any housing accommodation referred to in this Section and, in the absence of an appeal under Section 11, the decision of the Rentals Appraiser shall be conclusive as between the parties.

Appeal from Rentals Appraiser

11. (1) The decision of a Rentals Appraiser fixing or varying the maximum rental for any housing accommodation may be appealed by either party to the Court of Rental Appeals

(2) An appeal shall be made in the following manner:—

- (a) a notice of appeal provided by the Board shall be completed in duplicate by the party who is appealing;
- (b) the party who is appealing shall, within fifteen days after the date of the Rentals Appraiser's decision or within such further time not exceeding thirty days as a Rentals Administrator may allow
 - (i) serve one copy of the notice of appeal on the opposite party, if any, by personal service or by prepaid registered mail;
 - (ii) file the other copy and proof of service on any opposite party with the Rentals Appraiser or other officer designated by a Rentals Administrator;
- (c) the Rentals Appraiser shall ascertain from the Court of Rental Appeals the date of the hearing of the appeal and shall forward to each of the parties by mail a notice stating the date of hearing unless such Court itself sends such notice;
- (d) the Rentals Appraiser shall forward to the Court of Rental Appeals a copy of his decision, all material filed on the application and a memorandum setting forth such additional facts as were established before him; and such material and memorandum shall be open to inspection by either party;
- (e) on the appeal, any relevant evidence may be submitted by either party.

(3) The Court of Rental Appeals may require such information in such manner as it may direct, may adopt such procedure at the hearing as it deems proper, may inspect the accommodation and, for the purpose of informing itself in the execution of its powers and duties, shall have the powers of a commissioner appointed under the Inquiries Act (R.S.C. 1927, Chapter 99); but no expense shall be incurred without the written authorization of a Rentals Administrator.

(4) The said Court may confirm or revoke the decision of the Rentals Appraiser or make such variation or fixation of the maximum rental as could be made by the Rentals Appraiser under the provisions of this Order.

(5) The decision of the said Court shall be on a form provided by the Board and shall be conclusive as between the parties.

(6) On any appeal under this Section, no costs shall be awarded to either party.

PART II—TERMINATION OF LEASES FOR HOUSING ACCOMMODATION

Dispossession under this Order

12. Except as provided in Sections 13, 14, 15 and 16, no tenant of any housing accommodation shall be dispossessed of such accommodation or be evicted therefrom and no landlord shall demand that any tenant vacate or deliver up possession of any housing accommodation.

Dispossession under provincial law

13. The landlord may recover possession of the accommodation in accordance with the law of the province in which it is situated if the tenant

- (a) is in default in payment of his rent for fifteen days or longer; or
- (b) is breaking any material provision of his lease, other than a provision to vacate, unless the breach is permitted under any Order of the Board; provided that the landlord, before exercising his rights under this Section by reason of this clause, shall inform the tenant in writing of the nature of the alleged breach; or
- (c) is in possession under a lease for a term certain of five months or less made on or after October 1, 1943, provided that this clause shall only apply to the first such lease made in any period of twelve months; or
- (d) is the landlord's employee, servant or agent; or
- (e) must vacate in order to enable the landlord to comply with the order of any duly constituted authority under the law of the province or municipality in which the accommodation is situated, declaring such accommodation as unfit for human habitation; or
- (f) has given to the landlord, after the making of the lease for the accommodation but not as a term of the lease or a condition of obtaining it, a written notice of his intention to vacate the accommodation on a stated date and has failed to so vacate; or
- (g) is in occupation under a lease for a term certain, has received from the landlord a demand for renewal in accordance with Section 18, has not given to the landlord a notice of renewal in accordance with Section 19, and has failed to vacate at the end of such term certain; or
- (h) is in occupation under a lease that is not for a term certain, has received from the landlord a notice in accordance with Section 17 and has not given to the landlord a notice in accordance with such Section; or
- (i) is in occupation of housing accommodation that is customarily let for a season or seasons and his lease is for a season or a part thereof; or
- (j) is a tenant in respect of whom an order has been made by the Court of Rental Appeals under Section 14; or
- (k) has been given a notice to vacate in accordance with Section 15 or Section 16; or
- (l) is a tenant of His Majesty in right of Canada or of any province thereof; or
- (m) has assigned his lease or has sub-let the entire accommodation for the remainder of the term of the lease, and for the purposes of this clause the term of a periodic tenancy shall be the current lease month in the case of a monthly lease and the current lease year in the case of a yearly lease. A landlord shall not be entitled to exercise his rights under this Section by reason of this clause if, by privity of contract, consent or otherwise, the relation of landlord and tenant has been established between him and the assignee or sub-tenant as the case may be.

Dispossession of obnoxious tenants

14. (1) If the landlord of any housing accommodation wishes to terminate the tenant's lease because the conduct of the tenant or his sub-tenant or someone living with the tenant or sub-tenant is obnoxious to the other occupant or occupants of the building in which the accommodation is situated, or tends to harm its character, or because the tenant or his sub-tenant or someone living with the tenant or sub-tenant is damaging the accommodation or because the tenant or sub-tenant by not taking reasonable care of it is causing it to deteriorate, the landlord may apply to the Court of Rental Appeals for an order exempting the lease from the provisions of this Part.

(2) The application shall be made in the following manner:

- (a) a form of application provided by the Board shall be completed in duplicate by the landlord and all information required by such form shall be given;
- (b) both copies of the application shall be filed with the Rentals Appraiser;
- (c) the Rentals Appraiser shall ascertain from the Court of Rental Appeals the date of the hearing of the application;
- (d) the Rentals Appraiser shall forward a copy of the application to the tenant by registered mail and shall forward to both parties a notice stating the date on which the Court of Rental Appeals will hear the application, unless the Court itself forwards such notice to both parties;
- (e) the tenant may, within ten days after the date on which the application was mailed to him, forward or give to the Rentals Appraiser any written statement that he desires to make;
- (f) the Rentals Appraiser shall forward to the Court of Rental Appeals all material filed on the application.

(3) On the hearing of the application, the Court of Rental Appeals may require such information in such manner as it may direct, may adopt such procedure as it deems proper and may grant or refuse the order; but no costs shall be awarded to either party.

Dispossession for purpose of personal residence

15. (1) If the landlord of any housing accommodation desires the accommodation as a residence for himself or for his father, mother, son, daughter or daughter-in-law for a period of at least one year from the date of vacation by the tenant, or if the personal representative of the deceased landlord desires the accommodation as a residence for the father, mother, son, daughter, daughter-in-law, widow or widower of the deceased landlord for at least that period, he may give to the tenant a notice to vacate which shall be on a form provided by the Board or in the form set forth in the Appendix to this Order as Form No. 1.

(2) Unless the lease provides for a longer notice, at least six months' notice to vacate shall be given directing the tenant to vacate

- (a) in the case of a monthly lease, at the end of a lease month or, in the case of a weekly lease, at the end of a lease week, but in neither case between September 30 and the following April 30;
- (b) in the case of any other lease not for a term certain, at the end of the term or, if the unexpired portion of the term is less than six months, at the end of the following term;
- (c) in the case of a lease for a term certain, at the end of the term, but if the unexpired portion of the term is less than six months at the date on which the notice is given, the notice shall be null and void and the provisions of Section 20 shall apply.

(3) If a tenant is required to vacate any housing accommodation under this Section, the accommodation shall not, without a permit in writing of the Rentals Appraiser, be rented in whole or in part to another tenant or be sold to any person during a period of one year from the date on which the notice directs the tenant to vacate.

Dispossession for purpose of sub-division

16. (1) If the landlord of any housing accommodation desires possession of the accommodation for the purpose of dividing it by means of structural alteration into family units, so as to accommodate more persons in the accommodation he may make an application to the Rentals Appraiser for a permit to give a notice to vacate to the tenant.

(2) The application shall be on a form provided by the Board and all information required by the form shall be given.

(3) The landlord shall file with the application his plans of the proposed division and shall satisfy the Rentals Appraiser that he has obtained or is able to obtain from all proper authorities any necessary permits for the division.

(4) The Rentals Appraiser may require any additional information, may inspect the accommodation and may grant or refuse the permit.

(5) If the Rentals Appraiser refuses to grant a permit under this Section, the landlord may appeal to the Court of Rental Appeals; in which case, the Rentals Appraiser shall forward to the Court all material filed with him and a memorandum of any additional information obtained by him and the Court shall have all the powers conferred on the Rentals Appraiser by this Section.

(6) If a permit is granted under this Section, the landlord may give to the tenant a notice to vacate which shall be on a form provided by the Board or in the form set forth in the Appendix to this Order as Form No. 2.

(7) Unless the lease provides for a longer notice, at least three months' notice to vacate shall be given directing the tenant to vacate

(a) in the case of a monthly lease, at the end of a lease month or, in the case of a weekly lease, at the end of a lease week, but in neither case between September 30 and the following April 30;

(b) in the case of any other lease not for a term certain, at the end of the term or, if the unexpired portion of the term is less than three months, at the end of the following term;

(c) in the case of a lease for a term certain, at the end of the term, but if the unexpired portion of the term is less than three months at the date on which the notice is given, the notice shall be null and void and the provisions of Section 20 shall apply.

(8) If a tenant is required to vacate any housing accommodation under this Section, the accommodation shall not, without a permit in writing of the Rentals Appraiser, be rented in whole or in part to another tenant or be sold to any person until the division specified in the application is completed. This subsection shall not prevent a landlord from making a lease of any family unit referred to in subsection (1) preceding for occupation by the tenant after completion of the unit.

Increasing rental to maximum rental

17. (1) If the rental for any housing accommodation payable under a lease that is not for a term certain is less than the fixed maximum rental for the accommodation and the maximum rental has not been increased by reason of the sub-letting referred to in clause (f) of subsection (1) of Section 7 the landlord may give to the tenant a notice which shall be on a form provided by the Board or in the form set forth in the Appendix to this Order as Form No. 3, requiring the tenant to pay a specified increased rental not exceeding the fixed maximum rental for the accommodation.

(2) If the maximum rental for any housing accommodation has been increased by reason of a sub-letting referred to in clause (f) of subsection (1) of Section 7, and the tenant's lease is not for a term certain, the landlord may give to the tenant a notice which shall be on a form provided by the Board or in the form set forth in the Appendix to this Order as Form No. 4, requiring the tenant to pay a specified increased rental, not exceeding the increased maximum rental for the accommodation; and, if the tenant gives to the landlord the notice referred to in subsection (4) of this Section, the increased rental shall be payable until the end of the lease month in which the tenant discontinues the sub-letting and notifies the landlord in writing of such discontinuance; if the tenant thereafter resumes the sub-letting of more than two rooms, the increased maximum rental shall be payable by the tenant from the date of such resumption while such sub-letting continues.

(3) The notice referred to in subsection (1) and (2) shall be given not later than the time prescribed by the law of the province in which the accommodation is situated for the giving of a notice to vacate, and shall require payment of the increased rental from the date on which the tenant would have been required to vacate had the notice been a notice to vacate under such law.

(4) Unless the tenant, within fifteen days after receipt of the notice, gives to the landlord a notice in writing agreeing to pay such increased rental, the notice given by the landlord shall be deemed to have terminated the lease and the landlord may recover possession of the accommodation in accordance with the law of the province in which it is situated.

Landlord's demand for renewal

18. (1) If the landlord under any lease of housing accommodation for a term certain desires to ascertain whether the tenant is willing to renew the lease or intends to vacate the accommodation at the end of the term, he may give to the

tenant a demand for renewal, which shall not be given earlier than three months before the date of expiration of the term or later than fifteen days before such date of expiration.

(2) A demand for renewal at the same rental shall be on a form provided by the Board or in the form set forth in the Appendix to this Order as Form No. 5.

(3) If the rental payable under the lease is less than the fixed maximum rental for such accommodation and has not been increased by reason of a sub-letting referred to in subsection (1) of Section 7, the landlord may require payment of a specified increased rental, not exceeding the maximum rental, if the tenant renews the lease; and in such case, the demand shall be on a form provided by the Board or in the form set forth in the Appendix to this Order as Form No. 7.

(4) If the maximum rental for any housing accommodation has been increased by reason of a sub-letting referred to in clause (f) of subsection (1) of Section 7 and the tenant's lease is for a term certain, the landlord may give to the tenant a demand for renewal which shall be on a form provided by the Board or in the form set forth in the Appendix to this Order as Form No. 8 requiring the tenant, if he desires to renew the lease, to pay a specified increased rental not exceeding the increased maximum rental for the accommodation; and if the tenant gives the notice of renewal referred to in subsection (1) of Section 19, the increased rental shall be payable during the period of renewal unless the tenant discontinues the sub-letting of more than two rooms and notifies the landlord in writing of such discontinuance, in which case the increased rental shall be payable until the end of the lease month in which the tenant so notifies the landlord; if the tenant thereafter resumes the sub-letting of more than two rooms the increased rental shall be payable by the tenant from the date of such resumption while such sub-letting continues.

Tenant's notice of renewal.

19. (1) If the tenant of any housing accommodation for a term certain has been given a demand for renewal in accordance with Section 18 and desires to renew his lease, he shall, within fifteen days after receipt of such demand, complete the notice of renewal contained in the demand for renewal and return it to the landlord or give to the landlord a notice of renewal in the form set forth in the Appendix to this Order as Form No. 6.

(2) In the absence of agreement to the contrary, a notice of renewal may not be withdrawn.

(3) In the absence of agreement to the contrary, the period of renewal shall be for a further term certain of one year.

(4) Each renewal for a term certain arising under a notice of renewal given under this or any previous Order of the Board shall constitute a lease.

Overholding in absence of demand for renewal.

20. If the tenant of any housing accommodation for a term certain to whom the provisions of Section 13 do not apply has not been given a demand for renewal, he may, at his option, vacate the accommodation at the end of such term or remain in possession of the accommodation; but, if he remains in possession, the landlord may, before accepting payment of any rent, require that the tenancy shall be from month to month but, in the absence of such a requirement, the period of tenancy created by the payment and acceptance of rent shall, in the absence of agreement to the contrary, be governed by the law of the province in which the accommodation is situated.

Landlord's right of inspection.

21. (1) In the absence of agreement with the tenant to the contrary, the landlord of any housing accommodation shall be entitled to show or have his agent show prospective buyers through the accommodation at all reasonable times,

(a) if the lease in effect on October 1, 1943 is not for a term certain; or

(b) during the period of renewal arising as the result of a notice of renewal given under the provisions of Order No. 108 of the Board in the case of a lease for a term certain; or

(c) if the tenant remains in possession of the accommodation under Section 20.

(2) If the tenant refuses to permit the inspection, the landlord may apply to the Rentals Appraiser for a notice by such Appraiser directing the tenant to permit any person specified in the notice to inspect the accommodation at a time specified in the notice and informing the tenant that, if he fails to permit such inspection, the landlord may apply to the Court of Rental Appeals for an order exempting the lease from the provisions of this Part.

(3) If, after receipt of the notice by the Rentals Appraiser, the tenant fails to permit the inspection, the landlord may make an application to the Court of Rental Appeals for an order exempting the lease from the provisions of this Part; in which case the provisions of subsections (2) and (3) of Section 14 shall apply.

Rights of sub-tenants

22. (1) A sub-tenant of any housing accommodation shall have, in respect of the tenant of the accommodation, the same rights and obligations under this Order as the tenant has in respect of his landlord.

(2) If the landlord of any housing accommodation terminates the tenant's lease for the accommodation in accordance with this Order, no sub-tenant of the accommodation may remain in occupation of the accommodation after the date of such termination except to the extent that he has acquired such right against the landlord under the law of the province in which the accommodation is situated by establishing privity of contract with or obtaining the consent of the landlord or otherwise.

PART III—SHARED ACCOMMODATION

Shared accommodation in designated area

23. This Order shall not apply to any shared accommodation situated in any area referred to in Administrator's Order No. A-421, or in any area designated under the authority of the Administrator's Order No. A-488 or under any Order of the Board respecting shared accommodation.

Dispossession under provincial law

24. Part II of this Order shall not apply to any shared accommodation and the landlord may recover possession of the accommodation in accordance with the law of the province in which it is situated.

Shared accommodation when let as a unit

25. All shared accommodation (other than that referred to in Sections 23 and 26) shall be deemed to be housing accommodation to which all the provisions of Part I of this Order shall apply.

Shared accommodation let at a rate per person

26. No person shall let any shared accommodation at a rate per person unless the accommodation is equipped and furnished (including bedding, linen and the laundering thereof) for the sleeping accommodation of each occupant. For the purposes of this Part, when shared accommodation is let at a rate per person the occupant of the accommodation shall be deemed to be a roomer (or a boarder if any meals are supplied to him for an inclusive rate).

Maximum rate per person

27. (1) If any shared accommodation is equipped and furnished (including bedding, linen and the laundering thereof) for the sleeping accommodation of each occupant,

- (a) the maximum rate per person at which the landlord of such accommodation may let it to any number of occupants shall be the rate per person that he had in effect for that number of occupants on July 1, 1943;
- (b) the maximum rate per person at which the landlord may let such accommodation to a number of occupants, for which number he had no rate per person in effect on July 1, 1943, shall be the rate per person first charged by him after July 1, 1943, for that number of occupants.

(2) No person shall charge, demand, receive, collect or pay for any shared accommodation a rate per person that is higher than the maximum rate per person fixed for the accommodation under this Section, except to the extent that it is varied under Section 28.

Variation of per person rates

28. (1) An application may be made by the landlord of any shared accommodation to the Rentals Appraiser to increase the maximum rate per person for the accommodation by reason of either of the following special circumstances:

- (a) the maximum rate per person is lower than the rate per person generally prevailing for similar occupancy of similar accommodation in the neighbourhood;
- (b) the supplying of any furniture, furnishings, equipment, fixtures, services, meals or facilities that were not supplied or to be supplied for such maximum rate; in either of which cases, the Rentals Appraiser, if satisfied that such maximum rate per person is lower than the rate generally prevailing for similar accommodation in the neighbourhood, may increase it to an amount not exceeding such generally prevailing rate.

(2) An application may be made by a roomer or a boarder to decrease the maximum rate per person for the shared accommodation which he occupies, by reason of either of the following special circumstances:

- (a) the maximum rate per person is higher than the rate per person generally prevailing for similar occupancy of similar accommodation in the neighbourhood;
- (b) the lessening of any furniture, furnishings, equipment, fixtures, services, meals or facilities that were supplied or to be supplied for such maximum rate; in either of which cases, the Rentals appraiser, if satisfied that such maximum rate per person is higher than the rate per person generally prevailing for similar occupancy of similar accommodation in the neighbourhood, may decrease it to the amount of such generally prevailing rate.

Posting up maximum rates

29. A Rentals Administrator may from time to time by notice published in Canadian War Orders and Regulations require landlords of any shared accommodation in any area designated in the notice to keep posted in a conspicuous place in the accommodation a maximum rate card on a form provided by the Board, or to complete any form designated in the notice and file it with such officer as the notice may direct.

- (b) on a sale at retail at the time of payment or delivery, provided that where the bottled soft drink is consumed at the time of sale on the seller's premises he is not required to impose the deposit charge, unless the customer fails to return the bottle to the seller.

10. (1) Where immediately prior to the effective date of this Order any seller maintained a practice of imposing and collecting a deposit charge higher than the charge fixed by this Order, he may continue to impose and collect such higher deposit charge until otherwise directed by the Administrator of Cocoa, Confectionery and Allied Products.

Respecting Used Electric Motors and Equipment

Pursuant to authority conferred by the Wartime Prices and Trade Board, it is hereby ordered on behalf of such Board as follows:

1. For the purposes of this Order,

- (a) "dealer" means any person who purchases used electric motors or used electric equipment for the purpose of resale;
- (b) "rebuilt" in relation to an article of used electric equipment or a used electric motor means one of which all parts, coils and connections have been thoroughly examined and, as necessary, tested and of which, where required, all worn, broken and missing parts, coils, attachments and connections have been reworked, repaired, replaced, rewound or reconnected and which by further adequate examination and test is demonstrated to be in a condition for performance, electrically, mechanically and as to operational safety factors, substantially equivalent to that of which it was capable when new;
- (c) "used electric equipment" means electric equipment or electric apparatus usable for or in connection with the generation, transformation, transmission, distribution or control of electric energy and in respect of which a period of not less than twelve months has elapsed since the time when it was first sold as new, to be put to that use, and, without in any way restricting the generality of the foregoing, includes electric equipment and electric apparatus so used of a kind or description listed in Part I of Schedule "A" hereto;
- (d) "used electric motor" means an electric motor of any kind or description, other than a toy electric motor and in respect of which a period of not less than twelve months has elapsed since the time it was first sold as new to be put to use, and, without in any way restricting the generality of the foregoing, includes an electric motor so used of a kind or description listed in Part II of Schedule "A" hereto.

2. (1) No dealer shall sell, dispose of or deliver a used electric motor or used electric equipment as rebuilt unless at the time of sale, disposition or delivery the same

- (a) has been rebuilt since it was last used;
- (b) bears a plate, imprint or other mark of identification showing the name of its manufacturer, its original serial number, its present characteristics, the name of its rebuilder and the rebuilder's serial number.

(2) On every sale by a dealer of rebuilt electric equipment or a rebuilt electric motor there is hereby imposed as a term or condition of the sale an implied warranty by the dealer and as part of the consideration on the transaction, as set forth in Schedule "B" hereto.

(3) Whenever rebuilt electric equipment or a rebuilt electric motor is sold or disposed of by a dealer who actually rebuilt the same to another dealer for resale by that other dealer under his own name, trade mark or brand, the last-mentioned dealer shall on such a sale thereof by him to a person other than a dealer, be deemed to be the one bound by the implied warranty prescribed by subsection (2) of this Section and his name and serial number shall be substituted for that of the actual rebuilder on the plate mentioned in clause (b) of subsection (1) of this Section.

3. (1) The maximum price at which any person may sell or offer to sell or dispose of rebuilt electric equipment or a rebuilt electric motor shall be seventy per centum (70%) of the highest lawful price at which the manufacturer thereof sold the same or a similar kind, type, model and size, when new, during the basic period, September 15 to October 11, 1941, both inclusive, to a user in the locality in which the sale of the rebuilt electric equipment or rebuilt electric motor is being made.

(2) Where in any case the highest lawful price referred to in subsection (1) of this Section is not ascertainable or no sale as referred to in the said subsection was made during the said basic period, the rebuilt electric equipment or rebuilt electric motor shall not be sold unless and until the maximum price therefor has first been fixed by the Administrator of Used Goods on application in writing to him by the dealer or the proposed buyer.

4. The maximum price at which any person may sell or offer to sell or may dispose of used electric equipment or a used electric motor which is not rebuilt shall be a price which is just and reasonable having regard to the comparability of its condition and usefulness with those of rebuilt electric equipment or a rebuilt electric motor, as the case may be, but in any event the price shall not exceed the maximum price at which it may be sold if it were rebuilt electric equipment or a rebuilt electric motor, less the cost of rebuilding the used electric motor or used electric equipment into a rebuilt one.

5. (1) Every person shall maintain and keep a full and accurate written record of all his purchases, sales and other transactions of and relating to used electric equipment and used electric motors and the same shall be available at any time for inspection by any authorized representative of the Board.

(2) Every dealer shall on a sale or other disposition by him of a rebuilt or used electric equipment or a rebuilt or used electric motor and concurrently with delivery thereof issue and furnish to the buyer or the person to whom disposition is made, an invoice whereon he shall accurately show in detail particulars of the sale or other disposition, the article sold, its serial number or other mark of identification, the condition thereof and whether or not it is rebuilt and the sale price and the dealer shall retain and keep a duplicate of every invoice issued by him available for inspection at any time by any authorized representative of the Board.

6. No person shall sell or otherwise dispose of a rebuilt or used electric equipment or a rebuilt or used electric motor the maximum selling price of which is not fixed by this Order or in a case referred to in subsection (2) of Section 3 until the said Administrator has fixed the maximum selling price thereof.

7. (1) No person shall, except with the written permission of the said Administrator, wilfully damage, render useless or destroy used electric equipment or a used electric motor which is less than twenty years old, or a part of electric equipment or of an electric motor or the manufacturers' plate thereon, or erase or render illegible any serial number or other mark for identification thereon.

(2) Subsection (1) of this Section shall not be applicable in the case of the work of rebuilding of used electric equipment or a used electric motor by or for a dealer; provided, however, that in such work the manufacturer's plate and serial number or other mark of identification are not destroyed, damaged, erased, rendered illegible or removed.

8. The provisions of this Order shall be subject to any written exemption which the said Administrator may grant upon application to him in individual cases of undue hardship or other special circumstances.

9. This Order shall be effective on and after the 11th day of August, 1943.

Respecting Maximum Prices of Fresh Peaches, Pears and Plums

Under powers given by the Wartime Prices and Trade Board to the Administrator of Fresh Fruits and Vegetables, it is hereby ordered on behalf of the Board as follows:

Application of this Order

1. This Order comes into force on August 16, 1943. Notwithstanding the provisions of Order No. 189 of the Board it fixes maximum selling prices for fresh peaches, pears and plums when sold by any person, and applies to both the Canadian grown and imported fruit. There are also special provisions dealing with imported fruit only.

2. For the purposes of this Order Canada is divided into the following zones:

- (a) Zone No. 1 being all that part of the Province of Ontario composed of the counties of Durham, Ontario, Simcoe, Grey and Bruce, and all counties in Ontario which lie to the south and/or west of the above named counties;
- (b) Zone No. 2 being composed of the island of Montreal in the Province of Quebec;
- (c) Zone No. 3 being composed of that part of Canada not included in zone No. 1 and zone No. 2.

3. The various grades of fresh peaches, pears and plums are defined in Section 24. In fixing maximum prices of peaches and plums no distinction is made between the different varieties.

4. All references in this Order to selling or sales include also offerings to sell and offers for sale.

5. Where pears are stored Section 23 makes provision for adding storage charges to maximum prices on sales made after September 30th in any year.

Sales by Country Shippers (including Growers)

6. (1) *Definition*—"country shipper" means any person including a grower, who makes sales or shipments of peaches, pears or plums from a farm or other country shipping point in or near the producing area.

(2) The maximum price f.o.b. seller's farm or place of business at which a country shipper may sell peaches, pears or plums of a grade and variety set forth in Schedule "A" hereto to a wholesale distributor, trucker or to a retailer who operates a central warehouse separate from his retail outlet or outlets, and takes delivery at such central warehouse, shall, according to the size and type of the container in which the fruit is packed and the zone in which the customer's place of business is situated, be the price for the same set forth in the Schedule.

(3) The maximum price f.o.b. seller's farm or country shipping point at which a country shipper may sell peaches, pears or plums of a grade and variety set forth in Schedule "A" to a retailer who does not take delivery of that fruit at a central warehouse separate from his retail outlet or outlets shall, according to the size and type of the container in which the fruit is packed and the zone in which the customer's place of business is situated, be the price for the same set forth in Schedule "A", plus an amount not exceeding 12½ per cent of his selling price.

(4) The maximum price at which a country shipper may sell peaches, pears or plums of a grade and variety set forth in Schedule "A" to a consumer through a public market or otherwise shall, according to the size and type of the container in which the fruit is packed and the zone in which the sale is made, be the price for the same set forth in Schedule "A", plus an amount not exceeding 25 per cent of his selling price. Where delivery is made to a consumer in a city, town or village, the limits of which are not within a distance of 15 miles of the country shipping point, he may add transportation charges at a rate not in excess of the less-than-carload lot express rate for that fruit.

Sales by Truckers

7. (1) *Definition*—"trucker" means any person who buys peaches, pears, or plums from a country shipper, taking delivery at the country shipper's farm or place of business in or near the producing area, and distributing them from his truck.

(2) The maximum price at which a trucker may sell peaches, pears, or plums of a grade and variety listed in Schedule "A" shall be the sum of the following:

- (a) the actual price paid by him for that fruit but not exceeding the maximum price at which the same may be sold to him by a country shipper;
- (b) transportation charges at the less-than-carload lot express rate from the railway shipping point nearest his supplier's farm or country shipping point to the place of delivery to his customer, if the distance between such points is more than fifteen miles; and
- (c) on sales at wholesale, a markup not exceeding $12\frac{1}{2}$ per cent of his selling price; or
- (d) on sales at retail, a markup not exceeding 25 per cent of his selling price.

Sales by Wholesale Distributors

8. (1) *Definition*—"wholesale distributor" means any person other than a country shipper or trucker, who sells peaches, pears, or plums at wholesale.

(2) The maximum price at which a wholesale distributor may sell peaches, pears, or plums of a grade and variety listed in Schedule "A" shall be the sum of the following:

- (a) the actual price paid by him for that fruit but not exceeding the maximum price at which the same may be sold to him by a country shipper;
- (b) actual transportation charges to his place of business including pre-cooling and refrigeration charges during transit that are not included in the actual price paid by him, however, if the shipping point of the country shipper is situated within 15 miles of the limits of the city, town, or village in which the wholesale distributor operates his place of business, the wholesale distributor may not include such transportation charges;
- (c) if the wholesale distributor is located in zone 3, (except the Province of British Columbia) an allowance for shrinkage of not more than 2 per cent of the sum of items (a) and (b); plus
- (d) a markup not exceeding $12\frac{1}{2}$ per cent of his selling price.

9. The provisions of Section 8 shall not apply to stocks of peaches, pears and plums on hand on the effective date of this Order and sold on or before August 21, 1943. Maximum prices for those stocks are fixed by Section 20.

10. Where sales of peaches, pears or plums are made between wholesale distributors the total amount of the markups of all the wholesale distributors must not exceed the amount of the markup which the first wholesale distributor could have included as part of his selling price on a sale to a person other than a wholesale distributor. Every wholesale distributor when selling to another wholesale distributor shall deliver to the buyer before or at the time he makes delivery of the fruit an invoice stating the total combined markup and the amount thereof available to the buyer.

11. (1) The maximum price at which a retailer may sell peaches, pears and plums of a grade and variety listed in Schedule "A" shall be the sum of the following:

- (a) the actual price paid by him for that fruit but not exceeding the maximum price therefor that may be charged by his supplier;
- (b) actual transportation charges to his place of business including pre-cooling and refrigeration charges in transit that are not included in the actual price paid by him, however, if he purchases from a country shipper he may not add such transportation charges to his cost price if the shipping point of the country shipper is situated within 15 miles of the limits of the city, town or village in which the retailer has his place of business; and

(c) a markup not exceeding 25 per cent of his selling price.

(2) If a retailer who operates a central warehouse separate from his retail outlet or outlets purchases peaches, pears or plums direct from a country shipper and such fruit is taken into the central warehouse of the retailer and distributed therefrom, his maximum markup shall be $27\frac{1}{2}$ per cent of his selling price instead of the markup provided in clause (c) of subsection (1) of this Section.

12. The provisions of Section 11 shall not apply to stocks of peaches, pears and plums on hand on the effective date of this Order and sold on or before August 21, 1943. Maximum prices for these stocks are fixed by Section 21.

Sales on Consignment

13. Where a person receives peaches, pears or plums for sale on consignment he must not sell that fruit at a price exceeding the maximum price at which a wholesale distributor in that zone could sell that shipment of fruit.

Sales of Ungraded and Unlisted Grades of Fruits

14. (1) The maximum price at which a person may sell to any class of customer in any zone ungraded peaches or peaches of a grade lower than No. 2 grade shall be the maximum price fixed by this Order at which he may sell No. 2 grade peaches to that class of customer in that zone.

(2) Where a person sells ungraded pears or pears of a grade lower than Domestic Grade (No. 2) packed in any of those packages listed in the Schedule, the maximum price at which he may sell those pears to any class of customer in any zone shall be the maximum price fixed by this Order for sales by him of Domestic Grade (No. 2) pears to that class of customer in that zone.

Listed Containers

15. Listed containers are those containers listed in Schedule "A" and conforming with the requirements of the Regulations issued under The Fruit, Vegetables and Honey Act.

16. If the covering (leno) of a leno basket of peaches, pears or plums is not intact or has been removed following packing of the fruit contained therein, the basket of fruit shall for the purposes of this Order, be deemed to be an open basket and subject to the maximum price fixed for an open basket of that fruit.

Minimum Net Weight of Contents of Listed Containers

| 17. Container | TABLE | | |
|--------------------------|------------------|----------------|-----------------|
| | Peaches | Pears | Plums |
| | lbs. | lbs. | lbs. |
| 6 quart leno basket..... | 10 $\frac{1}{2}$ | 11 | 10 |
| 6 " open " | 9 | 9 | 9 |
| 11 " flat " | 15 | 16 | 15 |
| 6 " " " | .. | .. | 8 $\frac{1}{2}$ |
| Standard box | 18 $\frac{1}{2}$ | 45 (wrapped) | 16 |
| " " | .. | 43 (unwrapped) | .. |

18. The maximum price set forth in Schedule "A" for peaches, pears or plums in a listed container is on the basis of a filled container having a net weight not less than the minimum net weight specified in Section 17 for that container. If less than the minimum net weight of fruit is sold in a listed container the fruit shall be deemed to be sold in an unlisted container and the maximum price shall be governed by Section 19.

Sales in Unlisted Containers

19. (1) This Section fixes prices for peaches, pears and plums when sold in containers of a size or type not listed in Schedule "A." The maximum price at which any person may sell such fruit in any unlisted container must bear a true relationship to the maximum price for that fruit packed in its base container as follows:

| Fruit | Base Container | Standard Net Weight |
|---------|---------------------------|---------------------|
| Peaches | 6 quart leno basket | 10½ lbs. |
| Pears | 11 " flat " | 16 " |
| Plums | 6 " " " | 8½ " |

(2) The maximum price at which a person may sell peaches, pears or plums in an unlisted container shall be determined on the basis of the maximum price fixed by this Order for sales to the same class of customer of that grade and variety of fruit packed in its base container according to the relationship which the net weight of the fruit in the unlisted container bears to the standard net weight of the fruit in its base container, cost of package included.

(3) *Example*—If 4 pounds of pears are sold in a paper bag or other unlisted container the maximum price will be 25 per cent of the maximum price fixed for pears sold in an 11-quart flat basket.

Example—If 48 pounds of pears are sold in a bushel hamper the maximum price will be three times the maximum price fixed for an 11-quart flat basket, cost of package included.

Stocks on Hand

20. (1) If on the effective date of this Order a wholesale distributor has stocks on hand or in transit of peaches, pears or plums, whether Canadian grown or imported, the maximum price at which he may sell such fruit shall be the sum of the following:

- (a) his actual delivered cost of the fruit including transportation; and
- (b) a markup not exceeding 12½ per cent of his selling price.

(3) Where a wholesale distributor sells peaches, pears or plums under the provisions of subsection (1) he shall, prior to or concurrently with delivery of the fruit, furnish his buyer with an invoice certifying that the fruit represents stock on hand or in transit on the effective date of this Order.

21. (1) If on the effective date of this Order a retailer has on hand stocks of peaches, pears or plums, whether Canadian grown or imported, the maximum price at which he may sell such fruit shall be the sum of the following:

- (a) his actual delivered cost of the fruit including transportation; and
- (b) a markup not exceeding 25 per cent of his selling price.

(2) The maximum prices fixed by subsection (1) of this Section shall also apply to sales by a retailer of peaches, pears or plums purchased by him on or before August 21, 1943, and which are invoiced to him as stocks in the hands of a wholesale distributor or in transit on the effective date of this Order.

(3) After the 21st day of August, 1943, the provisions of subsections (1) and (2) shall not apply, and any peaches, pears and plums then in the hands of a retailer shall be governed by the other provisions of this Order fixing maximum prices on sales by retailers.

Maximum Prices of Imported Fruit

22. (1) Except as provided in Section 20 the maximum price at which any person may sell at wholesale any imported peaches, pears or plums at any point shall be the sum of the following:

- (a) the maximum price f.o.b. his country shipping point at which a country shipper may sell to him that grade and variety of Canadian grown fruit packed in a standard box or standard lug;

- (b) the actual cost of transporting the fruit from its port of entry into Canada to the wholesaler's place of business; and
- (c) a markup not exceeding $12\frac{1}{2}$ per cent of his selling price.

(2) Except as provided in Section 21 the maximum price at which any person may sell at retail any imported peaches, pears or plums at any point shall be the sum of the following:

- (a) the actual price paid by him for that fruit but not exceeding the maximum price therefor that may be charged by his supplier as fixed by subsection (1) of this Section;
- (b) actual transportation charges from his supplier's warehouse to his place of business; and
- (c) a markup not exceeding 25 per cent of his selling price.

Additions to Maximum Prices for Storage Pears

23. Where pears are stored and are sold after September 30, in the year in which they are grown the maximum prices fixed by the other provisions of this Order for sales of such pears shall be increased by 5 cents per standard pear box or 11-quart flat basket for each month that the pears have actually been in storage. However where the pears have been stored for more than three months the additional storage shall not in any event exceed 15 cents for each container.

Definitions of Grades of Fruits

24. (1) *Peaches*—"Select Grade," "No. 1 Grade" and "No. 2 Grade" mean respectively peaches, whether Canadian grown or imported, which are graded, packed and marked in accordance with the standards for such grades of peaches as defined in the Regulations issued under the Fruit, Vegetables and Honey Act.

(2) *Pears*—"Extra Fancy Grade," "Fancy Grade," "C Grade," "No. 1 Grade" and "Domestic Grade" (sometimes known as "No. 2 Grade") mean respectively pears, whether Canadian grown or imported, which are graded, packed and marked in accordance with the standards for such grades of pears as defined in the Regulations issued under the Fruit, Vegetables and Honey Act.

25. The provisions of Sections 26, 27 and 28 relating to records and invoices shall apply to both Canadian grown and imported peaches, pears and plums.

26. (1) Every country shipper, trucker and every wholesale distributor who sells any peaches, pears or plums shall on every sale at wholesale at the time of delivery to the buyer furnish him with an invoice showing the name and complete address of the seller and buyer, the date of sale, and the grade and variety and price charged for that fruit.

WARTIME PRICES AND TRADE BOARD

ADMINISTRATOR'S ORDER No. A-851

Respecting Maximum Prices of Canned Fruits and Vegetables

Under powers given by the Wartime Prices and Trade Board to the Administrator of Processed Fruits and Vegetables, it is hereby ordered on behalf of the Board as follows:

Application of the Order

1. This Order comes into effect on August 16, 1943, and replaces Orders No. 148 and No. 186 of the Board. The Order applies to sales by any person of the products listed in Schedule "A" when those products are packed in metal containers of the sizes set forth in that Schedule. It also applies to sales by wholesalers and retailers of the products listed in Schedule "B" when those products are packed in any size of glass or metal container.

Section 23 contains special provisions governing prices on sales by canners of vegetables listed in Schedule "A" when packed in 16-oz. containers. Special provisions relating to sales of certain fruits by British Columbia Coast Canners are contained in Section 24.

Sales by any person of the products listed in Schedule "A" when packed in sizes of metal containers for which prices are not fixed in this Order or when packed in glass containers, and sales by canners of products listed in Schedule "B" will continue to be governed by the provisions of The Wartime Prices and Trade Regulations unless a specific price fixation has been issued or is hereafter issued therefor by or on behalf of the Board.

2. This Order does not apply to any dehydrated or frozen fruit or vegetable or to any soup, jam, jelly or marmalade.

3. All references in this Order to selling or sales include also offerings to sell and offers for sale.

Definitions of Qualities

4. For the purposes of this Order and its Schedules, "fancy," "choice" and "standard" mean, respectively, the qualities of the products herein referred to as they are defined in the regulations respecting fruits and vegetables issued under the Meat and Canned Foods Act.

Canners—General Provisions

5. "Canner," means a processor, packer or other manufacturer engaged in the business of producing for sale any of the products to which this Order applies, and holding at any time during 1943 a manufacturer's sales tax licence issued by the Excise Division of the Department of National Revenue.

6. All maximum prices fixed by this Order for sales by canners are exclusive of Dominion sales tax and are f.o.b. the seller's factory or warehouse. At the request of the buyer, a canner may prepay the freight on any shipment, but in that event he must show it as a separate item on his sales invoice to the buyer.

7. Sales by a canner of any product for which a maximum price is fixed by this Order shall, in addition to all other terms and conditions expressed in this Order, be upon the following terms and conditions:

- (i) a discount of $1\frac{1}{2}$ per cent on sales to Commodity Prices Stabilization Corporation Limited, if the account is paid within fifteen days of invoice date;
- (ii) the seller's customary cash discount on sales to any other person;
- (iii) net invoice price if the account is paid within thirty days of invoice date;
- (iv) a discount of one-quarter of 1 per cent in lieu of claims for "swells" on sales to the Commodity Prices Stabilization Corporation Limited;
- (v) the seller's customary allowance for "swells" on sales to any other person.

Sales by Cannery to Other than C.P.S.C. Ltd.

8. The maximum price per dozen containers at which a canner may sell to any class of customer any product listed in Schedule "A" hereto, packed in a metal container of a size listed therein, shall be the price for the same set forth in Schedule "A" according to the quality of the product and the size of the container in which it is packed and, in the case of tomato juice and canned vegetables, according to the province in which the canner's factory or warehouse is situated.

Sales by Cannery to C.P.S.C. Ltd.

9. On and after December 1, 1943, every canner shall be entitled to sell to Commodity Prices Stabilization Corporation Limited (hereinafter referred to as the "Corporation") that portion of his pack of any product listed in Schedule "A" that receives the approval, as to quality, of inspectors appointed under the Meat and Canned Foods Act; provided that, in the case of canned tomato juice and of any canned vegetable, he must have paid in 1943 prices for the entire quantity of the raw vegetable used by him to produce such product that equal or exceed the prices paid by him for such vegetable in 1941.

10. (1) The maximum price per dozen containers at which a canner, who complies with the provisions of Section 9, may sell a product listed in Schedule "A" to the Corporation shall be the maximum price for the same set forth in Schedule "A" according to the size of container and the province in which the canner's factory or warehouse is situated, plus an amount equal to any subsidy payable by the Corporation on sales to any other buyer of that product in that size of container, less

- (a) twenty-five cents per dozen containers if packed in 105-oz. containers; and
- (b) five cents per dozen containers if packed in any other size container.

(2) A canner shall not be entitled to any subsidy on a sale by him to the Corporation.

11. All sales made by a canner to the Corporation under the provisions of this Order shall also be subject to the following terms and conditions:

- (a) the canner shall provide storage free of cost until May 31, 1944, for all such products sold by him to the Corporation;
- (b) the canner shall, at his own expense, insure, with loss payable to the Corporation, against fire, to their full insurable value the products so stored by him for the Corporation;
- (c) after May 31, 1944, the canner shall (except as provided in Clause (d)) continue to store and insure the products sold by him to the Corporation and thereafter shall be entitled to be reimbursed by the Corporation for such storage and insurance at the rate of 2 cents per case per month;
- (d) if the Corporation refuses to continue to pay the amount for storage and insurance provided in Clause (c), the canner shall not, after notice of such refusal, be required to continue to store and insure the said products for the Corporation except on such terms as may be mutually agreed upon;
- (e) the Corporation may at any time after January 31, 1944, take possession of any products so stored for it by a canner.

12. The Corporation may withhold payment of any moneys payable to a canner under the provisions of this Order until he has furnished the Administrator of Processed Fruits and Vegetables with satisfactory evidence that he has fully complied with the provisions of Sections 9 and 11.

13. Every canner shall, when required by the said Administrator or any person authorized by him, exhibit to the said Administrator or to his agent or deputy all such books, accounts, records and documents as may be required to show and make a full record and disclosure of all transactions of the canner relating to the purchasing, packing, preserving, selling, storing and insuring of products sold or to be sold by the canner to the Corporation.

- (b) a markup (percentage of cost) in respect of the product of a particular canner, not greater than the markup (percentage of cost) normally used by such wholesaler in pricing that product during the basic period from September 15, 1941, to October 11, 1941, both inclusive and, if that product was not sold by him during such basic period, not greater than the markup (percentage of cost) normally used by him in pricing a similar product during such basic period; provided, however, that in no case shall the markup exceed ten per cent (10%) of the wholesaler's selling price .

16. (1) The maximum price at which a wholesaler may sell any product listed in Schedule "B" hereto, packed in glass or metal containers, shall be the sum of the following:

(2) Every canner and wholesaler shall retain a duplicate copy of each invoice furnished by him as required by this Section.

PART I
Orders in Council

**Order in Council authorizing despatch to Alaska of personnel called
out for training under the National Resources Mobilization
Act, 1940**

P.C. 5011

AT THE GOVERNMENT HOUSE AT OTTAWA

FRIDAY, the 18th day of June, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas, Order in Council dated the 4th September, 1942, P.C. 7995, authorizes and directs the despatch to the Territory of Alaska, a territory of the United States of America, of certain units of the Canadian Army on the strength of which are personnel called out for training service or duty pursuant to the provisions of the National Resources Mobilization Act, 1940;

And whereas Order in Council dated the 20th April, 1943, P.C. 3238, authorizes and directs the despatch to the Territory of Alaska of all such personnel who have been or may be called out for training, service or duty pursuant to the provisions of the National Resources Mobilization Act, 1940, who were or may be on the strength of or attached to and/or who were or may be from time to time required for training, service or duty with artillery and/or infantry units of the Canadian Army serving in and/or which may be despatched from time to time to Alaska;

And whereas the Minister of National Defence states that the Chief of the General Staff reports that it is now considered that the authorities and directions contained in the aforesaid Orders in Council should be extended to include the despatch to the Territory of Alaska (including the Aleutian Islands and other United States Islands adjacent thereto) of personnel called out for training, service or duty pursuant to the provisions of the National Resources Mobilization Act, 1940, for training, service or duty therein; and

That publication or circulation of the fact that authority has been granted for the despatch of such personnel to Alaska would convey information likely to be useful to the enemy.

And whereas the Minister of National Defence recommends that appropriate action be taken to permit of the despatch to the Territory of Alaska (including the Aleutian Islands and other United States islands adjacent thereto) of any personnel who have been or may be called out for training, service or duty pursuant to the provisions of the National Resources Mobilization Act, 1940, for training, service or duty therein;

And whereas the War Committee of the Cabinet has concurred in the foregoing proposal and the Minister of National Defence reports that no additional expenditure is involved therein.

Now, therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of National Defence, and under and by virtue of the National Resources Mobilization Act, 1940, and the War Measures Act, Chapter 206, Revised Statutes of Canada, 1927, is pleased to order and doth hereby order as follows:—

Notwithstanding the provisions of any other statute, law, regulation or order, the Minister of National Defence is hereby authorized and directed to despatch to the Territory of Alaska (including the Aleutian Islands and other United States islands adjacent thereto) such personnel who have been or may

be called out for training, service or duty pursuant to the provisions of the National Resources Mobilization Act, 1940, as are or may from time to time hereafter be required in the opinion of the said Minister for training, service or duty therein; and to issue or cause to be issued all orders and to take all steps necessary to give effect to this authorization and direction; and all personnel so despatched or to be despatched are respectively hereby required (in addition to all other obligations for training, service or duty) to perform while in the Territory of Alaska (including the Aleutian Islands and other United States islands adjacent thereto) such training, service or duty as may be ordered by any superior officer in all respects as if the aforesaid training, service or duty in the Territory of Alaska (including the Aleutian Islands and other United States islands adjacent thereto) were training, service or duty performed or ordered to be performed in Canada.

Further, all personnel so despatched or who may at any time be so despatched are, pursuant to Section 64 of the Militia Act, hereby placed on Active Service beyond Canada for the defence thereof.

His Excellency in Council, on the same recommendation and pursuant to the provisions of Section 5 of the National Resources Mobilization Act, 1940, for security reasons and because of the exigencies of operations, is further pleased to order and doth hereby order that all of the steps specified in the said Section be omitted until otherwise ordered on the ground that such omission is considered necessary in the national interest, having regard to the special circumstances.

A. D. P. HEENEY,
Clerk of the Privy Council.

Order in Council providing for payment of costs of transporting
harvesting equipment, Prairie Provinces

P.C. 6549

AT THE GOVERNMENT HOUSE AT OTTAWA

TUESDAY, the 17th day of August, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas in order to encourage the efficient movement of harvesting equipment from one district to another within the Prairie Provinces to ensure harvesting of the 1943 crop it is expedient to provide by agreements with the provinces concerned for the payment of one-way transportation costs of harvesting equipment moved under the direction of the provincial authorities, and for the sharing of costs so incurred between the Dominion of Canada and the provinces concerned;

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Labour, and under the provisions of the War Measures Act, is pleased to authorize and doth hereby authorize the Minister of Labour to amend and extend, as he deems advisable, the terms of the agreements entered into by him on behalf of the Dominion of Canada with the provinces of Alberta, Saskatchewan and Manitoba, pursuant to Order in Council P.C. 3620 of May 4, 1943, or any of them, to provide for payment by the province of one-way transportation costs incurred in the transfer of harvesting equipment under the direction of the provincial authorities for the harvesting of the crop grown in the current year, A.D. 1943, in the province, at such rates as may be agreed to by the Minister and the province, and to share equally as between the Dominion of Canada and the province the costs so incurred.

A. D. P. HEENEY,
Clerk of the Privy Council.

Order in Council continuing the payments to millers and other
manufacturers of wheat products provided by P.C. 9457,
October 16, 1942

P.C. 6602

AT THE GOVERNMENT HOUSE AT OTTAWA

THURSDAY, the 19th day of August, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas under Order in Council P.C. 8528 known as the Wartime Prices and Trade Regulations flour millers and other manufacturers of wheat products are required to sell flour and other human foods containing wheat in Canada at prices not in excess of the maximum prices charged by them during the period September 15 to October 11, 1941;

And whereas since August 1, 1942, the market price of western wheat has been higher than during the period September 15 to October 11, 1941;

And whereas in order to maintain the supply of flour and other human foods containing wheat provision was made under Order in Council P.C. 9457 dated October 16, 1942, for payments to the manufacturers of such products according to the quantity of western wheat estimated to have been used in the manufacture of such products sold in Canada during the crop year 1942-43, at a rate equal to the difference between the monthly average prices estimated to have been paid by such manufacturers for Number One Northern Wheat or Number One CW Amber Durum Wheat in store Fort William-Port Arthur, and a price for the same grade of wheat in the same position determined as being appropriate to maximum prices for flour;

And whereas it is desirable to continue such payments during the crop year 1943-44 subject to certain alterations in procedure;

And whereas the Wartime Prices and Trade Board, pursuant to Order in Council P.C. 9457 dated October 16, 1942, has determined upon 77 $\frac{3}{8}$ cents per bushel for Number One Northern and Number One CW Amber Durum in store Fort William-Port Arthur as the price for wheat appropriate to maximum prices for flour;

And whereas the Minister of Finance and the Acting Minister of Trade and Commerce report that some mills are earning excess profits as a result of a large increase in export flour sales principally to the United Kingdom, and that it is not considered advisable to make payments which contribute to profits taxable at the rate of 100 per cent under the Excess Profits Tax Act;

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Finance and the Acting Minister of Trade and Commerce, and under and by virtue of the War Measures Act, Chapter 206, Revised Statutes of Canada, 1927, and otherwise, is pleased to order as follows:

1. For purposes of this Order, and unless the context otherwise requires,
 - (a) "Flour millers" shall include manufacturers of human foods containing wheat other than flour;
 - (b) "Western wheat" means wheat grown in the Provinces of Manitoba, Saskatchewan and Alberta, in that part of the Province of Ontario lying west of Fort William-Port Arthur and in that part of British Columbia known as the Peace River District, the Creston and Wynndel areas and in such other parts of British Columbia as the Canadian Wheat Board may from time to time designate under paragraph 1 of Part 1 of the Regulations contained in Order in Council P.C. 1802 dated March 9, 1942;
 - (c) "The monthly average price for hard red spring wheat" means the price for Number One Northern Wheat in store Fort William-Port Arthur which is determined by the Canadian Wheat Board each month, beginning with and including August, 1943, as being mostly nearly approximate to the arithmetic average price paid for that grade of wheat in that position by

flour millers during that month, provided, however, that if during any month the price of Number One Northern rises to a premium of more than 4 cents per bushel over Number Two Northern, the "monthly average price" for hard red spring wheat may be determined by the Canadian Wheat Board by adding 4 cents per bushel to the price which is determined by the said Board to be most nearly approximate to the arithmetic average price paid for Number Two Northern Wheat in store Fort William-Port Arthur by flour millers during that month;

- (d) "The monthly average price for Durum Wheat" means the price for Number One CW Amber Durum wheat in store Fort William-Port Arthur which is determined by the Canadian Wheat Board each month beginning with and including August, 1943, as being most nearly approximate to the arithmetic average price paid for that grade of wheat in that position by flour millers during that month, reduced by the amount of any abnormal premium for Number One CW Amber Durum wheat over Number Two CW Amber Durum wheat;
- (e) "Standard Profits" shall mean the standard profits of the recipient determined under and in accordance with the Excess Profits Tax Act;
- (f) "Net Taxable income" shall mean net taxable income for the purposes of the Income War Tax Act.

2. Payments to flour millers are hereby authorized in respect of flour or other human foods containing wheat for consumption in Canada sold prior to or between August 1, 1943, and July 31, 1944, both inclusive, and delivered between August 1, 1943, and July 31, 1944, both inclusive, which shall be equal to the quantity of western wheat estimated to have been used in the manufacture of flour or such other human foods multiplied by the difference between the "monthly average price for hard red spring wheat" for the month in which the flour or such other human foods were delivered and 77½ cents per bushel, subject to the following terms and conditions:—

- (a) For the purposes of making payments under this order, the Canadian Wheat Board shall have the power to determine the quantity of western wheat used in the manufacture of any given quantity of flour or other human food containing wheat, but unless otherwise ordered by the Canadian Wheat Board one barrel (196 pounds) of flour shall be considered as equivalent to 4½ bushels of wheat with the exception that one barrel (196 pounds) of whole-wheat flour of any variety or standard shall be considered equivalent to 3½ bushels of wheat;
- (b) No flour miller shall be entitled to payment hereunder unless and until he has completed an undertaking that if in respect of any fiscal year of the flour miller his net taxable income, inclusive of all sums received by him at any time from the Canadian Wheat Board by way of payment hereunder in respect of deliveries of flour or other human foods during such fiscal year, exceeds 116⅔ per cent of his standard profits, he will as soon as possible after the end of such fiscal year, and not later than the date on which the recipient is required under the Income War Tax Act to file income tax returns in respect of such fiscal year, refund to the Commodity Prices Stabilization Corporation for account of the Canadian Wheat Board the amount of such excess, provided, however, that the flour miller shall be under no obligation to pay to the said Corporation for account of the Canadian Wheat Board any amount in excess of the total sums so received by him from the said Board by way of payments hereunder;
- (c) Payments hereunder shall be made in respect of flour and other human foods sold prior to or between August 1, 1943, and July 31, 1944, both inclusive, and delivered between August 1, 1943, and July 31, 1944, both inclusive;
- (d) No payments hereunder shall be made in respect of flour exported from Canada;
- (e) Payments hereunder in respect of human foods containing Durum Wheat shall be at a rate equal to the difference between the "monthly average price for Durum Wheat" and 77½ cents per bushel.

3. (a) The Canadian Wheat Board is hereby charged with the duty of determining and paying to flour millers the sums of money payable under this Order, and is hereby authorized and empowered to make such orders and regulations as may be necessary or advisable for carrying out the provisions of this Order;

(b) The Commodity Prices Stabilization Corporation is hereby charged with the sole duty of determining and collecting the sums of money payable to the said Corporation for account of The Canadian Wheat Board under and by virtue of this Order and of remitting such sums collected to the said Board, and the Canadian Wheat Board is in no way responsible for the manner in which the said duty is performed by the said Corporation.

4. Expenditures hereunder, including expenses incurred by the Canadian Wheat Board in administering the provisions hereof, shall be charged against monies to be allotted from the War Appropriation for this purpose.

A. D. P. HEENEY,
Clerk of the Privy Council.

**Order in Council directing publication and circulation of P.C. 5011,
18th June, 1943 despatch of troops to Alaska**

P.C. 6704

AT THE GOVERNMENT HOUSE AT OTTAWA

MONDAY, the 23rd day of August, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas Order in Council dated 18th June, 1943, P.C. 5011, authorizes and directs the Minister of National Defence to despatch to the Territory of Alaska (including the Aleutian Islands and other United States islands adjacent thereto) such personnel who have been or may be called out for training, service or duty pursuant to the provisions of the National Resources Mobilization Act, 1940, as are or may be required, in the opinion of the said Minister, for training, service or duty therein;

And whereas Section 5 of the National Resources Mobilization Act, 1940, provides that all orders or regulations passed under the authority of that Act shall be tabled in Parliament forthwith if Parliament is in Session and a copy thereof sent to each member of the House of Commons and of the Senate and if Parliament is not in Session that every such order or regulation shall be forthwith published in the Canada Gazette and copies thereof sent to each member of the House of Commons and of the Senate forthwith;

And whereas the said Section further provides that any of the steps specified therein may be omitted or deferred, if the Governor in Council considers such omission or deferment necessary in the national interest having regard to the special circumstances;

And whereas by the said Order in Council P.C. 5011, it was ordered that, for security reasons and because of the exigencies of operations, all the steps specified in the said Section 5 be omitted until otherwise ordered on the ground that such omission was considered necessary in the national interest having regard to special circumstances;

And whereas the Minister of National Defence reports that the Chief of the General Staff has advised that the exigencies of operations have now altered so that the security reasons existing at the time of the passing of said Order in Council P.C. 5011, do not now apply and consequently it is now considered that the national interest having regard to the special circumstances no longer requires that the steps specified in the said Section 5 of the National Resources Mobilization Act should be omitted;

Therefore His Excellency the Governor General in Council, on the recommendation of the Minister of National Defence, is pleased to order and doth hereby order and direct that Order in Council dated 18th June, 1943, P.C. 5011, and this Order be forthwith published and circulated as required by Section 5 of the National Resources Mobilization Act of 1940.

Clerk of the Privy Council.

(2) No wholesaler or retailer shall sell or offer to sell a garment which he purchases after the effective date of this Order, unless he first receives an invoice for the garment from his supplier, as required by subsection 1 of this section.

8. Every person who manufactures garments for sale shall keep a proper record of his manufacture and sale of garments, showing in respect of each kind of garment the material used in its manufacture and the price range thereof. PART I
Orders in Council

Order in Council authorizing guarantee of repayment of loans by
chartered banks of Canada to Canadian Wheat Board

P.C. 6778

AT THE GOVERNMENT HOUSE AT OTTAWA

THURSDAY, the 26th day of August, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas Order in Council P.C. 3147 dated 4th October, 1935, passed pursuant to The Canadian Wheat Board Act, 1935, authorized the Minister of Finance on behalf of the Government of Canada to guarantee advances made to the Canadian Wheat Board (established under the said Act and hereinafter referred to as "the Board") by the following banks, namely:

Bank of Montreal
The Royal Bank of Canada
The Canadian Bank of Commerce
The Bank of Nova Scotia
The Bank of Toronto
Imperial Bank of Canada
The Dominion Bank;

And whereas a guarantee in form authorized by Order in Council P.C. 3147 was executed by the Minister of Finance on the 5th October, 1935, and delivered;

And whereas Order in Council P.C. 4840 of the 17th September, 1940, passed pursuant to The Canadian Wheat Board Act, 1935, as amended (hereinafter referred to as "the Act") authorized the Minister of Finance on behalf of the Government of Canada to guarantee advances made to the Board by the seven lending banks, and interest on such advances at such rate or rates and upon such terms of payment thereof as might be agreed upon from time to time between the Board and the seven lending banks with the approval of the Minister of Finance;

And whereas a guarantee in form authorized by Order in Council P.C. 4840 was executed by the Minister of Finance on the 7th October, 1940, and delivered;

And whereas Order in Council P.C. 10199 dated 31st December, 1941, amended Order in Council P.C. 4840 by adding to the list of the names of the seven lending banks the name of Banque Canadienne Nationale, and also amended the form of guarantee by adding thereto the name of the said bank (the eight banks being hereinafter referred to as "the lending banks");

And whereas a guarantee in form authorized by Order in Council P.C. 4840, as amended, was executed by the Minister of Finance on the 8th January, 1942, and delivered;

And whereas Order in Council P.C. 1803 of the 9th March, 1942, passed under and by virtue of the powers vested in the Governor in Council by the War Measures Act, Chapter 206, Revised Statutes of Canada 1927 (hereinafter referred to as "the War Measures Act"), and otherwise, made regulations (hereinafter referred to as "the 1942-43 Wheat Regulations") empowering the Board to carry out the 1942-43 wheat policy including necessary and proper adjustment of wheat stocks to the new and higher levels;

And whereas Order in Council P.C. 4779 of the 5th June, 1942, made pursuant to the 1942-43 Wheat Regulations, authorized the Minister of Finance on behalf of the Government of Canada to guarantee advances made to the Board by the lending

banks, and interest on such advances at such rate or rates and upon such terms of payment as might be agreed upon from time to time between the Board and the lending banks with the approval of the Minister of Finance;

And whereas a guarantee in form authorized by Order in Council P.C. 4779 was executed by the Minister of Finance on the 10th June, 1942, and delivered;

And whereas the Minister of Finance reports that advances by the lending banks from time to time at various points in respect of wheat crops of succeeding years have been so numerous that the keeping of many separate bank loan accounts in respect thereof has so complicated and increased the work of the Board that the Board have reported that it is necessary that wheat loan accounts be merged and consolidated as far as possible without reference to particular crop years, and the lending banks have concurred in the proposal upon condition that a new and comprehensive guarantee be executed by the Minister of Finance to cover all outstanding advances to the Board and all advances to be made to the Board in respect of wheat;

Therefore, His Excellency the Governor General in Council, in the exercise of the powers conferred by the Act and by Orders in Council P.C. 1803 and 4779 dated the 9th March, 1942, and 5th June, 1942, respectively, is pleased, on the recommendation of the Minister of Finance, and under and by virtue of the powers conferred by the War Measures Act, and otherwise, to authorize and doth hereby authorize the Minister of Finance, on behalf of the Government of Canada, to guarantee payment of advances made to the Board by the lending banks, and interest on such advances at such rate or rates and upon such terms of payment thereof as may be agreed upon from time to time between the Board and the lending banks with the approval of the Minister of Finance, such guarantee be in the following form or one to the like effect:

"To

Bank of Montreal
The Royal Bank of Canada
The Canadian Bank of Commerce
The Bank of Nova Scotia
The Bank of Toronto
Imperial Bank of Canada
The Dominion Bank
Banque Canadienne Nationale

and to each of you.

1. In consideration of your having made advances (which term as used herein includes all moneys loaned) to the Canadian Wheat Board (hereinafter referred to as "the Board") and of any advances which you may hereafter make to the Board from time to time under the authority of The Canadian Wheat Board Act 1935 as amended (hereinafter referred to as "the Act") or under Order in Council P.C. 1803 dated the 9th March 1942 (hereinafter referred to as "the 1942-43 Wheat Regulations"), in such sums and upon such terms as to such advances and the security therefor as shall be from time to time agreed upon between you and the Board, and in view of the intention that wheat loan accounts be merged and consolidated as far as possible without reference to particular crop years, I, the undersigned, as Minister of Finance on behalf of the Government of the Dominion of Canada and in the exercise of the powers conferred by the Act, the 1942-43 Wheat Regulations, and the War Measures Act, and otherwise, hereby guarantee the due payment to you, and each of you, of all such advances at any time made or to be made, with interest on all such advances at such rate or rates and upon such terms of payment thereof as may be agreed upon from time to time between you and the Board with the approval of the Minister of Finance.

2. This shall be a continuing guarantee and shall cover all advances and interest thereon which may be at any time outstanding provided that this guarantee shall not apply to any advances made, more than twenty-four hours after receipt of the notice next hereinafter mentioned, in excess of any aggregate limit fixed by the Minister of Finance from time to time upon the total advances in respect of wheat crops of all years which may be at any time outstanding and notified in writing or by telegram to the head office of each of you.

3. It shall be a condition of this guarantee that you may grant time, renewals, extensions, releases and discharges, accept compositions and substitutions, take and give up security on wheat and other collateral security, and deal in any manner with the Board and all or any such security as you may see fit, without prejudice to or in any way limiting or lessening the liability of the guarantor under this guarantee.

4. It shall be a further condition of this guarantee that from time to time with the approval of the Minister of Finance given in writing or by telegram, you or any of you may, subject to such conditions as the Minister of Finance may impose for the purpose of ensuring orderly marketing, sell or realize upon in any manner all or any of the wheat upon which you hold security and all or any other collateral security held by you, and any such sale or realization may be made pursuant to any statutory powers or in accordance with any powers of sale or realization given to you or any of you by the Board.

5. Payment under this guarantee of the respective ultimate balances, if any, due or accruing due to you, shall be made within six months after all or practically all wheat upon which you or any of you hold security has been sold or realized upon, and application of the amounts realized, less expenses, has been made against such advances and interest, and written request for payment has been made to the Minister of Finance, and you may from time to time make such requests for payment of advances outstanding in respect of any particular crop year or years without realization of security held for advances outstanding in respect of the other crop years and without affecting your right from time to time thereafter to request payment hereunder of any or all of the advances outstanding in respect of the other crop years.

6. Notwithstanding anything hereinbefore contained and whether or not request for payment has been made hereunder or whether any payment hereunder has been made, this guarantee shall remain in force from year to year, and shall apply to all such advances as aforesaid (with the interest thereon) made up to the time twenty-four hours after each of you receives at its head office notice in writing or by telegraph from the Minister that no such advance made after twenty-four hours will be covered by this guarantee.

Dated at Ottawa this day of 1943.
on behalf of His Majesty the King

Minister of Finance and
Receiver General of Canada."

His Excellency in Council is further pleased to order and doth hereby order that in this Order in Council and in all of the Orders in Council hereinbefore mentioned and in each and every guarantee executed thereunder and hereunder, unless the context otherwise requires, all words and expressions shall have the same meaning as they have in The Canadian Wheat Board Act, 1935, as amended.

Clerk of the Privy Council.

Order in Council extending home conversion plan in the city of Ottawa, and providing for similar conversion of buildings in the cities of Hamilton, St. Catharines, Brantford, Montreal and Quebec.

P.C. 6812

AT THE GOVERNMENT HOUSE AT OTTAWA

MONDAY, the 30th day of August, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Minister of Finance reports that as a result of the influx of population since the commencement of the present war into the Cities of Hamilton, St. Catharines and Brantford in the Province of Ontario, and the Cities of Montreal and Quebec in the Province of Quebec, and districts contiguous to each of the said Cities, there exists an acute shortage of housing accommodation in the said Cities;

That there are available in the said districts large dwelling houses capable of being subdivided into multiple dwellings thus creating additional housing units at a minimum cost;

That it is expedient and necessary for the relief of the housing situation in the said districts and for the furtherance of the war effort that His Majesty the King in the right of Canada lease suitable buildings from their owners and convert the same into multiple housing units to be sublet to suitable tenants;

That by Orders in Council P.C. 2641, dated the first day of April, 1943, and P.C. 4579, dated the fourth day of June, 1943, the Minister of Finance was authorized in order to relieve the housing shortage in the City of Ottawa and contiguous municipalities, and for the furtherance of the war effort, to lease on behalf of His Majesty the King in the right of Canada, suitable buildings not exceeding fifty, and to convert the same into multiple housing units to be sublet to tenants; the total amount of the liability of the Minister under all contracts for such conversion not to exceed \$250,000; and

That it is apparent that additional suitable buildings must be converted into multiple housing units in the City of Ottawa and contiguous municipalities in order to relieve the acute housing shortage which exists in the said district;

Therefore His Excellency the Governor General in Council, on the recommendation of the Minister of Finance, is pleased to order and doth hereby order as follows:—

1. The Minister of Finance (hereinafter called "the Minister") on behalf of His Majesty the King is hereby authorized to acquire by way of lease from the owners thereof suitable buildings (hereinafter referred to as "the buildings") located in the Cities of Hamilton, St. Catharines, Brantford, Montreal and Quebec and municipalities contiguous thereto, for the purpose of converting the said buildings into multiple housing units;

2. The Minister of Finance on behalf of His Majesty the King is hereby authorized to acquire by way of lease from the owners thereof, suitable buildings (in addition to those leased under the provisions of the said Orders in Council P.C. 2641 and P.C. 4579) located in the City of Ottawa and any contiguous municipalities for the purpose of converting the said buildings into multiple housing units;

3. The terms of the lease of each of the buildings shall be for a period of five years, with the privilege of the Minister renewing the said leases for a further period of three years, but subject to the proviso that the said Minister may at any time cancel the said lease upon thirty days' notice;

4. The total monthly rental payable by the Minister for any of the buildings so leased shall not exceed in each case one per centum of the appraised value of the property before conversion plus one-twelfth of the increases in annual municipal real estate taxes occasioned by the conversion of the said property;

5. The Minister may enter into contracts for rebuilding, remodelling, reconditioning, rehabilitating, converting, changing or altering buildings, provided that the average cost of construction for units created in any one building shall not exceed the sum of \$1,500 per unit, provided the total amount of the liability of the Minister under all such contracts in the Cities of Hamilton, St. Catharines and Brantford and contiguous municipalities, shall not together exceed the sum of \$250,000, and provided further that the total amount of the liability of the Minister under all such contracts in the Cities of Montreal and Quebec and contiguous municipalities, shall not together exceed the sum of \$500,000, and provided further that the total amount of the liability of the Minister under all such contracts in the City of Ottawa and contiguous municipalities shall not exceed \$250,000 (in addition to the amount of the liability of the Minister under Orders in Council P.C. 2641 and P.C. 4579);

6. The said contracts shall be either for a stipulated sum or upon the cost plus a fixed fee basis;

7. The Minister may employ such appraisers, architects, builders and other assistants as are necessary to implement this Order and may purchase or rent all equipment and accommodation necessary to carry out the provisions of this Order;

8. The Minister may sublet to suitable tenants at reasonable rentals the housing units so created in the buildings, provided that the term of any sub-lease granted by the Minister shall not exceed a period of one year, and provided further that the sub-lease shall be subject to the right of cancellation by the Minister as is contained in the lease by which the Minister is seised of the building;

9. The rentals received by the Minister from the tenant of the housing units shall be deposited in the Consolidated Revenue Fund;

10. Upon the expiration or the cancellation of the leases the said buildings shall be returned by the Minister to the owners in their then existing condition;

11. All rents for the said buildings and all costs and expenses incurred in carrying out the provisions of this Order shall be paid out of monies appropriated by Parliament to carry out measures deemed necessary in consequence of the existence of a state of war;

Pacific Herring Production Regulations

P.C. 6839

AT THE GOVERNMENT HOUSE AT OTTAWA

MONDAY, the 30th day of August, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Acting Minister of Fisheries reports that to safeguard the supply of canned herring and of edible herring meal and oil manufactured from herring, the production of which at high levels is necessary, by reason of the state of war now existing for the security, defence, peace, order and welfare of Canada, it is advisable to make provision for the control of herring fishing in British Columbia and of the

canning of such herring or the manufacture of such meal and oil therefrom, and of the shipment, transfer or sale thereof and for the obtaining of necessary information with regard thereto;

Therefore, His Excellency the Governor General in Council, on the recommendation of the Acting Minister of Fisheries, and under and by virtue of the powers conferred by the War Measures Act, is pleased to make the following regulations and they are hereby made and established accordingly:—

9. The Minister may, if he is satisfied that the quantity of herring caught or likely to be caught in the Lower East Coast or the Quathiaski sub-district is or is likely to be greater than the capacity of existing canning plants available for canning such herring, by order, prohibit herring fishing operations in the said sub-districts or in any area in the sub-districts, or prohibit such fishing except subject to such conditions as he may prescribe in such order, for such period or periods as he deems necessary to prevent wastage of herring.

AT THE GOVERNMENT HOUSE AT OTTAWA

SATURDAY, the 1st day of November, 1941.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas by Order in Council P.C. 2516 of the 3rd day of September, 1939, the Wartime Prices and Trade Board was constituted and the Wartime Prices and Trade Board Regulations were made and established to provide safeguards under war conditions against any undue enhancement in the prices of food, fuel and other necessities of life, and to ensure an adequate supply and equitable distribution of such commodities;

And whereas by Order in Council P.C. 3998 of the 5th day of December, 1939, the said Regulations were amended and consolidated;

And whereas by amendment of Section 88 (a) of the Special War Revenue Act and by Order in Council P.C. 7373 of the 13th day of December, 1940, the provisions of such Regulations were extended and made to apply to the jurisdiction respectively conferred upon the Board in respect of the War Exchange Tax of 10 per cent on the value for duty of imported goods and in respect of goods specified in Schedules One and Two to the War Exchange Conservation Act, 1940.

And whereas by Order in Council P.C. 6834 of the 28th day of August, 1941, the said Regulations were amended and consolidated, extending the jurisdiction of the Board to goods and services, providing that public control of the prices of goods and services should be exercised by or with the concurrence of the Board, and making provision for co-ordination with the Wartime Industries Control Board and Controllers appointed on the recommendation of the Minister of Munitions and Supply and for co-operation with other governmental departments and agencies;

And whereas by Order in Council P.C. 8527 of the 1st November, 1941, the Maximum Prices Regulations were made and established, to be administered by the Board under powers conferred by the Wartime Prices and Trade Regulations and, in order that the Board may more effectually perform its duties, it is deemed advisable that additional powers be conferred upon it, and that the latter Regulations be strengthened in some respects;

And whereas it is deemed advisable to consolidate the Regulations as amended and, to that end, to rescind such Regulations and to make and establish in substitution therefor the Regulations hereinafter set forth;

Now, therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Finance, and under and by virtue of the powers conferred on the Governor General in Council by the War Measures Act, Chapter 206, Revised Statutes of Canada, 1927 and otherwise, is pleased to order and doth hereby order as follows:

1. The Wartime Prices and Trade Board Regulations made by Order in Council P.C. 6834 of the 28th day of August, 1941, are hereby rescinded.

2. The Regulations hereinafter set forth are hereby made, established and substituted for the Regulations hereby rescinded.

3. The powers of the Wartime Prices and Trade Board and the provisions of the Regulations referred to in Section 88 (a) of the Special War Revenue Act and in Order in Council P.C. 7373 of the 13th day of December, 1940, shall be held and construed to be those contained in the Regulations hereby made and established.

- (x) to require any person to perform such act in respect of any goods or services as is deemed by the Board to be desirable, or to require any person to refrain from performing such act as is deemed by the Board to be undesirable, in

(2) The powers vested in the Board by the next preceding subsection, with the exception of those contained in paragraph (f) thereof, shall not be exercised in respect of any articles, commodities, substances, goods, services or things over which or in respect of which a Controller is given authority, jurisdiction or power, except at the request or with the concurrence of the Chairman of the Wartime Industries Control Board; provided, however, that the fact of such request or concurrence shall not be questioned in any proceedings in any court, and no person shall be bound or entitled to enquire or to ascertain whether any such request or concurrence was made or given.

(3) In the exercise of its powers conferred by these regulations or otherwise, the Board shall be responsible to the Minister and, whenever any directions are given by the Minister, all action taken by the Board shall be in accordance with such directions.

5. (1) The powers vested in the Board by paragraphs (a) and (b) of subsection (1) of Section 4 of these regulations may be exercised by any one member of the Board.

(2) The Board may appoint one or more persons to conduct investigations and every such person shall be vested with such of the powers aforesaid as the Board may confer on him.

(3) Each member of the Board and any other person so authorized by the Board shall have power to administer oaths and receive affidavits and statutory declarations.

6. It shall be the duty of the Board

- (a) to arrange, wherever possible through existing government agencies, for the assembling of required statistical data in relation to any part of any trade or industry regarding prices, costs, stock of goods, volume or production, productive capacities, and related matters;
- (b) to refer to the Commissioner of the Combines Investigation Act any information relating to practices which may be violations of the Combines Investigation Act or of Section 498 of the Criminal Code, if, in the opinion of the Board, such practices impede the operation of these regulations;
- (c) to confer with manufacturers, wholesalers, retailers and suppliers as and when it is considered desirable by the Board with a view to enlisting their co-operation in ensuring reasonable prices, adequate supplies and equitable distribution of goods and services;
- (d) to recommend any additional measures it may deem necessary for the protection of the public with respect to goods or services; and in any case where the Board is satisfied that any kind of goods or services is being sold, offered for sale or supplied at a price that is higher than is reasonable and just, or is being unreasonably withheld from sale or supply or that the manufacture, production, transportation, sale, supply or distribution of such goods or services is being unduly prevented, limited or lessened, the Board may recommend that such goods or services be admitted into Canada free of duty or that the duty thereon be reduced to such amount or rate as will, in the opinion of the Board, give the public the benefit of reasonable competition; or to recommend that such remedial action be taken by way of removal or reduction of duties or taxes on goods or services or by way of the payment of subsidies or otherwise as it may deem desirable in the national interest for the purpose of restraining increases in the cost of living or of offsetting uncontrollable increases in costs provided that no such recommendation shall be made in respect of any articles, commodities, substances, goods, services or things over which or in respect of which a Controller is given authority, jurisdiction or power, except at the request or with the concurrence of the Chairman of the Wartime Industries Control Board.

Maximum Prices

7. (1) Subject to any lower price that may be required by the operation of the provisions of subsection (1) of Section 8 of these regulations, no person shall on or after December 1, 1941, sell or offer to sell any goods or services at a price that is

higher than the maximum price for such goods or services pursuant to these regulations; but nothing in this Section shall be construed so as to prevent any person from selling or offering to sell any goods or services at a price lower than the maximum price.

(2) The highest lawful price at which any person sold any goods or services during the basic period shall be the maximum price at which such person may sell or offer to sell goods or services of the same kind and quality; provided, however, that the provisions of this subsection shall not apply so as to supersede or vary any specific or maximum or minimum price fixed prior to December 1, 1941, by or on behalf of or under authority of the Board, or fixed or approved prior to December 1, 1941, by any other federal, provincial or other authority with the written concurrence of the Board, nor so as to fix any maximum price with respect to

- (a) any sale of goods for export where such export is made by the seller or his agent;
- (b) any sale to the Department of Munitions and Supply or any agency thereof;
- (c) the sale by any person of his personal or household effects;
- (d) isolated sales of goods or services by any person not in the business of selling such goods or services;
- (e) bills of exchange, securities, title deeds and other similar instruments;
- (f) sales of goods by auction in cases where such procedure is the normal practice and is followed in good faith and without any intention of evading or attempting to evade the provisions of these regulations or of any order.

(3) Wherever any maximum price has been fixed for any goods or services by reference to the price at which goods or services of the same kind and quality were sold by a seller during a specified period or on a specified date, such maximum price shall also be the maximum price at which the same seller may sell or offer to sell goods or services of a substantially similar kind and quality not sold by him during such period or on such date; and in any case in which the question arises as to the lawful price for any such goods or services the onus of proving the existence and extent of any relevant and substantial similarity or dissimilarity alleged by the seller shall be upon him.

(4) Wherever a maximum price has been fixed by or under these regulations for any goods or services every seller shall continue to allow any difference in price which he has during the basic period or customarily allowed to different classes of buyers or for different quantities or under different conditions of sale, and which result in a lower net price per unit of goods or services.

(5) No person shall impose any terms or conditions of sale, or alter any terms or conditions of sale imposed or agreed to by such person during the basic period or customarily imposed or agreed to by such person, in such a way as directly or indirectly to increase the maximum price of any goods or services fixed by or under these regulations.

(6) Where a contract to supply any goods or services was entered into prior to the basic period or subsequent to the basic period but prior to December 1, 1941, at a price higher than the maximum price pursuant to these regulations, the price for any goods or services supplied under such contract on or after December 1, 1941, shall be reduced to such maximum price.

(7) For the purposes of any regulation or order if a person operates a branch of his business or otherwise operates more than one place of business, he shall, in respect of each such branch or place of business, be deemed to be a separate seller.

(8) Nothing contained in this Section shall be deemed to supersede any provision of any order or to derogate from any power conferred on the Board, and without restricting the generality of this provision, the Board may vary any maximum price, may concur in any variation of a maximum price, may prescribe other or additional terms or conditions of sale, may exempt any person or any goods or services or any transaction wholly or partly from the provisions of these regulations, and may withdraw any such exemption or any exemption contained in subsection (2) of this Section, either generally or in specific cases and subject to such terms and conditions as the Board may prescribe.

Offences, Penalties and Prosecutions

8. (1) No person shall sell or offer for sale or supply any goods or services at a price that is higher than is reasonable and just, or withhold any goods or services from sale or supply for a price that is higher than is reasonable and just and, in any case where a person engaged in business accused under this provision has not kept such books of account as are necessary to exhibit or explain his transactions, the onus shall be upon such accused person to establish that the price is reasonable and just; provided that if a specific or maximum price has been fixed by the Governor in Council or has been fixed or concurred in by or on behalf of or under authority of the Board for the sale or supply of such goods or services, any price in excess of the price so fixed or concurred in shall be conclusively deemed to be higher than is reasonable and just; and provided further that if a specific or maximum markup has been fixed or concurred in by or on behalf of or under authority of the Board for the sale or supply of such goods or services, any price which includes a markup in excess of the markup so fixed or concurred in shall be conclusively deemed to be higher than is reasonable and just.

(2) No person shall sell or supply or offer for sale or supply any goods or services at a price that is lower than a minimum price which has been fixed or concurred in by or on behalf of or under authority of the Board or at a price that includes a markup less than a minimum markup which has been fixed or concurred in by or on behalf of or under authority of the Board.

(a) acquire, accumulate or withhold from sale any goods beyond an amount which is reasonably required for the ordinary purposes of his business or beyond such amount, if any, as the Board may prescribe; or

(b) acquire or accumulate any goods beyond an amount which is reasonably required for the use or consumption of himself and his household or beyond such amount, if any, as the Board may prescribe;

provided that if any goods are found at any time in the possession or under the control of any person and such person is charged with an offence against this subsection, such goods shall in the absence of evidence to the contrary be deemed to have been acquired or accumulated by him within twelve months prior to the date upon which he is so charged.

(4) No person, without the consent of the Board, shall unduly prevent, limit or lessen the manufacture, production, transportation, sale, supply or distribution of any goods or services.

(5) No person shall in any manner impede or prevent or attempt to impede or prevent any investigation or examination instituted by the Board.

(6) No manufacturer, importer, exporter, producer, wholesaler, jobber, retailer, supplier or other dealer shall sell, supply or offer for sale or supply, or ship, distribute or deal in any goods or services in respect of which a licence or permit is required or granted unless he has a licence or permit from the Board which is in full force and effect.

(7) No person shall, with intent to evade the provisions of these regulations, destroy, mutilate, deface, alter, secrete or remove any books, records, or property of any kind.

(8) No person shall deceive or mislead the Board or any officer of customs or excise or any police officer or any employee or agent of the Board or any other person concerned in the administration of these regulations, with reference to any matter affected by these regulations.

(9) No person shall buy or pay for or offer to buy or pay for any goods or services at a price which he knows or has reason to believe is higher than the maximum price which may lawfully be charged by the seller or supplier of such goods or services pursuant to these regulations, or is lower than the minimum price (if any) which may lawfully be accepted by the seller or supplier, or is different from the specific price (if any) for such goods or services pursuant to these regulations.

(10) No person shall attempt to commit or aid, abet, counsel or procure the commission of any offence under these regulations, or conspire with any other person

by any means whatsoever to commit an offence under these regulations, or enter into any transaction or arrangement designed for the purpose or having the effect of evading any regulation or order.

(11) No person shall make any false statement or misrepresentation to or for the use or information of the Board or of any person concerned in the administration of these regulations.

9. (1) Any person who contravenes or fails to observe any regulation or order shall be guilty of an offence and liable upon summary conviction under Part XV of the Criminal Code or, if the Attorney General of Canada or of any province so directs, upon indictment, to a penalty not exceeding five thousand dollars or to imprisonment for any term not exceeding two years or to both such fine and such imprisonment; and any director or officer of any company or corporation who assents to or acquiesces in any such offence by such company or corporation shall be guilty of such offence personally and cumulatively with the said company or corporation.

(2) In any proceedings upon summary conviction, any charge may include several offences against any regulation or order committed by the same person and any number of charges against such person may be included in one and the same information; and all such charges may be tried concurrently and one conviction for any or all of such offences may be made, which conviction may but need not provide a separate penalty for each such offence.

10. (1) No person shall be prosecuted under these regulations except with the written leave of the Board or of the Attorney General of any province, and such written leave shall be sufficient if it purports to be signed by such Attorney General or on behalf of the Board and if it is in the following form: "Leave is hereby given that proceedings be instituted within three months from the date hereof against. . . for an offence or offences under the Wartime Prices and Trade Regulations."

(2) A prosecution under Part XV of the Criminal Code for any offence under these regulations may be commenced at any time within twelve months from the time of its commission.

11. (1) Where any person is charged with an offence under these regulations, it shall not be necessary for the prosecuting authority to establish that the person so charged did not possess or had not been granted a licence or had not been exempted from the relative provisions of these regulations or had not received the permission of the Board for any act or omission and if the person so charged pleads or alleges that he had or had been granted any such licence or had been so exempted or had received such permission the burden of proof thereof shall be on the person so charged.

(2) For the purposes of the prosecution of a person for an offence under these regulations the offence shall be deemed to have been committed either at the place where it was actually committed or at any place in Canada in which the offender resides or carries on business or is found or apprehended or is in custody.

(3) In any proceedings for an offence under these regulations,

(a) where the price at which any sale of goods or services was made by or on behalf of the accused during any period or on any date is proved on behalf of the prosecution, such price shall, unless and until the accused proves the contrary, be deemed to be the highest lawful price at which goods or services of the same kind and quality were sold by or on behalf of the accused during such period or on such date;

(b) where any goods or services sold or offered for sale by or on behalf of the accused on or after December 1, 1941, are alleged on behalf of the prosecution to be of the same or substantially similar kind and quality as goods or services sold by or on behalf of the accused during any period or on any date, such goods or services shall, unless and until the accused proves the contrary, be deemed to be of the same or substantially similar kind and quality as the said goods or services sold by or on behalf of the accused during the said period or on the said date;

- (f) proof of an invitation for offers to buy shall be proof of an offer to sell.

(4) Where by any regulation or order provision is made for any person to file, forward or deliver any document with or to the Board or an Administrator or any office or officer of the Board, an affidavit of an officer or other employee of the Board, sworn before any commissioner or other person authorized to administer oaths, that he has charge of the appropriate records and that after careful examination and search of such records he has been unable to find in any given case that any such document has been filed with or received by him, shall be received as *prima facie* evidence that in such case no such document was so filed, forwarded or delivered.

EFFECTIVE DATE, DEFINITIONS AND PURPOSES OF ORDER

1. (1) This Order comes into force on September 6, 1943, and as of that date revokes and replaces Administrator's Order No. A-342 respecting rotenone.

(2) Pyrethrum and rotenone are botanical insecticides which are produced principally, if not entirely, outside of Canada. They are important ingredients in the manufacture of pesticides. The supply is scarce and it is proposed, by this Order, to freeze the stocks of both commodities. The release of such stocks is to be controlled by the Administrator of Fertilizers and Pesticides.

(3) "Pyrethrum" is the ground or unground flower of the plant *chrysanthemum cinerariaefolium*. It includes a processed powder consisting wholly or partly of such flowers or containing their active principle. It also includes a fluid containing wholly or partly the extract from such flowers.

(4) "Rotenone" is the active alkaloid present in derris, cube, timbo and other roots and plants. It includes all such roots and plants, ground and unground. It includes a processed powder consisting wholly or partly of such roots or plants or containing their active principle. It includes also a fluid containing wholly or partly the extract from such roots or plants.

(5) This Order deals with pyrethrum and rotenone as raw materials, as herein defined, and prescribes the conditions under which they may be;

(a) processed or used as ingredients of manufactured pesticides, or

(b) bought, sold or otherwise dealt with.

(6) This Order also deals with pyrethrum or rotenone which has been used as an ingredient of manufactured pesticides and imposes certain conditions on sellers and buyers of such pesticides. Unless it is otherwise clearly stated, whenever the words pyrethrum or rotenone are used the primary or raw material, as herein defined, is referred to.

INVENTORIES OF STOCKS TO BE-REPORTED

2. (1) Every person who, on the 6th day of September, 1943, has in his possession or under his control any stock of pyrethrum or rotenone or both such commodities shall, on or before September 15, 1943, report in writing to the Administrator of Fertilizers and Pesticides the inventory of such stock.

(2) Every person who, after the 6th day of September, 1943, imports or otherwise obtains possession or the control of pyrethrum or rotenone or both such commodities and who has not obtained permission in writing of the Administrator therefor shall forthwith thereafter report in writing to the Administrator the inventory of such pyrethrum or rotenone so obtained.

PROHIBITIONS AGAINST DEALING IN PYRETHRUM OR ROTENONE EXCEPT UNDER PERMIT

3. Until otherwise authorized by the Administrator, every person shall maintain the pyrethrum or rotenone, which is in his possession or under his control, intact in the same condition in which it was on September 6, 1943, and pyrethrum or rotenone which

is hereafter acquired shall be maintained, intact in the same condition in which it was when acquired.

4. Except with the written permission of the Administrator, no person shall process in any manner nor use any pyrethrum or rotenone in the manufacture of any commodity.

5. No person shall sell, deliver or dispose of any pyrethrum or rotenone to any person, until:

- (a) he has received from such person a permit in writing issued by the Administrator and in such case the sale or delivery shall be limited to the quantity indicated in such permit, or;
- (b) he has received from the Administrator a direction in writing authorizing or requiring the sale or delivery of a specified quantity to a named person.

6. No person shall purchase or obtain in Canada any pyrethrum or rotenone until he has obtained from the Administrator permission in writing therefor.

AUTHORIZATIONS AND PERMITS

7. Applications for authorizations and permits shall be made to the Administrator. The applicant shall give such information and assurances and shall enter into such undertakings as the Administrator may from time to time require. The authorizations and permits will be issued, in the discretion of the Administrator and subject to such conditions and directions as he may impose.

8. Authority with respect to written permits and authorizations may be exercised by the Director of Pesticides in the name of the Administrator.

RECORDS

9. Every person who deals in, processes, uses, sells or delivers pyrethrum or rotenone, to which this Order applies, shall keep a complete record of his dealings including the quantities used in every such process, use or sale. The record shall, upon request, be made available for inspection by any authorized representative of the Board.

PYRETHRUM AND ROTENONE CONTAINED IN A PROCESSED OR MANUFACTURED PESTICIDE

10. Every person who sells or supplies a processed or manufactured pesticide containing pyrethrum or rotenone or both of these commodities is prohibited from recommending or permitting to be recommended the use of the pesticide for a purpose other than any of those authorized on the label attached to the container of the pesticide.

(Imported Bituminous Coal Distribution)

Dated August 26, 1943

Solid Fuels Administration for War Regulation No. 4 dated August 21, 1943, issued by the Solid Fuels Administrator for War for the United States of America requires producers of bituminous coal

- (a) to supply the full amount of their commitments to purchasers using such coal, or reselling such coal for use, in the manufacture of coke, for smithing purposes, for the manufacture of gas, as a raw material in the manufacture of chemicals, and for foundry, malleable, or metallurgical purposes; and
- (b) thereafter, to supply the full amount of their commitments to ship bituminous coal for lake movement during the balance of the current season of navigation; and
- (c) to distribute the balance of their available coal equitably among other purchasers; and
- (d) to notify by telegram each lake forwarder and each purchaser to whom the producer has commitments concerning
 - (i) the total tonnage of bituminous coal under commitment to be shipped to such lake forwarder or purchaser during the current season of lake navigation (1943), and
 - (ii) the total tonnage of bituminous coal actually shipped to such lake forwarder or purchaser subsequent to April 15, 1943 and prior to the effective date of said Regulation, and
 - (iii) the tonnage of butiminous coal which will be shipped pursuant to the said Regulation to such lake forwarder or purchaser from the effective date of the said Regulation to November 15, 1943;

Therefore, pursuant to the powers conferred by Order in Council P.C. 1752 of March 5, 1943, as amended, and any other enabling Order in Council or Statute, and with the approval of the Minister of Munitions and Supply and the Chairman of the Wartime Industries Control Board;

IT IS HEREBY ORDERED AS FOLLOWS:—

1. *Interpretation*

For the purposes of this Order, unless the context otherwise requires,

- (a) "bituminous coal" means all bituminous and sub-bituminous coal having calorific value in British thermal units of more than seven thousand six hundred per pound and having a natural moisture content in place in the mine of less than 30 per centum;
- (b) "commercial dock" means any lake or river dock used for the distribution of coal for the use of any person other than the owner or operator of such dock;

- (c) "commitment" means any contract, agreement or arrangement with a supplier in the United States of America to furnish a purchaser with a specified quantity of bituminous coal from the United States of America under specified terms and conditions, but shall not be affected by any contractual provision or any condition of the agreement or arrangement providing for reduction in the volume of shipments to be made because of reduction in the volume of coal produced;
- (d) "dock operator" means any person who operates any commercial or other (private) lake or river dock for the distribution of coal;
- (e) "order" means any order, requisition, or other arrangement designed to procure bituminous coal from the United States of America for delivery or use within the Dominion of Canada;
- (f) "person" includes partnership, corporation, company, any governmental body or department and any aggregation of persons;
- (g) "purchaser" means any person who places an order for bituminous coal within the meaning of paragraph (e) of this section.

2. *Purchasers to Notify Coal Controller of Additional Requirements*

(1) Immediately upon the receipt by a purchaser of the telegram referred to in paragraph (d) of the preamble to this Order and in the event that the amount of bituminous coal actually shipped plus the amount of bituminous coal which will be shipped to such purchaser, as stated in the said telegram, is less than his requirements to and including May 15, 1944, or is less than the quantity which he may have been authorized to receive by the Coal Controller, such purchaser shall telegraph the Coal Controller stating

- (a) the extent to which the tonnages, sizes and classes of bituminous coal covered by commitments and which suppliers have advised will be shipped on or before November 15, 1943
 - (i) are less than the sum of such commitments; and
 - (ii) are less than his requirements to and including May 15, 1944, or less than the quantity which he may have been authorized to receive by the Coal Controller; and
- (b) the sources of supply from whom he had anticipated that he would receive bituminous coal (in addition to that which is covered by commitments and which suppliers have advised will be shipped on or before November 15, 1943) including the names of producers, sales agents, lake forwarders or other intermediaries; and
- (c) what efforts he has made to obtain such additional coal.

(2) Any purchaser with any commitments who does not receive by August 31, 1943, telegrams from his suppliers in the United States of America giving the information set out in paragraph (d) of the preamble to this Order shall ask his suppliers for such telegrams and if they are not supplied, shall telegraph the Coal Controller.

3. *Functions of Coal Controller*

On receiving communications in respect to the deficiency in lake commitments and anticipated lake commitments pursuant to Section 2 of this Order, the Coal Controller will forward this information to the Solid Fuels Administrator for War for the United States of America. The Coal Controller in advising the Solid Fuels Administrator will, so far as it is practicable to do so, indicate the sizes and classes of bituminous coal needed for shipment and the persons to whom such bituminous coal is to be shipped.

4. *Preference to be Given to Upper Lakes and Lower St. Lawrence*

Every importer who directs shipments of bituminous coal to more than one dock shall, except when such coal is for use in the manufacture of coke or gas, for smithing purposes, as a raw material in the manufacture of chemicals, or for foundry, malleable or metallurgical purposes, and consistent with mines production, availability of ships, unloading capacity of docks and other factors affecting the orderly movement of coal, give preference to shipments that he is required to make to docks west of, but not including Sarnia, Ontario, and east of, but not including Montreal, P.Q.

5. *Reports From Dock Operators*

(1) Each dock operator shall file with the Coal Controller not later than the 5th day of each of the months of September, October, November and December, 1943, a report in writing with respect to bituminous coal for other than railway use and further reports separately for each railway with respect to bituminous coal for railway use, which reports shall be signed by the dock operator and shall state for each dock separately;

- (a) the location of the dock; and
- (b) the total quantity of bituminous coal to be delivered to the dock during the navigation season to fill requirements to May 15, 1944 or to fill requirements authorized by the Coal Controller; and
- (c) the quantity of bituminous coal received at the dock from April 1, 1943, to the end of the preceding month; and
- (d) the quantity of bituminous coal received at the dock during the preceding month; and
- (e) the balance of bituminous coal needed to complete requirements to May 15, 1944, or to complete requirements authorized by the Coal Controller.

(2) For the purposes of the reports referred to in subsection (1) next preceding and in order to avoid delay in the filing of the said reports the quantity of bituminous coal received at a dock during the last three days of any month may be estimated.

(3) Each dock operator shall obtain from any person using any dock operated by him for the distribution of coal such information as the dock operator may require to enable him to prepare the reports referred to in subsection (1) of this section and each such person shall furnish such information to the dock operator.

(4) In preparing the reports referred to in subsection (1) of this section each dock operator shall use due care to avoid any duplication of figures.

6. *Restrictions on Deliveries from Commercial Docks to Consumers*

(1) Except with a permit in writing from the Coal Controller,

- (a) no consumer shall take delivery from a commercial dock for use in any premises of any more bituminous coal than the quantity, which when added to the quantity on hand on the premises, will last the consumer until May 15, 1944;
- (b) no dock operator of a commercial dock shall deliver to any premises for the use of a consumer any bituminous coal if the dock operator knows or has any reason to believe that the consumer has on hand on the premises sufficient bituminous coal to last him until May 15, 1944.

(2) Applications for permits under this section shall be made by the consumer and shall state,

- (a) the location of the dock from which delivery is required; and
- (b) the name and address of the supplier; and
- (c) the quantity of bituminous coal required for consumption to May 15, 1944; and
- (d) the size and class of bituminous coal required; and
- (e) the quantity of bituminous coal on hand at the date of the application on the premises to which the coal is to be delivered; and
- (f) the reasons why the permit is desired.

7. *All Rail Deliveries of Bituminous Coal to Consumers*

(1) The effect of Solid Fuels Administration for War Regulation No. 4 will be to reduce the amount of bituminous coal available for all rail delivery until November 15, 1943, and each consumer who receives bituminous coal all rail from the United States of America and who has an adequate stock pile of bituminous coal shall use such stock pile for the purpose of making up any deficiency in the shipments of bituminous coal made to him for current consumption.

(2) Except with a permit in writing from the Coal Controller no consumer shall purchase or acquire any bituminous coal from a dock operator for the purpose of making up any deficiency in all rail shipments of bituminous coal made to him for current consumption.

(3) Each applicant for a permit under this section shall file with the Coal Controller a statement in writing signed by him and stating

- (a) the quantity of bituminous coal on hand in stock pile on the premises where the coal is to be used; and
- (b) the average daily consumption of bituminous coal on the premises where the coal is to be used.

8. *Permits*

This Order shall be subject to any permit or order issued by the Coal Controller to meet exceptional circumstances.

PART I
Orders in Council

Air Force Act Amendment Order No. 1

P.C. 6190

AT THE GOVERNMENT HOUSE AT OTTAWA

THURSDAY, the 26th day of August, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas Section 11 of The Royal Canadian Air Force Act, Chapter 15 of the Statutes of Canada, 1940, provides as follows:—

“The provisions of the Air Force Act for the time being in force in the United Kingdom and not inconsistent with this Act or with any regulation, shall have force and effect as if such provisions formed part of this Act, and any powers conferred by the said Act shall be exercisable by the Governor in Council, or by such person as may be specified by regulation.”

And whereas by reason of the expansion of the Royal Canadian Air Force and developments in its organization and conditions of service, certain provisions of the Air Force Act require some modifications, adaptations and exceptions in order to make the same applicable to the particular circumstances of the Royal Canadian Air Force as presently constituted;

And whereas the Minister of National Defence for Air reports that it would make for greater simplicity in administration and be desirable on the grounds of abundant caution if the Governor in Council were to prescribe by an Order under the War Measures Act those modifications, adaptations and exceptions, to the Air Force Act as are necessary to adapt that Act to the particular circumstances of the Royal Canadian Air Force and to order that such Act, as so modified, adapted and excepted, shall apply to the Royal Canadian Air Force;

Therefore His Excellency the Governor General in Council, on the recommendation of the Minister of National Defence for Air, and under and by virtue of the War Measures Act, Chapter 206, Revised Statutes of Canada, 1927, and notwithstanding the provisions of any other Act, law or regulation, is pleased to order and doth hereby order as follows:—

1. This Order may be cited as “The Royal Canadian Air Force (Air Force Act Amendment) Order No. 1, 1943,” and briefly referred to as “Air Force Act Amendment Order No. 1.”

2. The provisions of the Air Force Act in force in the United Kingdom on the 1st day of May, 1943, subject to the specific modifications, adaptations and exceptions set out in the second column of the Table to this Order, as applying to the Sections of the Air Force Act referred to in the first column of the said Table, shall apply to the Royal Canadian Air Force and the persons who, pursuant to Section 6 of The Royal Canadian Air Force Act, are subject to that Act as officers or airmen in the circumstances defined in the said Section; and the provisions of the said Air Force Act as so modified, adapted and excepted, shall, for the purposes of their application under Section 11 of The Royal Canadian Air Force Act, be deemed to be the provisions of the Air Force Act, for the time being in force in the United Kingdom, and not inconsistent with The Royal Canadian Air Force Act or with any regulation.

3. Any Court-Martial, proceeding or thing held, done or commenced under the provisions of the Air Force Act, as the said Act was applicable to the Royal Canadian Air Force and to persons who are subject to The Royal Canadian Air Force

Act as officers or airmen pursuant to Section 6 thereof, prior to the date on which this Order comes into force, shall be as valid and effectual and may be completed and carried into effect as if this Order had not been made.

4. This Order shall come into force and be effective as of and from the thirtieth day of September, 1943.

A. D. P. HEENEY,
Clerk of the Privy Council.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

His Excellency the Governor General in Council, on the recommendation of the Minister of Labour, is pleased to amend the National Selective Service Civilian Regulations (Order in Council P.C. 246, January 19, 1943) and they are hereby further amended by adding the following Section 202A immediately after section 202:—

“202A-(1) (a) Every establishment which has been given an “A” or “B” labour priority rating pursuant to these regulations shall be classified as a “designated establishment”.

(b) The Director may classify any establishment which has not been given an “A” or “B” labour priority rating as a “designated establishment”.

(c) The Director may at any time except any establishment or group or class of establishments from the provisions of this section.

(2) (a) Every employer whose establishment is classified as a “designated establishment” pursuant to this Section shall notify his employees that the establishment is a “designated establishment” by posting a notice on bulletin boards or in such other manner as may be approved by a Selective Service Officer.

(b) A notice posted pursuant to paragraph (a) of this sub-section shall be substantially in a form approved by the Director.

(c) A specimen copy of the form of notice approved by the Director may be obtained on application to a Selective Service Officer.

(3) On application of an employer a Selective Service Officer shall inform the employer whether his establishment is a “designated establishment” pursuant to paragraph (a) of sub-section (1) of this section.

(4) (a) Subject to the provisions of Section 203 of these Regulations, no employer whose establishment has been classified as a “designated establishment” may give notice of separation to an employee pursuant to Section 202 of these Regulations without the permission in writing of a Selective Service Officer.

(b) No employee whose employer's establishment has been classified as a “designated establishment” may give notice of separation to his employer pursuant to Section 202 of these Regulations without the permission in writing of a Selective Service Officer.

(c) Where an employee applies for permission to give notice of separation to his employer in order to take similar employment in the same industry the Selective Service Officer shall, in accordance with directions and instructions issued by the Director, grant such permission unless special circumstances exist.

(d) Application for permission to serve notice of separation shall be made in such form and such manner as the Director may prescribe."

This section shall take effect on a date to be designated by the Director.

A. D. P. HEENEY,
Clerk of the Privy Council.

Order in Council appointing Mr. Justice P. M. Anderson a member and Chairman of Mobilization Board, Division M.

P.C. 6799

AT THE GOVERNMENT HOUSE AT OTTAWA

FRIDAY, the 3rd day of September, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas subsection one of section eight of the National Selective Service Mobilization Regulations (P.C. 10924 of December 1st, 1942, as later amended) provides that "there shall be a Board for each Division which shall be known as the Mobilization Board for the Division and shall consist of such members as the Governor in Council shall appoint";

And whereas subsection two of section eight of the said Regulations provides that "one member of each Board shall be a judge of a superior court or other court of the province in which the larger part of the Division is situated and shall be the Chairman of the Board";

And whereas the Minister of Labour reports that the position of Chairman of the Mobilization Board in Administrative Division "M" is now vacant because of the recent death of Brigadier General the Honourable Mr. Justice J. F. L. Embury;

That the Court of King's Bench for the province of Saskatchewan is the Superior Court of the province of Saskatchewan, which province constitutes the whole of Administrative Division "M"; and

That it is advisable to appoint a further member to the Mobilization Board in Administrative Division "M" and that this member be appointed Chairman of said Mobilization Board;

Therefore His Excellency the Governor General in Council, on the recommendation of the Minister of Labour, is pleased to appoint and doth hereby appoint the Honourable Mr. Justice P. M. Anderson, a judge of the Court of King's Bench for the province of Saskatchewan, residing at the city of Regina, in the said province, a member and Chairman of the Mobilization Board in Administrative Division "M".

A. D. P. HEENEY,
Clerk of the Privy Council.

That these specially processed paper sheets are not being manufactured in Canada at the present time; and

That it would be in the best interests of Canadian industry if the tariff on imports of these specially processed paper sheets were substantially reduced;

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Finance and under the authority of the War Measures Act, Chapter 206, Revised Statutes of Canada, 1927, is pleased to order that imports of specially processed paper sheets for use on duplicating machines be and they are hereby accorded the tariff treatment hereunder indicated, effective July 1, 1943:—

Order in Council *re* eligibility of crews of ships of Canadian registry chartered on a bareboat basis for benefits under P.C. 12/4209, 12th June, 1941, and other Orders in Council

P.C. 163/6991

Certified to be a true copy of a Minute of a Meeting of the Treasury Board, approved by His Excellency the Governor General in Council, on the 4th September, 1943.

The Board had under consideration a memorandum from the Honourable the Minister of Pensions and National Health, concurred in by the Honourable the Minister of Transport, reporting:—

"That, in the interests of the United Nations and to ensure the full use of all shipping space available, many ships of Canadian registry or licence are chartered on a bareboat basis; and

That the members of the crews of such ships are employed by the charterer and may be eligible to receive compensation as provided under the National scheme of the country in which the charterer is resident;

And that, in order to avoid inequalities by reason of variations in the provisions of the various authorities but to retain the rights of Canadian Nationals serving on the aforesaid ships, it is deemed expedient to ensure that the Canadian benefits do not operate beyond reasonable limits.

Now, therefore, the undersigned, with the concurrence of the Minister of Transport, has the honour to recommend that, under and by virtue of the War Measures Act, Chapter 206 of the Revised Statutes of Canada 1927, Your Excellency in Council be pleased to order as follows:—

A ship of Canadian registry or licence which is under bareboat charter to any charterer resident outside Canada shall be deemed to be a ship of non-Canadian registry or licence for the purpose of determining the eligibility of any person to benefit under the provisions of Order in Council of the 12th June, 1941 (P.C. 12/4209), as amended by Order in Council of the 16th July, 1941 (P.C. 87/5204), and under the provisions of Order in Council of the 30th April, 1942 (P.C. 104/3546); but the provisions of this Order shall be without effect upon any award heretofore made under the provisions of any of the said Orders in Council."

The Board concur in the above report and recommendation, and submit the same for favourable consideration.

Clerk of the Privy Council.

Order in Council *re* free medical treatment to certain merchant seamen

P.C. 164/6991

Certified to be a true copy of a Minute of a Meeting of the Treasury Board, approved by His Excellency the Governor General in Council, on the 4th September, 1943.

The Board had under consideration a memorandum from the Honourable the Acting Minister of Pensions and National Health, concurred in by the Honourable the Minister of Transport, reporting:

"That it has been represented to the Department of Pensions and National Health that frequently merchant seamen return to Canada indigent and disabled, and in need of medical care for sickness which arose or disabilities incurred while serving on board merchant ships of the allied nations in waters made dangerous by reason of the existence of war;

That it would further appear that such seamen are not entitled under any existing laws or regulations to the medical care so required;

That in many such cases the seamen concerned could, with immediate and adequate medical care, be restored to health and thereby enabled to resume their former occupations; and

That in any case it is deemed advisable and in the public interest that such seamen be entitled to receive medical care more on a parity with the care now available by law to persons discharged from His Majesty's Canadian armed forces for disabilities which are not pensionable.

Now, therefore, the undersigned has the honour to recommend that Your Excellency in Council, under and by virtue of the War Measures Act, Chapter 206, R.S.C. 1927, and notwithstanding anything to the contrary contained in the Canada Shipping Act or any other Act or regulation, be pleased to make the following Order:

ORDER

1. Free medical treatment and care may be provided by the Department of Pensions and National Health for any sick or disabled seaman not entitled thereto under the provisions of Part V of the Canada Shipping Act, 1934, if such seaman is suffering from sickness or disability with respect to which entitlement to a pension has not been conceded under any existing law, where such sickness arose or disability was incurred on a ship of Canadian registry, or is a seaman of Canadian nationality

serving on a ship of other than Canadian Registry, while the ship was operating in such waters as may be determined by the Minister of Pensions and National Health, on the advice of the Minister of National Defence for Naval Services, to be particularly liable to enemy attack;

Provided, however, that such treatment and care may be given in Canada only, and only if authorized within twelve months from the date of termination of such service and such treatment shall not extend over a period greater than eighteen months from the date of commencement.

2. A certificate issued under the provisions of Part V of the Canada Shipping Act as to the date of the termination of the services of any seaman and as to any other information relating to the seaman and required for the due administration of this Order shall be accepted for the purposes of this Order as sufficient proof of the facts therein stated. If such a certificate is not readily available, then the Minister of Pensions and National Health may accept such other evidence of such facts as to him seems sufficient proof thereof.

3. The cost of providing treatment available to any seaman under the provisions of this Order shall be paid by the Department of Pensions and National Health and shall be chargeable against moneys provided under the War Appropriation Act.

4. In this Order, unless the context otherwise requires, 'seaman' means any person employed on board and belonging to the crew of a merchant ship.

5. This Order shall be deemed to be effective as of and from the 1st day of May, 1943."

The Board concur in the above report and recommendation, and submit the same for favourable consideration.

A. D. P. HEENEY,
Clerk of the Privy Council.

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas by Order in Council of the 29th July, 1943 (P.C. 5226) the Department of Pensions and National Health was authorized to construct, through the Department of Transport, a water supply and distribution system for the Village of Dawson Creek, B.C., subject to certain conditions to be carried out by the Province of British Columbia;

And whereas the Province of British Columbia has expressed unwillingness to carry out the said conditions;

Therefore His Excellency the Governor General in Council, on the recommendation of the Acting Minister of Pensions and National Health, is pleased to revoke Order in Council of the 29th July, 1943 (P.C. 5226) and it is hereby revoked, accordingly.

A. D. P. HEENEY,
Clerk of the Privy Council.

Order in Council re assistance in providing water supply for Dawson Creek, B.C.

P.C. 6993

AT THE GOVERNMENT HOUSE AT OTTAWA

FRIDAY, the 3rd day of September, 1943.

PRESENT

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Acting Minister of Pensions and National Health reports that according to information received by the Department of Pensions and National Health, the civilian population of the Village of Dawson Creek, in the Province of British Columbia, has, during the last several months, increased from approximately 300 to approximately 5,000;

That a large portion of the population of Dawson Creek, aforesaid, is engaged, directly or indirectly, in work of a kind that makes an important contribution to the war effort of the Dominion;

That it has been represented to the Department by the Department of Health of the Province of British Columbia, which representation is concurred in by engineers of the Federal Government, that the said village is without adequate water supply, and that, as a result, there is danger of an epidemic of disease as well as great fire hazard at that place;

That the Department is further informed that the military authorities of the United States are constructing a water-supply system of a capacity of approximately 2,000,000 gallons per day for the use of their railhead camps in the vicinity of Dawson Creek, and that a 12- to 14-inch pipeline, being part of the water-supply system, will, at its nearest point, be about 2 miles from the said village;

That the Department has been in conference with the Department of Health of the Province of British Columbia and with the municipal authorities of Dawson Creek and as a result, the local United States Military authorities were approached with a view to determining, tentatively, whether water could be obtained for Dawson Creek by tapping their pipeline aforesaid;

That the said military authorities having expressed themselves as being able and ready to co-operate in that respect, the Department of Pensions and National Health, through the Secretary of State for External Affairs, has obtained the written consent of the United States Government for the tapping of their water-supply system in order to obtain water therefrom to the extent of not more than 100,000 imperial gallons per day;

That the Departmental plans call for the construction, along and under public roads or along and under other lands provided for that purpose by public authorities, of a main pipeline from a point on the water-supply system of the United States Government nearest to the Village of Dawson Creek, a distance of approximately 2 miles and the construction of a looped or grid system of water-mains providing a water-distribution system covering the present incorporated area of the village and including about 20 fire hydrants, together with 3 water hydrants for domestic use, all of which plans are subject to revision in such details as the location of valves and hydrants as may be required during actual construction; and

That it is deemed advisable for the security, peace, order, and welfare of Canada, by reason of the state of war now existing, that the Department of Pensions and National Health arrange, through the Department of Transport, to construct a water-supply system of the kind aforesaid at and for the said village.

Therefore His Excellency the Governor General in Council, on the recommendation of the Acting Minister of Pensions and National Health and under the authority of the War Measures Act, is pleased to authorize and doth hereby authorize the Department of Pensions and National Health,—

- (a) To enable the provision of a water-supply and distribution system for the Village of Dawson Creek by constructing a main pipeline from said village to the nearest point on a water-supply system about to be put into use by

the Military authorities of the United States in the area, a distance of approximately 2 miles, and by laying distribution mains within the village limits;

- (b) To take advantage of an offer of the United States Government to allow the water-supply system to be tapped at a point nearest to the Village of Dawson Creek and to permit a supply of water therefrom up to but not exceeding 100,000 gallons per day;
- (c) To purchase all necessary material and to pay for all labour in connection with the said water-supply system at a total estimated cost not to exceed \$125,000;
- (d) To obtain from the Province of British Columbia and from the municipal authorities of Dawson Creek any assurance deemed by the Department of Pensions and National Health to be desirable to protect and secure its right and title to any installations in the nature of fixtures provided in connection with the water-supply system and indemnity against claims arising from infringement of rights of private property owners during the carrying out of the construction of the said project for water supply;
- (e) To enter into arrangements binding on the province of British Columbia and the said municipal authorities or either of them
 - (i) Whereby the United States Government may be assured of payment for water supplied by it to the Village of Dawson Creek.
 - (ii) for the purchase at the end of the war or such other date as may be determined, of the said water-supply and distribution system at its depreciated value to be fixed by agreement or arbitration.
 - (iii) for the undertaking by the municipal authorities of the cost of operation, including depreciation, and the cost of maintenance and repairs of the said water-supply and distribution system.
- (f) To engage the services of the Department of Transport for the purpose of carrying out the construction of the said water-supply and distribution system and to pay to that Department, progressively as such construction proceeds or otherwise, any moneys, certified by that Department to be required for such purpose.

His Excellency in Council is further pleased, hereby, to direct that all moneys required and payable for the construction of the water-supply and distribution system aforesaid be charged, subject to approval by the Treasury Board of the estimate of cost in the amount of \$125,000 and allotment of funds in conformity with the terms of Order in Council P.C. 6695 of November 19th, 1940, to moneys appropriated by Parliament under the War Appropriation Act.

A. D. P. HEENEY,
Clerk of the Privy Council.

3. The word "sell" where used in this Order shall include an offer to sell.

What this Order does not cover

4. This Order does not fix the price at which grapes may be sold to a winery.

PART I—GRAPES GROWN IN CANADA

What this Part covers

5. This Part applies to sales of grapes grown in Canada. Such grapes are hereinafter called "domestic grapes".

Meaning of certain words

6. For the purposes of this Order

- (a) "licensed shipper" means any person licensed under the provisions of the Fruits, Vegetables and Honey Act to buy and sell fruit who takes delivery from a grower at his farm or other country shipping point in or near the area where the grapes are grown; the expression "wholesaler's agent" shall have a corresponding meaning;
- (b) "trucker" means a person who buys grapes from a grower, taking delivery at the grower's farm or shipping point and who sells and distributes them from his truck;
- (c) "wholesale distributor" means any person other than a grower, licensed shipper, wholesaler's agent or trucker, who sells grapes at wholesale, and a "sale at wholesale" is any sale other than a sale at retail or to a consumer.

Sales by growers to persons other than consumers

7. (1) The maximum price, f.o.b. grower's farm or country shipping point at which a grower may sell domestic grapes of a variety named in the Schedule hereto to a licensed shipper, wholesaler's agent, wholesale distributor, trucker or to a retailer who operates a central warehouse separate from his retail outlet or outlets, and takes delivery at such warehouse shall be the price stated for that variety in clause (a) of paragraph 3 of the Schedule according to the province in which the grapes are grown.

(2) The maximum price at which a grower may sell domestic grapes of a variety named in the Schedule hereto to a retailer other than a retailer referred to in subsection (1) of this Section shall be the price stated for that variety in clause (b) of paragraph 3 of the Schedule according to the province in which the grapes are grown.

Sales by licensed shippers, wholesalers' agents and truckers to wholesale distributors and retailers.

8. The maximum price at which a licensed shipper, wholesaler's agent or trucker may sell domestic grapes of a variety named in the Schedule hereto

- (a) to a wholesale distributor or to a retailer who operates a central warehouse separate from his retail outlet or outlets and takes delivery at such warehouse, shall be the price stated for that variety in clause (a) of paragraph 4 of the Schedule according to the province in which the grapes are grown;
- (b) to a retailer other than a retailer referred to in clause (a) of this section, shall be the price stated for that variety in clause (b) of said paragraph 4 according to the province in which the grapes are grown.

9. All maximum prices fixed by Sections 7 and 8 are f.o.b. seller's farm or country shipping point. However, when the sale is to a buyer whose place of business is in a city, town or village the nearest limits of which are not more than fifteen road miles from the seller's country shipping point he shall deliver free to that place of business.

Sales by licensed shippers, wholesalers' agents and truckers to licensed shippers, wholesalers' agents and truckers.

10. The maximum price at which a licensed shipper, wholesalers' agent or trucker may sell domestic grapes of a variety named in the Schedule hereto, to a licensed shipper, wholesaler's agent or a trucker shall be the maximum price fixed by this Order for sales by him of that variety of domestic grapes to a wholesale distributor.

Sales by growers or truckers to consumers

11. (1) The maximum price at which a grower or trucker may sell domestic grapes of a variety named in the Schedule hereto to a consumer shall be the price stated for that variety in paragraph 5 of the Schedule according to the province in which the grapes are grown.

(2) All maximum prices fixed by this section are f.o.b. seller's farm or country shipping point, and the grower or trucker may add to his price an amount to cover transportation not exceeding the less-than-carload freight rate from his farm or country shipping point to the city, town or village in which delivery is made by him to the buyer. However, if a grower or trucker sells to a consumer through the medium of a public market, or of hawking or such like delivery shall be free to a consumer in a city, town or village the nearest limits of which are not more than fifteen road miles from the seller's farm or country shipping point.

Sales by wholesale distributors and retailers.

12. (1) The maximum price at which a wholesale distributor or retailer may sell domestic grapes shall in each case be the sum total of the actual price paid by him for the grapes, the actual transportation charges paid by him for the transportation of the grapes from his supplier's shipping point to his place of business and a markup (percentage of cost) not exceeding the markup (percentage of cost) customarily obtained by him on sales of grapes of the same type and variety during the basic period September 15 to October 11, 1941, both inclusive, but not in any event exceeding,

- (a) twelve and one-half per centum (12½%) of his selling price if he is a wholesale distributor;
- (b) thirty per centum (30%) of his selling price if he is a retailer who operates a central warehouse separate from his retail outlet or outlets and takes and makes delivery at and from such warehouse;
- (c) twenty-five per centum (25%) of his selling price if he is a retailer other than a retailer referred to in clause (b) of this Section.

(2) The said actual purchase price shall not exceed the highest lawful price at which the grapes may be sold by the person who actually supplies the same.

On and after September 20, 1943, the said actual transportation charges that a wholesale distributor or a retailer referred to in clause (b) of subsection 1 may include in his selling price of grapes must not exceed the car-lot freight rate for the same. However, an amount actually paid by the buyer for pre-cooling or refrigeration, or both, of grapes during transit may be included in such selling price. Transportation charges shall not be included by a wholesale distributor or a retailer in his price of grapes which he sells from a place of business located in a city, town or village the nearest limits of which are not more than fifteen road miles from his supplier's farm or country shipping point.

Combined markups of wholesale distributors.

13. Where sales of grapes are made between wholesale distributors the total amount of the markups of all the wholesale distributors must not exceed the amount of the markup which the first wholesale distributor could have included as part of his selling price on a sale to a person other than a wholesale distributor. Every wholesale distributor when selling to another wholesale distributor shall deliver to the buyer before or at the time he makes delivery of the grapes an invoice stating the total combined markup and the amount thereof available to the buyer.

Sales on consignment.

14. Domestic grapes received by a person for sale on consignment shall not be sold by him at a price that is higher than the price at which he may lawfully sell domestic grapes which he buys for sale.

Containers—sizes, weights and prices.

15. (1) The "standard container" for domestic grapes is specified as the 6-quart basket, either flat packed or open packed. A flat packed container must have a flat top cover. A standard container, flat packed, must contain at least seven pounds of grapes and, open packed, must contain at least eight pounds of grapes. Any other container in which domestic grapes are packed for sale is specified as a "non-standard container".

(2) All prices of domestic grapes fixed by or quoted in this Order or its Schedule are based on the standard container, including the container itself. No separate charge may be made for any container. Accordingly, the maximum price per pound at which

domestic grapes may be sold in a standard container is fixed according to the weight of grapes in the container divided into the maximum price at which grapes in the standard container may be sold.

(3) The maximum price at which domestic grapes may be sold when packed in a non-standard container is fixed at the price produced by multiplying the weight in pounds of grapes in the container by the price per pound fixed by subsection 2 of this Section.

PART II—IMPORTED GRAPES

Application of This Part

16. This Part applies to all sales of imported grapes of the Labrusca type. It also applies to sales of imported grapes of the vinifera type shipped on and after August 19, 1943, from the original shipping point in the country from which they are imported.

What Delivery Cost Includes

17. The "delivered cost" of grapes which are imported into Canada (hereinafter called "imported grapes") includes only the actual price paid for those grapes, plus such transportation charges, bank and foreign exchange, customs brokerage charges, excise tax and insurance charges as are to be borne by the buyer and not included in such actual price.

Sales by Wholesale Distributors of Imported Grapes of the Vinifera Type

18. The maximum price f.o.b. his warehouse at which a wholesale distributor may sell imported grapes of the Vinifera type shall be the sum total of his delivered cost of those grapes and a markup (percentage of cost) not exceeding the markup (percentage of cost) customarily obtained by him on sales of grapes of the same type and variety during the said basic period, but not in any event exceeding fifteen per centum (15%) of his selling price of those grapes. The actual price which a wholesale distributor includes in his delivered cost shall not be more than the maximum price at which the supplier in the country from which such grapes are imported into Canada may sell the same in that country. The transportation charges included in his delivered cost must not exceed the carload lot freight rate.

Sales by Wholesale Distributors of Imported Grapes of Labrusca Type.

19. The maximum price f.o.b. his warehouse at which a wholesale distributor may sell imported grapes of the Labrusca type shall be the maximum price fixed by this Order for sales by him of that variety of domestic grapes.

Sales by Retailers of Imported Grapes of the Labrusca Type

21. The maximum price per pound at which a retailer may sell imported grapes of the Labrusca type shall be the maximum price fixed by this Order for sales by him of that variety of domestic grapes.

However, if such person keeps the copy of the invoice he receives from his supplier of the grapes he need not keep any other record of the particulars of sale shown on the invoice.

Inspection of Records and Invoices

24. Every invoice and record which a seller of grapes is required by this Order to make and keep shall be kept available for inspection by any authorized representative of the Board at any time within twelve months after the date of the transaction to which it relates.

The Canadian Mutual Aid Board Regulations

P.C. 6439

AT THE GOVERNMENT HOUSE AT OTTAWA

THURSDAY, the 19th day of August, 1943.

PRESENT :

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL :

Whereas the War Appropriation (United Nations Mutual Aid) Act, 1943, by Section 6 provides that the Governor in Council, may, on the recommendation of the Canadian Mutual Aid Board, make regulations for the purpose of carrying out the objects of the Act according to its true intent and purpose;

And whereas the Minister of Munitions and Supply, Chairman, Canadian Mutual Aid Board reports that at its meeting on the 27th day of July, 1943, the Board approved Regulations one to fifteen set out hereunder.

Now, therefore, His Excellency the Governor General in Council, on the recommendation of the Canadian Mutual Aid Board and under the authority above cited, is pleased to make the following Regulations and they are hereby made and established accordingly:—

Regulations of the Canadian Mutual Aid Board—Part I—Procedure

1. The Board shall meet at such times as it may determine but shall hold at least one meeting each month. Three members of the Board shall constitute a quorum. In the absence of the Chairman from any meeting, the members present shall appoint one of their number to preside at such meeting. Recommendations approved in writing by a majority of the members of the Board shall have the same effect as decisions reached at regular meetings of the Board.

2. The Secretary shall prepare and circulate to the members of the Board in advance, the provisional agenda of each meeting, together with such supporting documents or memoranda as may be required. To make possible the preparation of the agenda:—

- (a) members of the Board should advise the Secretary by noon of the week-day preceding any meeting of the Board of subjects that they wish to have included on the agenda;
- (b) a member of the Board wishing to have a matter placed on the agenda should send to the Secretary for circulation to other members copies of a brief explanatory statement or memorandum with any relevant papers or communications for the consideration of the Board.

3. When items in the agenda of any meeting directly concern departments or agencies not represented on the Board, the Secretary with the Chairman's approval, may invite the attendance of the Ministers concerned or their representatives, for the consideration of such items.

4. The Director of Administration shall make progress reports to the Board at reasonable intervals.

5. The Secretary shall provide certified copies of extracts from the Minutes to departments or agencies requiring the same for official business in connection therewith.

6. Government departments or agencies entering into or arranging contracts on behalf of any United Nation, other than Canada and the United States of America, for the provision of war supplies (as defined in the Act), shall inform the Board through its Director of Administration of the amount and nature of the supplies to be provided, the terms of payment and the United Nation to which they are to be provided.

7. The approval of the Governor in Council of actions or decisions by the Board shall be sought where required, by submission over the signature of the Chairman, or, in his absence, a member of the Board.

8. (a) The Director of Administration, on behalf of the Board, shall examine requests for the provision of supplies under the Act and shall be responsible for instituting the necessary inquiries to determine that the supplies are essential to the country requesting them. He shall also be responsible for seeing that requests for the provision of supplies are cleared with the appropriate authorities in the United States and the United Kingdom, in order to avoid duplication in the purchase of supplies and to obtain relevant information regarding the essentiality of the items and quantities of supplies requested. In the performance of these functions he shall when desirable and convenient employ the facilities of the Department of External Affairs for communicating with other Governments and in undertaking negotiations in Washington he shall consult with the heads of the appropriate Canadian Missions and Agencies in Washington.

(b) The Director of Administration shall also ascertain from the various government departments and agencies concerned, whether or not the supplies for which application is made by an United Nation authorized to receive supplies under the Act can be furnished in the quantities and within the time required.

In particular, but without limiting the generality of the foregoing, the following departments and agencies shall be consulted:—

- (1) with respect to munitions of all kinds and raw materials thereof, as to availability, the Department of Munitions and Supply, and as to strategic considerations and the requirements of the Canadian forces, the Department of National Defence, the Department of National Defence for Naval Services and the Department of National Defence for Air;
- (2) with respect to foodstuffs, the Department of Agriculture, the Department of Trade and Commerce, the Department of Fisheries, the Wartime Prices and Trade Board, and the Food Requirements Committee;
- (3) with respect to other supplies, the Department of Trade and Commerce, the Wartime Prices and Trade Board, and such other department or agency as may be directly concerned;
- (4) with respect to financial considerations and arrangements, the Department of Finance;
- (5) with respect to external policy and methods of negotiation with other Governments, the Department of External Affairs.

9. The initial request for war supplies under the Mutual Aid Act on behalf of any United Nation shall be addressed by the Government or authority concerned to the Secretary of State for External Affairs.

10. The Board may authorize payment for war supplies to be procured and transferred under the authority of the Act and in accordance with these regulations, out of the funds appropriated by the Act and allotted from time to time by Treasury Board for disposition by the Board.

Part II—Methods and Conditions of Transfer

11. In making available war supplies to any of the United Nations other than Canada under the authority of the Act, the Board shall in general transfer war

supplies to the United Nation receiving them, without restriction or reserve unless otherwise expressly provided in an agreement with that United Nation, referred to in paragraph 14 below, and with the following exceptions:—

- (a) Title to ships shall remain with the Canadian government or some agency thereof and the ships shall be chartered on a bare boat basis to the United Nation to which possession is being transferred for war purposes. The terms of such ship charter shall be approved by the Board.
- (b) The Board may reserve the right to have aircraft returned to Canada in exchange for aircraft supplied under the Act, with an appropriate allowance for wastage to be agreed with the competent authority of the United Nation concerned.
- (c) The Board may reserve the right to require that automotive equipment supplied to an United Nation under the Act shall when not required by the said United Nation for military operations be made available to another United Nation or to an International organization, for relief and rehabilitation purposes, provided that the amount to be made available for the other United Nation shall not be greater than the amount made available under the Act less an appropriate allowance for wastage to be agreed with the competent authority of the United Nation to which the equipment was originally supplied.
- (d) The Board may reserve the right to request the transfer to Canadian forces serving abroad after the cessation of active hostilities of vessels, aircraft, ordnance or military equipment supplied under the Act to an United Nation with an appropriate allowance for wastage to be agreed with the competent authority of the United Nation concerned.
- (e) Upon the cessation of hostilities in any major theatre of war, any war supplies which have already been transferred to a United Nation under the Act and which are still in Canada shall revert to Canadian ownership, except those supplies destined for a theatre of war in which hostilities have not ceased or supplies made available for relief purposes or such other supplies as the Board may specify. The Board shall also reserve the right to re-acquire supplies which are in ocean transit to a theatre of war in which hostilities have ceased.

12. War supplies transferred to a United Nation under the authority of the Act shall not be sold by the recipient government to another government or to persons in other countries except in special circumstances and with the consent of the Board.

13. An agreement shall, except in particular cases where the Board shall otherwise determine, be entered into with each United Nation to which war supplies are to be transferred under the authority of the Act, defining the terms and conditions under which such war supplies are to be supplied or made available. Such agreements shall be consistent with these regulations and shall contain such other stipulations as the Board shall consider necessary and desirable in each case.

14. In those cases where the Board finds it is practicable and desirable it shall arrange for Canada to receive reciprocal aid in the form of services or supplies from a country receiving war supplies under the Act. Such arrangements shall be subject to the approval of the Governor in Council.

15. The Canadian origin of war supplies transferred under the authority of the Act shall, wherever practicable, be indicated by suitable markings either on the supplies themselves or on the shipping containers in cases where it is not feasible to mark the goods themselves.

Order in Council providing for retention in present employment of Coal Delivery Men.

P.C. 6632

AT THE GOVERNMENT HOUSE AT OTTAWA

TUESDAY, the 7th day of September, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Minister of Labour reports that as a measure to provide for the retail delivery of needed coal supplies for the coming winter it is deemed necessary to retain in their present employment persons engaged or employed in the actual delivery of coal, and that for this purpose and additional to such other measures as may be taken to this end, it is considered necessary to provide for temporary postponement from military training of persons so engaged or employed, and to restrict the voluntary enlistment of such persons in the Armed Forces of Canada;

Now, therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Labour and under the authority of the War Measures Act and the National Resources Mobilization Act, 1940, is pleased to make the following Order and it is hereby made and established accordingly:—

ORDER

1. (a) Unless the context otherwise requires, expressions contained in this Order shall have the same meaning as in the National Selective Service Mobilization Regulations, and definitions contained in the National Selective Service Mobilization Regulations shall apply in this Order.
- (b) "Coal delivery-man" means a person who as his sole or principal occupation is engaged or employed in physically handling coal in any incorporated city in Canada having a population of 50,000 persons or over and has been continuously so engaged since June 1, 1943, but shall not include any person employed in a clerical or office capacity.
2. A Mobilization Board, upon the application of a coal delivery-man, or upon the application of the employer of any such person, shall grant to such coal delivery-man a postponement order until February 1, 1944, and no "Order-Military Training" to report before February 1, 1944, shall be sent to any such coal delivery-man unless a National Selective Service Officer has given his consent in writing to the sending of such notice.
3. If an "Order-Military Training" is sent contrary to this Order it shall be null and void if the person to whom it is sent delivers it to his employer, and the employer returns the notice to the Registrar by whom it was sent.
4. No coal delivery-man shall be accepted prior to February 1, 1944, for enlistment in any branch of the Armed Forces of Canada unless such person has first obtained a permit to enlist furnished by a National Selective Officer.

A. D. P. HEENEY,
Clerk of the Privy Council.

P.C. 6990

AT THE GOVERNMENT HOUSE AT OTTAWA

TUESDAY, the 7th day of September, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

His Excellency the Governor General in Council, on the recommendation of the Minister of Labour and under the authority of The War Measures Act and The National Resources Mobilization Act, 1940, is pleased to amend The National Selective Service Mobilization Regulations, P.C. 10924, dated December 1, 1942, and they are hereby further amended as follows:

1. Paragraph (e) of subsection two of section three is revoked and the following substituted therefor:—

“(e) A member of His Majesty’s Naval, Military or Air Forces on Active Service or a cadet or other student entered at one of His Majesty’s Naval, Military or Air Force Colleges in Canada except as otherwise provided in section six B”.

2. (a) The following subsection is inserted immediately after subsection two of section six:—

“(2a) With the authority of the Minister, Registrars may, under subsection two of this section, select nationals of a country specified by the Minister when they have, immediately preceding their selection, been in Canada, except for temporary absences, throughout a period specified by the Minister which is less than a year”.

(b) Subsection four of the said section six is revoked and the following substituted therefor:—

“(4) The Registrar shall serve each man so selected, or cause him to be served, either personally or by registered post, with an order, in prescribed form, requiring him to submit himself for medical examination on the day, or within the time specified therein, to the examining physician specified therein, or one of the examining physicians specified therein, and any man upon whom an ‘Order—Medical Examination’ is served shall comply therewith and shall attend at such times and places as the examining physician to whom he submits himself pursuant thereto may require for the purpose of the medical examination.”

“(4a) If an ‘Order—Medical Examination’ specifies more than one examining physician, the man upon whom it is served shall submit himself, or attempt to submit himself, for medical examination, from time to time, within the time specified in such order, until he has been medically examined by one of such examining physicians pursuant to these regulations.”

“(4b) After a man has been medically examined pursuant to these regulations, if he is, in the opinion of the Registrar, fit for military training or can, by remedial treatment, be made fit for military training and no postponement order has been granted to him, the Registrar shall serve him or cause him to be served, either personally or by registered post, with an order, in prescribed form, requiring him to report at a military training centre or district depot, at a time and place indicated therein, to be dealt with in accordance with the orders and regulations of/or relating to the Department of National Defence, and any man to whom an ‘Order—Military Training’ is sent under this subsection shall comply therewith and shall submit to the medical examination for which provision is made in the Reserve Army (Special) Regulations, 1941”.

3. The following section is inserted immediately after section six A thereof:

"6B. (1) When a Registrar receives a notice in prescribed form from a representative of the Department of National Defence that a designated man has ceased or will soon cease to be a member of His Majesty's Canadian Naval or Air Forces on Active Service and is considered fit for military training, the Registrar may, whether the man resides in the Registrar's division or not, serve him or cause him to be served, either personally or by registered post, with an order, in prescribed form, requiring him to report at a military training centre or district depot, at a time and place indicated therein, to be dealt with in accordance with the orders and regulations of/or relating to the Department of National Defence, and any man to whom an 'Order—Military Training' is sent under this subsection shall comply therewith and shall submit to the medical examination for which provision is made in the Reserve Army (Special) Regulations, 1941.

(2) Where an 'Order—Military Training' has been served pursuant to this section, the provisions of these regulations shall apply *mutatis mutandis* as if it had been served pursuant to section six".

4. (a) Subsection one of section seven is revoked and the following substituted therefor:—

"(1) The Minister may appoint any qualified medical practitioner, who is in good standing in or outside Canada as an examining physician to examine men pursuant to these regulations."

(b) Subsections three, four, five, six and seven of section seven are revoked and the following substituted therefor:—

"(3) The Registrar may serve a man who has been selected under section six with an 'Order—Medical Examination' pursuant to section six notwithstanding that he has been previously served with one or more such orders."

"(4) Upon receipt of an 'Order—Medical Examination' the man shall immediately notify his employer of the receipt of such order."

"(5) No examining physician shall examine a man until he presents an 'Order—Medical Examination' issued by a Registrar."

"(6) Every man reporting for medical examination pursuant to these regulations shall leave his 'Order—Medical Examination' with the examining physician by whom he has been examined pursuant to these regulations who shall forward it to the Registrar attached to the original completed form prescribed by the Minister after having carried out the examination in accordance with the instructions contained in the Department of National Defence publication known as 'Physical Standards and Instructions for the Medical Examination of Recruits' and having placed the man in one of the categories mentioned in 'Physical Standards and Instructions for the Medical Examination of Recruits'."

"(7) If a man is not, in the opinion of the Registrar, fit for military service and cannot be made fit therefor by remedial treatment, the Registrar shall issue to him a certificate to the effect that he has been medically examined under these regulations and that, because of his physical condition, he is not, for the time being, required to report for military training; and the holder of any such certificate shall retain the same in his possession and shall deliver it to the Registrar for cancellation when the Registrar so requires by notice in writing."

"(8) Where a man is ordered to report to the nearest examining physician pursuant to an 'Order—Medical Examination' served under these regulations, he shall so report at his own cost."

"(9) Notwithstanding anything contained in subsection eight of this section, where a man has reported pursuant to an 'Order—Medical Examination' served under these regulations and due to circumstances the man has incurred extraordinary travelling and/or transportation expenses, the Director of National Selective Service may approve for payment any account covering these expenses provided such expenses are supported by properly receipted vouchers, and such expenses, when approved as aforesaid, shall be charged to the War Appropriation."

"(10) Where a man, in the opinion of the Registrar, is unfit for military training, or cannot be made fit therefor by remedial treatment, notwithstanding anything contained in these regulations the Registrar may postpone the duty of complying on the part of the man with any or all of the requirements of these regulations pertaining in any way to men reporting for medical examination, where the Registrar is satisfied that the man,

- (i) has been discharged from His Majesty's Naval, Military or Air Forces on active service; or
- (ii) has been rejected upon application to enlist for service in the Canadian Army (Active); or
- (iii) has established his medical category to the satisfaction of the Registrar by means of an Army Medical Board examination."

5. (a) Subsection one of section ten is revoked and the following substituted therefor:—

"(1) A man upon whom an 'Order—Medical Examination' has been served under these regulations may apply to a Board for a postponement order by filing an application for such order in writing with the Registrar who issued the 'Order—Medical Examination' either within fourteen clear days from the date appearing on the order, or, with the consent of the Board, at some subsequent time."

(b) Subsection twelve of the said section ten is revoked and the following substituted therefor:—

"(12) Any employer may support an application for a postponement order made by any of his employees on any ground set out in these regulations and a dependent of a man who applies for a postponement order on the ground that his reporting for military training will cause extreme hardship to such dependent, may support such application; and in any such case the employer or the dependent shall support the application by making representations to the Board in writing and filing such representations in the office of the Registrar within fourteen clear days from the date appearing upon the applicant's 'Order—Medical Examination' or, with the consent of the Board, at some subsequent time."

6. (a) Subsection one of section fifteen is repealed and the following substituted therefor:—

"(1) The Minister shall administer and enforce these regulations and may at pleasure remove and replace a member of a Board, a Registrar, an examining physician or other officer or employee, and may take or authorize to be taken any action whatsoever which a Registrar may take under these regulations, and any action so taken or authorized to be taken by the Minister shall be deemed to have been taken by the Registrar".

(b) Subsection three of the said section fifteen is revoked and the following substituted therefor:—

"(3) The Minister may

- (a) establish such office or offices as are required for the administration and enforcement of these regulations and provide therefor the necessary accommodation, stationery, equipment, and telephones;
- (b) appoint such officers, clerks and other employees as he may deem necessary for the administration and enforcement of these regulations and fix their remuneration;

- (d) incur all expenses reasonably necessary for the proper administration and enforcement of these regulations."

7. Section thirty-four is revoked and the following substituted therefor:—

"34. Every person is guilty of an indictable offence and liable to a fine of not less than one hundred dollars and not exceeding five thousand dollars, or to imprisonment for a term not less than six months and not exceeding five years

or to both such fine and such imprisonment and in default of payment of such fine to imprisonment for a further term not exceeding six months who corruptly

- (a) makes any offer, proposal, gift, loan or promise or gives or offers any compensation or consideration, directly or indirectly, to a member of any Board, an examining or other physician, or an officer or person concerned in the administration of these regulations or having any duties to perform thereunder in connection with any application for a postponement order made or to be made or any medical examination with a view to obtaining for himself or any other person a postponement order or being placed in a medical category other than that warranted by his physical condition or that of such other person or obtaining a certificate of physical or medical unfitness for himself or any other person, or
- (b) being a member of any Board, an examining physician, or an officer or person concerned in the administration of these regulations or having any duties to perform thereunder, accepts or agrees to accept or allows to be accepted by any person under his control or for his benefit, directly or indirectly, any such offer, proposal, gift, loan, promise, compensation or consideration."

8. Section thirty-five is revoked and the following substituted therefor:—

Order in Council prohibiting export of Pike, Wood Fuel and certain Milk Products, except under licence

P.C. 7116

AT THE GOVERNMENT HOUSE AT OTTAWA

THE GOVERNOR GENERAL IN COUNCIL:

Whereas by Order in Council of October 4, 1941, P.C. 7674, the exportation from Canada of certain articles is prohibited, except under permit issued by or on behalf of the Minister of Trade and Commerce;

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Trade and Commerce and under and by virtue of the power conferred by Section 290 of the Customs Act (Section 10, Chapter 24 of the Statutes of 1937) and by the War Measures Act (Chapter 206 Revised Statutes of Canada, 1927) is pleased to order as follows:—

A. D. P. HEENEY,
Clerk of the Privy Council.

**Order in Council amending P.C. 2709, 2nd April, 1943—
subsidizing Milk Production**

P.C. 7142

Certified to be a true copy of a Minute of a Meeting of the Committee of the Privy Council, approved by His Excellency the Governor General on the 9th September, 1943, as amended by P.C. 7255, 16th September, 1943.

The Committee of the Privy Council have had before them a report dated September 2nd, 1943, from the Minister of Agriculture, representing,—

That Order in Council P.C. 2709, of the 2nd April, 1943, approved of the setting up of a program for the production of butter, fluid milk, and whole milk for concentration purposes for the production season commencing May 1, 1943, and gave authority to implement certain recommendations of the Agricultural Food Board, and concurred in by the Foods Administration of the Wartime Prices and Trade Board, as follows:—

1. That minimum prices be established for First Grade Creamery Butter, in accordance with the schedule attached thereto;

2. That a Government subsidy of 8 cents per pound be paid to producers for butterfat used in the manufacture of creamery butter during the months May, 1943, to December, 1943, both inclusive, and a subsidy of 10 cents per pound butterfat for the months January, 1944, to April, 1944, both inclusive;

3. That the Dairy Products Board be authorized to support the butter market as may be necessary to maintain the minimum prices shown in the schedule, by purchasing butter on a basis of the minimum prices specified in the schedule for butter delivered Vancouver, Toronto, or Montreal, during the month purchased;

4. That a Government subsidy of 25 cents per hundred pounds be paid on such milk used for fluid milk consumption as the Agricultural Food Board may with the concurrence of the Wartime Prices and Trade Board determine after consultation with Provincial Milk Boards or Commissions;

5. That a Government subsidy of 25 cents per hundred pounds of milk used for concentration purposes into whole milk products be paid during the period from October 1, 1943 to April 30, 1944.

That representations have been made by representatives of producer organizations and officers of the Provincial Milk Control Boards to the effect that, due on the one hand to increasing demand to meet military and civilian requirements in Canada and export commitments to the United Kingdom, and on the other hand to increased labour costs and to the necessity of larger purchases of feeds in Eastern Canada because of extremely poor grain yields, the supply of milk during the coming winter for use as fluid milk and for processing into cheese and concentrated milk products will be insufficient to meet requirements;

That the Agricultural Food Board have carefully examined the whole position respecting milk production prospects for the period of October 1, 1943, to April 30, 1944, and report that the consumption of fluid milk is at present much larger than in pre-war years and is consistently increasing; that the production of cheese this year has not attained the desired level and shipments to the United Kingdom may be short of the present contract by as much as twenty-five million pounds, and it is expected that cheese production will largely cease at the end of the pasture season unless a production subsidy is provided; and that there has been a great expansion in the consumption of concentrated milk products, particularly for use in camps and training centres of the Armed Forces;

That, in view of advancing costs of farm labour and the increasing difficulty of securing such labour, and in view of the special conditions which obtain in Eastern Canada, where much more than usual quantities of feed grains will have to be purchased, thus requiring cash outlays for feed on an unprecedented scale, the Agricultural Food Board deem it desirable and expedient to provide added incentives, during the period mentioned above, for those engaged in the production of those dairy products likely to be in short supply and which are urgently needed, and to make provision for some form of direction in the utilization of milk among the various dairy products.

The Minister, therefore, on the advice of the Agricultural Food Board, recommends that Order in Council P.C. 2709 of 2nd April, 1943, be amended as follows:

1. By replacing Clause 4 of P.C. 2709 with the following: "That a Government subsidy of 55 cents per hundred pounds be paid, during the period from October 1, 1943, to April 30, 1944, on such milk sold by producer distributors and on such milk purchased by distributors for fluid milk consumption, as the Agricultural Food Board may direct, provided that in areas where the subsidy of 25 cents per hundred pounds authorized by P.C. 2709 is considered by the Agricultural Food Board to be adequate, the subsidy should be limited to that amount."

2. By replacing Clause 5 of P.C. 2709 with the following: "That a Government subsidy of 30 cents per hundred pounds be paid, during the period October 1, 1943, to April 30, 1944, on such milk used for concentration purposes as the Agricultural Food Board may direct."

3. By adding to P.C. 2709 the following: "That a Government subsidy of 30 cents per hundred pounds be paid, during the period October 1, 1943 to April 30, 1944, on milk used in the manufacture of cheddar cheese."

4. And by further adding to P.C. 2709 the following: "That the utilization of milk within the dairy industry be stabilized by requiring distributors or manufacturers to obtain permission from the Agricultural Food Board before purchasing milk or cream from producers other than those producers selling to said distributors or manufacturers on the 9th day of September, 1943."

The Minister further recommends that the expenditure of Fifteen Million Dollars for these purposes, be authorized; chargeable to moneys allotted to the Agricultural Food Board from the War Appropriation.

The Committee concur in the foregoing recommendations and submit the same for approval.

A. D. P. HEENEY,
Clerk of the Privy Council.

Order in Council revoking appointment of Mr. J. L. Cohen
as a Member of the National War Labour Board.

P.C. 7143

AT THE GOVERNMENT HOUSE AT OTTAWA

THURSDAY, the 9th day of September, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas at the time the National War Labour Board was reconstituted (Order in Council P.C. 1141, 11th February, 1943) it was announced in Parliament that the Board was intended to be in the nature of an industrial court;

And whereas the announced conception of the nature of the Board clearly envisaged an independent and judicial attitude on the part of its members;

And whereas the Chairman of the National War Labour Board in a letter to the Prime Minister has represented that the attitude of Mr. J. L. Cohen, K.C., one of the members of the Board, is completely inconsistent with the principles upon which the National War Labour Board was reconstituted and that he cannot accept responsibility for conducting the work of the Board, on the principles agreed upon, in continued association with Mr. Cohen;

And whereas Mr. Cohen's public statements, before the reports of the public enquiry conducted by the National War Labour Board had been submitted to the government and on a subsequent occasion, indicate an attitude incompatible with the proper exercise of the functions to be performed by the members of the Board;

Now therefore, His Excellency the Governor General in Council, on the recommendation of the Right Honourable W. L. Mackenzie King, the Prime Minister, is pleased to revoke and doth hereby revoke that portion of Order in Council P.C. 1141, 11th February, 1943, appointing Mr. J. L. Cohen, K.C., a member of the National War Labour Board, thereby terminating his membership of the said Board.

Clerk of the Privy Council.

Order in Council providing for exemption from payment of retail purchase tax of goods received as donations for sale

P.C. 41/7263

Certified to be a true copy of a Minute of Meeting of the Treasury Board, approved by His Excellency the Governor General in Council, on the 17th September, 1943.

The Board recommend, under the provisions of Section 3 of the War Measures Act, that authority be granted, within the discretion of the Minister of National Revenue, for exemption from payment of the Retail Purchase Tax in respect of goods received as donations for sale solely to raise funds for war charities authorized under The War Charities Act.

Order in Council amending P.C. 6879, 28th November, 1940 (Civilian claims against the Crown involving the Armed Forces)

P.C. 102/7263

Certified to be a true copy of a Minute of Meeting of the Treasury Board, approved by His Excellency the Governor General in Council, on the 17th September, 1943.

The Board had under consideration the following memorandum from the Honourable the Associate Minister of National Defence:

"The undersigned has the honour to state that the Deputy Minister (Army) reports

- (a) That Regulations governing civilian claims against the Crown in the Right of the Dominion of Canada involving the Canadian Active Service Force and the Royal Canadian Air Force, in Iceland, Newfoundland, and the West Indies, were authorized by Order-in-Council P.C. 6879, dated 28th November, 1940. Paragraph 7 thereof provides that

'In the event that a claimant is entitled to receive compensation from an insurance company for the damages he has suffered, any claim either by the claimant or by the insurance company will be rejected, save and except that if in the case of collision insurance, the insurance contract of the claimant provides for a sum to be payable by the claimant in respect of each claim, the claim for compensation may be considered up to but not exceeding the amount so payable by the claimant as provided in his policy';

- (b) that several cases have occurred in this connection and dissatisfaction has arisen with the result that litigation is threatened, as it is considered that the Crown should not benefit by the insurance effected by the civilian and for which no consideration has been given by the Crown;
- (c) that the General Officer Commanding Canadian Troops in Newfoundland advises that a considerable amount of ill will and bad feeling arises between the civilian claimants and the Dominion Government or alternatively the Canadian Army in Newfoundland in consequence thereof;
- (d) that it is deemed advisable that the settlement of claims against the Crown in Iceland, Newfoundland and the West Indies should be effected in the same manner and on the same basis as claims against the Crown in Canada and the United Kingdom.

2. The Deputy Minister of National Defence (Army) therefore recommends that Order in Council P.C. 6879, dated 28th November, 1940, be amended by deleting paragraph 7 of the Regulations made by the said Order in Council.

3. The Minister of National Defence for Air, the Minister of National Defence for Naval Services and the undersigned concur in the foregoing recommendation of the Deputy Minister, and the undersigned submits the same for approval."

The Board concur in the above report and recommendation, and submit the same for favourable consideration.

A. D. P. HEENEY,
Clerk of the Privy Council.

5. The said contracts shall be either for a stipulated sum or upon the cost plus a fixed fee basis.

6. The Minister may employ such appraisers, architects, builders and other assistants as are necessary to implement this Order and may purchase or rent all equipment and accommodation necessary to carry out the provisions of this Order.

7. The Minister may sublet to suitable tenants at reasonable rentals the housing units so created in the buildings, provided that the term of any sub-lease granted by the Minister shall not exceed a period of one year, and provided further that the sub-lease shall be subject to the right of cancellation by the Minister as is contained in the lease by which the Minister is seized of the building.

8. The rentals received by the Minister from the tenants of the housing units shall be deposited in the Consolidated Revenue Fund.

9. Upon the expiration or the cancellation of the leases the said buildings shall be returned by the Minister to the owners in their then existing condition.

MEMORANDUM
(CUSTOMS DIVISION)

OTTAWA, 16th September, 1943.

To Collectors of Customs and Excise, and others concerned:

In view of the general shortage of iron or steel containers for miscellaneous products due to war conditions, the Department has ruled that, until otherwise determined, such containers when imported filled or empty may be entered free of duty and taxes, provided a like quantity of similar containers in a usable condition has previously been exported from Canada, and the following conditions are complied with:—

1. They must be exported from Canada under Customs supervision, and must be covered by an export entry, showing the quantity, size and type of the different containers exported.

2. A quantity, not exceeding the number of each size and type of container exported, may be imported, provided they are invoiced to the Canadian exporter. A certificate shall be placed on the face of the import entry that no drawback or refund of duty paid on the exported containers or the materials used in their manufacture has been or will be claimed.

In order to facilitate the entry at Customs of any containers imported under the provisions of this Memorandum, they should be entered at the Customs port through which the export entry was made whenever possible. Otherwise, the matter should be referred to the Department with all particulars.

A satisfactory record must be kept by the Collector showing complete details of all containers exported and imported.

With respect to containers of goods exported from Canada as ships' stores, Form K.36A may be considered as constituting "an export entry" for the purpose of this Memorandum.

This ruling does not apply to containers referred to in Tariff Item 709 which may continue to be entered in accordance with the regulations in Memorandum Series D No. 49, TMR 1 (Revised).

Memorandum WM No. 61 (Revised) is hereby superseded.

Administrator's Order No. A-845

Respecting Used Industrial and Construction Equipment

Pursuant to authority conferred by the Wartime Prices and Trade Board, it is hereby ordered on behalf of such Board as follows:

Administrator's Order No. A-246 is hereby revoked and the following substituted therefor:

1. For the purposes of this Order,

- (a) "equipment" means rebuilt equipment and used equipment;
- (b) "essential work" means a project or undertaking authorized or approved by the Government of Canada or one of its Departments for or as ancillary to the defence of Canada in the war or for or as ancillary to the prosecution of the war by His Majesty or any of His Majesty's Allies;
- (c) "rebuilt equipment" means used equipment of which, where required, all worn, broken and missing parts have been reworked, repaired and replaced and it is thereby restored to a condition for performance substantially equivalent to that of which it was capable when new;
- (d) "used equipment" means used industrial or construction machinery or equipment of a kind or type listed in Schedule "A" or "B" hereto which has been put to use for one month or more since it was first put to use when new.

2. (1) Without in any way restricting the generality of the application of this Order, it is hereby declared that it shall apply to every person engaged in the business of buying, selling, leasing or renting equipment and to provincial governments and emanations thereof, municipal and other local government corporations, boards and commissions, public utility corporations and commissions, construction and building contractors, mining, lumbering, pulp and paper corporations and manufacturing and other industrial corporations.

(2) This Order shall not apply to a farmer in respect of the use by him of equipment for any purpose of his farm operations or to equipment owned by him or leased or rented to him for such a purpose.

3. (1) Except as provided in subsection 2 of this Section, every person who owns equipment of a kind or type listed in Schedule "A" hereto shall within thirty days from the effective date of this Order report in writing to the Administrator of Farm and Construction Machinery and Municipal Service Equipment, according to the form prescribed by him, each item and unit of equipment which he owned on the date of this Order.

(2) Subsection 1 of this Section shall not be deemed to require a person to make a report to the said Administrator with respect to equipment referred to in the said subsection

- (a) ownership of which he reported pursuant to Administrator's Order No. A-246;
- (b) marked with the figure "1" in the said Schedule "A", which is permanently built-in as part of a complete stationary operating plant, such as a mine, quarry or sand and gravel plant, and cannot be removed as a separate unit without destroying the operating continuity of the plant; or
- (c) marked with the figure "2" in the said Schedule "A", which is a bucket forming part of a single purpose crane unit operating only as a dragline, clamshell or concrete handling plant if the buckets are reported as part of such unit.

(3) Every person who owns equipment of a kind or type listed in Schedule "B" hereto shall within thirty days from the effective date of this Order report in writing to the said Administrator, according to the form prescribed by him, each item and unit of equipment which he owned on the date of this Order, notwithstanding that he reported ownership thereof pursuant to said Administrator's Order No. A-246.

4. Every person who owns equipment of a kind or type listed in said Schedule "A" shall report in writing, to the said Administrator, according to the form prescribed by him, within seven days from the time when the same,

- (a) having been idle, is put to use on a project or undertaking;
- (b) becomes idle after completion of the use to which it has been put on a project or undertaking;

Every person who owns equipment of a kind or type listed in said Schedule "B" shall report in writing and in duplicate to the said Administrator, according to the form prescribed by him, any sale, lease or rental or use on a project or undertaking which he proposes to make of the equipment and until he has received the approval of the said Administrator thereto, evidenced by his endorsement thereof on one of the said duplicate reports, the equipment shall not be sold, leased, rented or used; provided that in case of emergency application for approval and the approval of a sale, lease, rental or use of the equipment may be made by telegraphic communications between the owner and the said Administrator.

6. (1) Where equipment of a kind or type listed in Schedule "A" or "B" is required for use for the purposes of an essential work, the said Administrator may by direction in writing addressed to a person who owns the required equipment order him to sell or rent the same to the person who requires its use for the said purpose, and the owner so directed within forty-eight hours after receipt of the direction shall by telegraphic communication or otherwise to the said Administrator report the place where the required equipment is located and whether he elects to sell or to rent the same and if he elects to sell, the price at which he offers to sell, not in any event exceeding the maximum price at which it may be sold as established by this Order.

(2) Upon receipt by the said Administrator of the telegraphic or other communication from the owner if he elects to sell the required equipment, the said Administrator shall ascertain from the person who requires its use whether he proposes to buy the equipment at the price offered and in the event of his refusal to do so, the said direction requiring use of the equipment shall be deemed to be withdrawn and the owner shall be notified accordingly.

(3) In the event that the owner elects to rent the required equipment or where he elects to sell in the event that his offer to sell is accepted by the person requiring use of the equipment, the said Administrator shall make such further directions in writing, if any, as may be necessary for completion of the transaction so that the required equipment is without undue delay, available to be put to use for the purposes of the essential work for such period of time as the said Administrator may specify.

(4) Every person to whom any direction in writing is issued by the said Administrator shall comply with the provisions thereof.

7. Every agreement to rent the use of equipment of a kind or type listed in the said Schedule "A" or "B" shall be in writing and signed by the owner and the hirer and each agreement shall include terms respecting the rental according to the provisions of Section 8.

8. (1) Every agreement to rent the use of equipment of a kind or type listed in said Schedule "A" or "B" shall be on a monthly basis or for a portion only of a month.

(2) The maximum rental at which the owner of equipment referred to in subsection 1 of this Section may rent or offer to rent the same on a monthly basis for use on a project or undertaking or on essential work shall be

- (a) where the equipment was originally purchased new during or since the basic period, September 15 to October 11, 1941, both inclusive,—for the first 240 hours or less of actual use in a month, a sum equal to eight per-

centum (8%) of the prevailing price (in Canadian funds) at which the same or the most closely comparable type or model, new is concurrently selling, which sum is hereinafter referred to as the basic monthly rent; or

- (b) where the equipment was originally purchased new prior to the said basic period,—for the first 240 hours or less of actual use in a month, a sum equal to eight per centum (8%) of the maximum price at which the equipment may be sold as provided by this Order, which sum is hereinafter referred to as the basic monthly rent; and
- (c) for each hour of actual use in a month in excess of his first 240 hours of actual use in that month, the sum per hour of one-four hundred and eightieth ($1/480$) of the basic monthly rent according to clause (a) or clause (b) of this subsection, whichever of them is applicable.

(3) Where by agreement equipment referred to in subsection 1 of this Section is rented for a portion only of a month involving actual use for less than 240 hours, the maximum rental at which the owner may rent or offer to rent the same for use on a project or undertaking or on essential work shall be the sum per hour of actual use of one-two hundred and fortieth ($1/240$) of the basic monthly rental; provided that if the actual use in any month by the same person is or exceeds 240 hours, the provisions of subsection 2 of this Section shall become applicable, notwithstanding that the agreement is with respect to a portion only of a month.

(4) Notwithstanding the provisions of subsection 2 or 3 of this Section, whenever the owner of equipment referred to in this Section has by way of rentals thereof received from a person who rented the same, a sum equal to the maximum price at which the equipment may be sold as provided by this Order, the maximum rental on a monthly basis or for a portion only of a month at which he may thereafter rent or offer to rent the equipment to that person pursuant to any rental agreement shall be at the rate of one-eighth ($\frac{1}{8}$) of the maximum rental at which it may be rented under said subsection 2 or 3, as the case may be.

(5) In every agreement to rent the use of equipment referred to in this Section it shall be implied that the cost of transportation thereof both ways between the owner's shipping point and the hirer's receiving point shall be paid by the hirer and unless the context of the agreement otherwise provides or requires the further implied conditions that

- (a) all fuel and lubricants for the equipment shall be supplied by the hirer at his own expense;
- (b) the operator of the equipment shall be engaged and paid by the hirer at his own expense;
- (c) premiums, or a proportionate part thereof, of insurance on or in respect of the equipment for the period of the renting shall be payable by the hirer; and
- (d) the equipment shall be maintained, kept and returned in good repair and operating condition by the hirer at his own expense, ordinary wear and tear only excepted.

(6) The said Administrator may at any time by notice in writing to the parties to an agreement of rental require that any of its terms or any of the implied conditions set forth in subsection 5 of this Section be amended or varied as the said notice may direct.

9. (1) The maximum price at which rebuilt equipment or used equipment not rebuilt which is in a condition for performance equivalent to that of which it was capable when new may be sold or offered for sale by the owner shall be eighty-five per centum (85%) of the price (in Canadian funds) at which the same or the most closely comparable type or model, new, is currently selling.

(2) The maximum price at which used equipment other than rebuilt equipment or used equipment referred to in subsection 1 of this Section, may be sold or offered for sale by the owner shall be just and reasonable having regard to the comparability of its condition and usefulness with those of rebuilt equipment of the same or most closely comparable kind or type, but in any event the price shall not exceed the maximum price at which it could be sold if it were rebuilt.

10. Equipment imported into Canada after the effective date of this Order must not be sold, leased or used without the approval of the said Administrator having been first obtained. Section 4 of this Order shall not apply to the first sale or lease or use of such equipment but only to subsequent transactions of this kind and this Section shall not apply in the case of such subsequent transactions.

11. This Order shall be effective on and after the 23rd day of August, 1943.

Dated at Ottawa, this 7th day of August, 1943.

(a) Only metal containers which are made of the metal named in the Schedule opposite the name of the commodity, or made of the substitute metals permitted by Section 5 may be used.

(b) Only metal containers of the size or sizes stated in the Schedule opposite the name of the commodity may be used to pack the commodity. A twenty ounces metal container of the size 303 x 504 shall not be used after December 31, 1943, to pack any commodity named in commodity Groups "A" and "B" of the Schedule.

No limit
for certain
commodities.

(c) There are no restrictions in the number of metal containers that a person may use to pack a commodity named in the Schedule if the words "no limit" appear opposite the commodity named.

Where
limits
do apply.

(d) Wherever in the said Schedule a percentage of a stated year's pack (being a calendar year) is set forth opposite the name of a commodity then in every such case the greatest number of containers of any authorized size that a person may use in any quota period (being a twelve-months period ending March 31) to pack each such commodity shall be the number calculated by applying the percentage set forth opposite the commodity and size of container to the number of metal containers of the same size he used to pack the same commodity in the calendar year stated after the percentage.

Wherever in the Schedule the words "by total weight" follow a stated percentage of the 1941 pack (as shown, for example, in item 2 of Commodity Group "B") the percentage in such case shall apply to the quantity of the commodity which may be

packed instead of the number of metal containers that may be used. And in such cases the 1941 pack shall be the total quantity of the commodity packed regardless of the size of containers used for the purpose in calendar year 1941.

In Order No. A-425 the quota year was declared to be a twelve month period ending September 30. The change in the quota year as provided in this Order will result in an overlapping of the said two quota periods in respect of the six months ending September 30, 1943. To avoid any possible hardship that might occur through the change of the quota period a packer shall be deemed to comply with this rule (d) if during the eighteen months period October 1, 1942, to March 31, 1944, his use of containers or the quantity of the commodity he packs does not exceed one and one-half times (150% of) the number of containers he is permitted to use or the quantity of the commodity he is permitted to pack, as the case may be, in a quota period ending March 31.

Removing
fruit, etc.
from one
container
to another.

9. No person shall remove any fruit, fruit juice, vegetables, vegetable juice or soup from a metal container in which it has been packed, to a metal container unless the first mentioned metal container has a capacity of four gallons or more and it can be used again to pack the same or a similar kind of commodity.

Limit to
stocks of
stamped,
etc. con-
tainers.

10. The largest number of metal containers having a brand or trade name embossed, stamped or lithographed thereon that any person who packs commodities for sale may have on hand and on order at any time shall be the number thereof he would normally use to pack commodities for sale in a six months period immediately following such time.

Statement
as to use
of con-
tainers.

11. Before a person acquires any metal containers for use he must file with his supplier a signed statement showing, for the information of his supplier and of the Wartime Prices and Trade Board, the quantities by sizes of the metal containers he requires. In the said statement he must also undertake to use the metal containers according to the rules provided in this Order or according to the terms of a permit issued by the said Administrator.

Reports.

12. Every person who manufactures or uses metal containers shall make such reports to the said Administrator as the said Administrator may from time to time require.

Dated at Ottawa, this 23rd day of August, 1943.

L. F. BURROWS,
Administrator of Metal Containers.

APPROVED:

M. W. MACKENZIE,
Deputy Chairman, Wartime Prices and Trade Board.

CONCURRED:

HENRY BORDEN,
Chairman, Wartime Industries Control Board.

Order in Council fixing tariff treatment, impregnated hair pads.

P.C. 7318

AT THE GOVERNMENT HOUSE AT OTTAWA

MONDAY, the 20th day of September, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas the Minister of Finance reports:

That due to the shortage of steel springs, furniture manufacturers are now using impregnated pads of hair compressed into the shape of a cushion;

That these hair pads, which are of a class or kind not made in Canada, are imported from the United States;

That when The Wartime Prices and Trade Board recently approved new prices for furniture upholstered with imported hair pads costs were computed on the basis of these pads being dutiable at the rate of $17\frac{1}{2}$ per cent ad valorem;

That upon further examination it was established that impregnated hair pads are properly dutiable at the rate of 40 per cent ad valorem and $32\frac{1}{2}$ cents per pound when imported from the United States or any other country the products of which are entitled to Intermediate Tariff treatment; and

That it would be in the best interests of the Canadian furniture industry if the Intermediate Tariff rate on imported impregnated hair pads were reduced to $17\frac{1}{2}$ per cent ad valorem.

His Excellency the Governor General in Council, on the recommendation of the Minister of Finance, and under the authority of the War Measures Act, Chapter 206, Revised Statutes of Canada, 1927, is pleased to Order and it is hereby ordered that imports of impregnated hair pads for use only in the manufacture of upholstered furniture be accorded the tariff treatment hereunder indicated; effective July 1, 1943.

Order in Council amending P.C. 6602, 19th August, 1943, payments to millers, etc., re Western Wheat used.

P.C. 7323

AT THE GOVERNMENT HOUSE AT OTTAWA

MONDAY, the 20th day of September, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas by Order in Council P.C. 6602 dated 19th August, 1943, provision was made for payments by the Canadian Wheat Board during the year August 1, 1943, to July 31, 1944, to flour millers in respect of western wheat used in the manufacture of flour or other human foods containing wheat at a rate equal to the difference between the monthly average price of Number One Northern Wheat or Number One CW Amber Durum Wheat, in store Fort William-Port Arthur, and 77- $\frac{3}{4}$ cents;

And whereas the said Order in Council also provided that no flour miller should be entitled to payments thereunder unless and until he had completed an undertaking that if in respect of any fiscal year of the flour miller his net taxable income, inclusive of all sums received by him at any time from the Canadian Wheat Board by way of payment hereunder in respect of deliveries of flour or other human foods during such fiscal year, exceeded 116- $\frac{2}{3}$ per cent of his standard profits, he would, as soon as possible after the end of such fiscal year, and not later than the date on which the recipient is required under the Income War Tax Act to file an income tax return in respect of such fiscal year, refund to the Commodity Prices Stabilization Corporation for account of the Canadian Wheat Board the amount of such excess;

And whereas the Minister of Finance reports that because some flour millers are engaged in other businesses in addition to flour milling, or have fiscal years not coinciding with the year August 1, 1943, to July 31, 1944, or have corporate income derived from investments, or for other reasons, the strict application of the provisions of the said Order relating to refunds of payments would be inequitable and it is desirable to give the Minister of Finance authority to approve variations in the method of calculation in such cases;

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Finance and under and by virtue of the War Measures Act, Chapter 206, Revised Statutes of Canada, 1927, is pleased to amend Order in Council P.C. 6602, dated August 19, 1943, and it is hereby amended by adding to Sub-section (b) of section 2 thereof the following:

Provided however that in any case or class of cases where in the opinion of Commodity Prices Stabilization Corporation Ltd., application of the above principles of calculation of refund of payments would be inequitable, Commodity Prices Stabilization Corporation Ltd. may require an undertaking providing for calculation of refund of payments on such other basis or by such other method as the Minister of Finance may approve.

A. D. P. HEENEY,

Clerk of the Privy Council.

Order in Council reducing premium rates on war risk insurance

P.C. 7407

AT THE GOVERNMENT HOUSE AT OTTAWA

TUESDAY, the 21st day of September, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas under the War Risk Insurance Act, 1942, provision is made *inter alia* for the laying down of regulations by the Governor in Council to determine the rate or rates of premiums to be charged for insurance under the said Act;

And whereas by Order in Council P.C. 8344 dated September 14, 1942, regulations were made providing for the rates of premiums to be charged on various types of policies to be issued under the said Act;

And whereas by Order in Council P.C. 11038 dated December 3, 1942, provision was made whereby the aforesaid rates were altered by providing for a refund of a portion of the net premium contribution by the persons insured under the said Act, in the event of there being a net surplus in the said Act at the end of the war;

And whereas the Minister of Finance reports that in view of the position of the allied nations in the war in recent months and the desirability of encouraging the public to continue to purchase or renew policies of war risk insurance during the coming year, it is considered expedient and desirable to effect a further reduction in the premium rates effective on and after the seventeenth day of August, 1943.

Therefore, His Excellency the Governor General in Council on the recommendation of the Minister of Finance and under and by virtue of the provisions of the War Risk Insurance Act 1942, is pleased to order and doth hereby order as follows:—

1. The rates of premiums of policies other than trip transit policies, as laid down by Order in Council P.C. 8344 dated September 14, 1942, and as amended by Order in Council P.C. 11038 dated December 3, 1942, are hereby reduced by 20 per cent, such reduction to be effective on and to apply to all policies or renewals of policies issued on and after the seventeenth day of August, 1943.

2. The rate of premium on trip transit policies sold under the War Risk Insurance Act 1942 is hereby reduced from three cents to two and one-half cents per \$100.

H. W. LOTHROP,

Associate Clerk of the Privy Council.

Order in Council reducing premiums War Risk Insurance on grain

P.C. 7408

AT THE GOVERNMENT HOUSE AT OTTAWA

TUESDAY, the 21st day of September, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas under the War Risk Insurance Act, 1942, provision is made *inter alia* for the laying down of regulations by the Governor in Council to determine the rate or rates of premiums to be charged for insurance under the said Act;

And whereas by Order in Council P.C. 10229 dated November 19, 1942, a special insurance scheme to cover all grain in elevators licensed under the Canada Grain Act, in flour mills, in plants for the manufacture of grain products and in transit in Canada was instituted and provision was made for the collection of a premium by means of a levy both upon the stocks of grain in certain positions in store at the close of

business on November 30, 1942 and upon the movement of grain into certain licensed elevators thereafter, the said levy being as more particularly set out in the said Order in Council;

And whereas the Minister of Finance reports that in view of the position of the allied nations in the war in recent months and the desirability of continuing the blanket coverage of all grain in licensed premises in Canada in flour mills and plants as aforesaid, it is expedient and desirable to reduce the rate of premium levied under the said Order in Council by twenty per cent effective on and after the first day of September, 1943;

Therefore, His Excellency the Governor General in Council, on the recommendation of the Minister of Finance, and under and by virtue of the provisions of the War Risk Insurance Act 1942 and the War Measures Act, is pleased to reduce the rate of premium for war risk insurance under the said Act as provided for in Order in Council P.C. 10229 dated November 19, 1942, and it is hereby reduced by twenty per cent effective on and after the first day of September, 1943.

H. W. LOTHROP,
Associate Clerk of the Privy Council.

Order in Council *re* guarantee, repayment of loans made by banks in pursuance of the regulations *re* flaxseed

P.C. 7410

AT THE GOVERNMENT HOUSE AT OTTAWA

THURSDAY, the 23rd day of September, 1943.

PRESENT:

HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

Whereas by Order in Council P.C. 1800, dated March 9, 1942, certain Regulations (hereinafter called the "Flaxseed Regulations") were made empowering the Canadian Wheat Board (hereinafter called "the Board") to appropriate and control at some early date all the flaxseed in store in Canadian elevators and all flaxseed to be delivered by producers after such date;

And whereas Order in Council P.C. 2166, dated March 19, 1942, provided that the Flaxseed Regulations in their entirety should be effective on March 19, 1942;

And whereas Order in Council P.C. 2447, dated March 27, 1942, made pursuant to the Flaxseed Regulations, authorized the Minister of Finance on behalf of the Government of Canada to guarantee advances made to the said Board by the following banks, namely,

Bank of Montreal,
The Royal Bank of Canada,
The Canadian Bank of Commerce,
The Bank of Nova Scotia,
The Bank of Toronto,
Imperial Bank of Canada,
The Dominion Bank,
Banque Canadienne Nationale,

and interest on such advances at such rate or rates and upon such terms of payment thereof as may be agreed upon from time to time between the Board and the said banks with the approval of the Minister of Finance, the said guarantee to be in the form annexed to the said Order in Council or one to like effect, and pursuant thereto the Minister of Finance executed such a guarantee in favour of the said banks on April 8, 1942;

And whereas paragraph 11 of the Flaxseed Regulations provides that the Flaxseed Regulations shall expire on August 1, 1943, as if the said Regulations were revoked on the said date, subject to the provisions of section 19 of The Interpretation Act which was thereby made applicable thereto;

And whereas by Order in Council P.C. 6091, dated July 31, 1943, the date of expiration of the Flaxseed Regulations was extended to September 1, 1943, and the guarantees given by the Minister of Finance were made applicable to advances made by any of the said banks on and after August 1, 1943, until and including August 31, 1943, but not thereafter;

And whereas the Minister of Finance reports that the Board had flaxseed stocks in country elevators on August 31, 1943, which would have to be paid for thereafter as they attain a deliverable position, and the Board were under the necessity on and after September 1, 1943, of borrowing money on the security of flaxseed appropriated by it or delivered to it in order to enable it to pay for flaxseed to be so appropriated or delivered after September 1, 1943, and it is, therefore, expedient that the date of expiration of the Flaxseed Regulations be extended to April 1, 1944, and that the guarantees given by the Minister of Finance be made applicable to advances made by any of the said banks on and after September 1, 1943, until and including March 31, 1944, but not thereafter;

Therefore His Excellency the Governor General in Council, on the recommendation of the Minister of Finance and under and by virtue of the powers conferred by The War Measures Act, Chapter 206, Revised Statutes of Canada, 1927, and otherwise, is pleased to order and doth hereby order as follows:

- (1) The Flaxseed Regulations are hereby further amended by deleting the words and figures "September 1, 1943" from paragraph 11 thereof and substituting therefor the words and figures "April 1, 1944", and thereafter the said paragraph shall be deemed always to have read as so amended;
- (2) The guarantees, dated April 8, 1942, given by the Minister of Finance, pursuant to Order in Council P.C. 2447, shall be applicable to any advances made by any of the said banks from time to time under the authority of the Flaxseed Regulations as amended by Order in Council P.C. 6091, dated July 31, 1943, and as further amended by this Order in Council until and including March 31, 1944, but not thereafter;
- (3) This Order shall be deemed to have come into force on August 31, 1943.

H. W. LOTHROP,
Associate Clerk of the Privy Council.

Order in Council *re* insurance on vessels under construction

P.C. 41/7430

Certified to be a true copy of a Minute of a Meeting of the Treasury Board, approved by His Excellency the Governor General in Council, on the 22nd September, 1943.

The Board had under consideration a memorandum from the Honourable the Minister of Munitions and Supply reporting:—

"That the Department has recently had under consideration and review its policy in respect of insurance of and incidental to vessels being built under contract with His Majesty the King, represented by the undersigned;

That it has been the general policy of the Department to carry or cause its contractors to carry insurance in respect of such vessels while under construction and up to the time of delivery and final acceptance under the contract;

That the cost of such insurance has been borne by His Majesty as part of the cost or price of the vessel being built and such cost from the beginning of the war to the present time has been greatly in excess of the losses which have occurred and for which claims have been made against the insurance companies with which such insurance has been carried;

That as a result of the aforementioned consideration and review, and in view of the large shipbuilding program and the widespread nature of the risk, the undersigned is of the opinion that it is desirable and in the public interest that

changes should be made in the policy of the Department as regards such insurance and that the general policy therefor should be as set out in general terms in the memorandum attached hereto as Schedule A;

That the general policy set out in said Schedule A is in conformity with the policy recommended in the third report of sub-Committee No. 1 of the Special Committee on War Expenditures set up by the House of Commons in the 1942 Session;

The undersigned, therefore, upon the advice of the Deputy Minister, has the honour to recommend that, under and by virtue of the powers conferred by the War Measures Act and the Department of Munitions and Supply Act, Your Excellency in Council be pleased to order as follows:

1. 4. (1) In the Schedule there are two sets of specifications for each kind of paper. The "Standard Specifications" must be used where the quantity of paper being made is less than the minimum set out in the Special Making Order Specifications for the same kind and grade of paper.

(2) The "Special Making Order Specifications" may be used only where the quantity of paper being made is not less than the minimum appearing in such specifications for that kind and grade of paper and the purchaser certifies to the manufacturer or wholesaler that the entire order is for use by him or for resale without further processing to one consumer.

General Provisions

5. It is permissible, as an added service and distinct from the term "manufacture" as used in this Order, for a manufacturer to cut paper to sizes of which the size specified is a multiple, or for a wholesaler to cut paper to smaller sizes than those specified.
